Doodlebug Days Nancy Lockard Gallop, Dorothy Lockard Bristol, 2000 Our 1935 black Oldsmobile and heavily loaded trailer drew hostile looks as we drove into Bakersfield and stopped at a shady park to check the tires When Mother Daddy we two girls and our young brother Skippy got out two work hardened men in ranch straw hats and short sleeved cotton shirts stood staring suspiciously at our California license plates Had those plates on long the shorter man challenged Daddy Guess you'd say so Daddy answered pleasantly Mother's hands were settling on her hips a sure sign her indignation would be expressed verbally at the first sign of an insult from the men The taller man took a step toward Daddy Hope you're not looking for farm work in Bakersfield cause there isn't any Deliberately the man spat on the curb Every damn fool in Texas Missouri Arkansas and Oklahoma is either here or on Route 66 trying to get here in some beat up jalopy Not enough cotton or potatoes in all of Kern County to keep half of them busy No Daddy said evenly Not looking for work Just looking to head

out of here in a few minutes While Daddy circled our car and trailer Mother glared at the men snapped open her white envelope purse and drew out a bottle of Coty s Emeraude dabbing a drop behind each ear It s so much hotter here than in Lynwood she said loftily I don t know how people can stand it Turning her back on the Bakersfield men she added Come on children let s get back in the car And don t step in that filth on the sidewalk As Daddy pulled away from the curb Mother fanned herself with her purse Imagine Bruce you a civil engineer looking for farm work I d like to have given those Bakersfield men a piece of my mind and I would have too if your work weren t so secret They treated us as if we were Dust Bowl migrants In California in 1935 twenty percent of the country s labor force was unemployed and hobos regularly knocked on back doors for handouts To survive in the Great Depression our father had taken a job with an oil exploration party in the San Joaquin Valley Our family packed up and left southern California to join him Between 1900 and 1936 California led the nation in petroleum production Oil companies certain that great reserves of oil still lay hidden sent exploration crews called doodlebug parties throughout California to find new fields The intense competition among oil companies mandated secrecy concerning doodlebug party movements By setting explosives off in a series of holes doodlebuggers would measure the echoes and make a seismic record that might indicate the presence of oil Our new life was scary because we girls Nancy age 10 and Sunny 12 had been allowed to make the decision whether to follow our father or remain in comfortably familiar Lynwood just south of Los Angeles Still we knew that our father felt fortunate to be holding a job even one that worked a hardship on his wife and children We left our home in Southern California and headed north over the Ridge Route towing our possessions behind our car in a small canvas covered trailer Even though the security of our family unit buffered us against hardships we girls were apprehensive Still we were excited about the new life that was unfolding DOODLEBUG DAYS takes place in a California with a population of only six million The Valley towns in which we lived were small and agricultural with tight knit established families For the employed life was less complicated than it is today Radios not televisions were prominently enshrined in each living room In the small towns up and down the Valley people pulled their kitchen chairs close to their radio to listen to President Roosevelt s fireside chats as he discussed solutions to the problems that marked the era The London Gazette ,1915 **Encyclopedia of the American Novel** Abby H. P. Werlock,2015-04-22 Praise for the print edition no other reference work on American fiction brings together such an array of authors and texts as this Reading the West Michael Kowalewski,1996-02-23 The American West of myth and legend has always exerted a strong hold on the popular imagination and the essays in Reading the West examine some of the basis of that fascination Reading the West first published in 1996 is a collection of critical essays by writers independent scholars and critics on the literature of the American West in the last two centuries It showcases new ways of reading and understanding western writing Arguing for the importance of place in literature these essays explore what makes representative literary works western They also explore the multicultural and ecological dimensions of western writing This

Landscapes Stanley A. Rice, 2025-07-15 Rediscover the thriving civilizations of Pre Columbian America and learn how Native ingenuity transformed the landscape into a flourishing world we can still learn from today North America was not empty nor were its inhabitants savages when Europeans arrived in 1492 Quite the opposite North America was thickly populated by indigenous people who lived in clean cities had a thriving economy and transformed the landscape into bountiful productivity *Forgotten Landscapes* reveals the incredible extent to which Native Americans manipulated and shaped their surrounding environs through agricultural practices and urban engineering resulting in one of the most prosperous civilizations of their time Well before European contact North American cities and villages were bound together by an intricate trade network Today Spiro Mound in rural Oklahoma is a few piles of dirt not on the road to anywhere But at the time of the Mississippian civilization about a thousand years ago it was one of the largest cities in the world With the controlled use of fire Native Americans had transformed thick forests into open woodlands and expanded the ranges of prairies Through organized hunting Natives controlled the populations of prey animals such as passenger pigeons and when Native populations grew large enough they developed agriculture including irrigated crops and even orchards In this fascinating and overdue book author Stanley A Rice shows readers the Pre Columbian landscape of America that has been largely forgotten Catalog of Copyright Entries.
