Rewards through Resilience Steven W. Sanders,2023-12-05 Struggle is a real world phenomenon particularly if we want to make a difference in our lives and the lives of others The struggles we face can be as

routine as dealing with the traffic to get to our place of work on time We may also struggle with physical or mental illness a family dynamic that is not improving or a difficult job In extreme cases some must live through oppression and life threatening events brought on by an oppressive regime Struggle is an effort to gain freedom from constraints to withstand or overcome obstacles or to work against competing forces in order to make a meaningful change or difference Whether we encounter frequent struggles or only a few we all must face them not necessarily by choice We are aware of the pain and difficulties associated with struggles as well as the feeling of gratification and relief when we withstand outlast or overcome them We learn from struggles together with building strength of character and resilience the next time we encounter similar challenges How we engage and overcome struggles shapes our attitudes and perspectives regarding our lives and our ability to make a difference in the lives of others
