Georgian Canada Donald Blake Webster, Michael S. Cross, Irene Szylinger, Royal Ontario Museum, 1984      *Slavery, Geography and Empire in Nineteenth-Century Marine Landscapes of Montreal and Jamaica* Charmaine A. Nelson, 2017-07-05

Slavery Geography and Empire in Nineteenth Century Marine Landscapes of Montreal and Jamaica is among the first Slavery Studies books and the first in Art History to juxtapose temperate and tropical slavery Charmaine A Nelson explores the central role of geography and its racialized representation as landscape art in imperial conquest One could easily assume that nineteenth century Montreal and Jamaica were worlds apart but through her astute examination of marine landscape art the author re connects these two significant British island colonies sites of colonial ports with profound economic and military value Through an analysis of prints illustrated travel books and maps the author exposes the fallacy of their disconnection arguing instead that the separation of these colonies was a retroactive fabrication designed in part to rid Canada of its deeply colonial history as an integral part of Britain's global trading network which enriched the motherland through extensive trade in crops produced by enslaved workers on tropical plantations The first study to explore James Hakewill's Jamaican landscapes and William Clark's Antigua genre studies in depth it also examines the Montreal landscapes of artists including Thomas Davies Robert Sproule George Heriot and James Duncan Breaking new ground Nelson reveals how gender and race mediated the aesthetic and scientific access of such mainly white male artists She analyzes this moment of deep political crisis for British slave owners between the end of the slave trade in 1807 and complete abolition in 1833 who employed visual culture to imagine spaces free of conflict and to alleviate their pervasive anxiety about slave resistance Nelson explores how vision and cartographic knowledge translated into authority which allowed colonizers to civilize the terrains of the so called New World while belying the oppression of slavery and indigenous displacement      **The Oxford History of the British Empire: Historiography** Robin W. Winks, 1999 This volume investigates the shape and the development of scholarly and popular opinion about the British Empire over the centuries      **The Oxford History of the British Empire: Volume V: Historiography** Robin Winks, 2001-07-26 The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth British imperialism was a catalyst for far reaching change The Oxford History of the British Empire as a comprehensive study helps us to understand the end of Empire in relation to its beginning the meaning of British imperialism for the ruled as well as for the rulers and the significance of the British Empire as a theme in world history This fifth and final volume shows how opinions have changed dramatically over the generations about the nature role and value of imperialism generally and the British Empire more specifically The distinguished team of contributors discuss the many and diverse elements which have influenced writings on the Empire the pressure of current events access to primary sources the

creation of relevant university chairs the rise of nationalism in former colonies decolonization and the Cold War They demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide ranging enquiry about international relations the uses of power and impacts and counterimpacts between settler groups and native peoples The result is a thought provoking cultural and intellectual inquiry into how we understand the past and whether this understanding might affect the way we behave in the future

**Persuasion and Propaganda** Joan Coutu,2006-08-23

Lavishly illustrated Persuasion and Propaganda is the first study of these works of art within the framework of colonial politics and political culture While examining the rise of the idea of the public in the modern world Joan Coutu also explores how empire was constantly being redefined From private funeral monuments in the West Indies to works erected by the East India Company and the British Parliament Coutu shows how the youthful British Empire saw itself and validated its mission through sculpture

**Representing the Black Female Subject**

**in Western Art** Charmaine A. Nelson,2010-06-10 This book offers the first concentrated examination of the representation of the black female subject in Western art through the lenses of race color and sex gender Charmaine A Nelson poses critical questions about the contexts of production the problems of representation the pathways of circulation and the consequences of consumption She analyzes not only how where why and by whom black female subjects have been represented but also what the social and cultural impacts of the colonial legacy of racialized western representation have been Nelson also explores and problematizes the issue of the historically privileged white artistic access to black female bodies and the limits of representation for these subjects This book not only reshapes our understanding of the black female representation in Western Art but also furthers our knowledge about race and how and why it is re defined and re mobilized at specific times and places throughout history
