Geraniums and Pelargoniums Jan Taylor, 1988 **Pelargoniums** Henry James Wood, 1966 *Geranium and Pelargonium* Maria Lis-Balchin, 2002-10-03 Confusion about the genera *Geranium* and *Pelargonium* existed even before Linnaeus binomial system of classification bundled both into the former category in 1753 Despite later evaluations that separated the two many practitioners of alternative medicine and aromatherapists among others remain unaware of the distinction Laymen and plant sales personnel are often equally in the dark as the majority of garden center geraniums are *Pelargonium* species and cultivars This work aims to dispel myths and peel away layers of incorrect and muddled information which contribute to the unclear image of the genera *Geranium* and *Pelargonium* The Genus *Geranium* and *Pelargonium* features discussion and new information on some of the following areas taxonomy and history of usage and nomenclature cultivation for essential oil production and retail purposes in different countries phytochemistry of the genera chemistry of *Geranium* and *Pelargonium* oils theory and practice of distillation of *Geranium* and *Pelargonium* oils pharmacology and therapeutic properties of *Geranium* and *Pelargonium* oils and extracts use of *Geranium* and *Pelargonium* products in aromatherapy perfumery cosmetics food processing and medicine new research into *Geranium* and *Pelargonium* This book will be of interest to graduate students scientists and professionals in the *Geranium* and *Pelargonium* growing and retail industry the perfumery food and cosmetics industries and to those interested in *Geranium* and *Pelargonium* for alternative and conventional medical use Theory and practice of distillation **Growing Pelargoniums and Geraniums** Beryl Stockton, John Mason, Geoff Stockton, 1996 Colourful and comprehensive guide to these versatile plants with descriptions cultivation and landscaping notes hints on propagation pests diseases and pruning **The Passion for Pelargoniums** Anne Wilkinson, 2007-05-24 Quick and reliable to grow for summer colour and well marketed most gardeners will have at least one pelargonium in their garden or conservatory without realising either the number or variety of species available nor the plant's extraordinary history The Passion for Pelargoniums reveals the fascinating and dramatic tales of those who have been involved in finding classifying collecting and breeding the plants It explodes the myth that all modern versions of the plant are descended from the oldest known variety the seventeenth century drab coloured *P. triste* literally translated as the sad pelargonium and reveals that 2 000 hybrids have been developed from less than a dozen plants originally imported from the East From the contribution of L Heritier whom Sir Joseph Banks named an impudent Frenchman to collectors like Masson and the Marquess of Blandford known for his elegant emporium competing nurserymen determined to make both fortunes and reputations and the burgeoning Victorian varieties as growers searched for the holy grail of the scarlet geranium the book recounts the plant's extraordinary history Today while traditional white ones doubles nosegays and rosebuds still flourish the lemon scented geranium is only one of a number of scented varieties while pelargoniums can have flowers of pink red purple yellow or black This is the story of how the passion felt by gardeners for their plants stirred them to bitter

rivalry and criminal obsession scandal fraud and fast dealing and saw polite society being rather less than polite
