Gerard Smith On Arms Control:

Gerard Smith on Arms Control Gerard C. Smith, 1987 This volume is a collection of 36 of Ambassador Smith's articles and speeches arranged in chronological order in the sequence he wrote or delivered them His aim has been the realization of an understanding on arms control not demonstrations that no agreement is possible In this quest of arms agreements

Ambassador Smith has been untiring **Gerard C. Smith** Gerard C. Smith, 1989 As a 37 year old assistant to an Atomic Energy Commissioner in 1951 at the outset of a public career already spanning four decades Gerard Smith journeyed to Eniwetok to witness an atmospheric nuclear test He later characterized the experience as having a look at Hell He has dedicated his career to the cause of enhancing understanding of the risks posed by nuclear weapons and to seeking practical non utopian measures to limit these risks In this volume an extraordinary group of similarly committed men reflect upon their joint endeavors to foster nuclear understanding and restraint The contributors are uniformly conscious of the incompleteness of their task but united in their belief that the quest must continue The historical insights and personal anecdotes that they record bear compelling witness to the intelligence integrity moral gravity and steadfastness of Gerard Smith **Strategic**

president is to safeguard the nation's security But the president cannot do this alone He needs help In the past half century presidents have relied on their national security advisers to provide that help Who are these people the powerful officials who operate in the shadow of the Oval Office often out of public view and accountable only to the presidents who put them there Some remain obscure even to this day But quite a number have names that resonate far beyond the foreign policy elite McGeorge Bundy Henry Kissinger Zbigniew Brzezinski Colin Powell Condoleezza Rice Ivo Daalder and Mac Destler provide the first inside look at how presidents from John F Kennedy to George W Bush have used their national security advisers to manage America's engagements with the outside world They paint vivid portraits of the fourteen men and one woman who have occupied the coveted office in the West Wing detailing their very different personalities their relations with their presidents and their policy successes and failures It all started with Kennedy and Bundy the brilliant young Harvard dean who became the nation's first modern national security adviser While Bundy served Kennedy well he had difficulty with his successor Lyndon Johnson needed reassurance more than advice and Bundy wasn't always willing to give him that Thus the

basic lesson the president sets the tone and his aides must respond to that reality The man who learned the lesson best was someone who operated mainly in the shadows Brent Scowcroft was the only adviser to serve two presidents Gerald Ford and George H W Bush Learning from others failures he found the winning formula gain the trust of colleagues build a collaborative policy process and stay close to the president This formula became the gold standard all four national security advisers who came after him aspired to be like Brent The next president and national security adviser can learn not only from success but also from failure Rice stayed close to George W Bush closer perhaps than any adviser before or since But her closeness did not translate into running an effective policy process as the disastrous decision to invade Iraq without a plan underscored It would take years and another national security aide to persuade Bush that his Iraq policy was failing and to engineer a policy review that produced the surge The national security adviser has one tough job There are ways to do it well and ways to do it badly Daalder and Destler provide plenty of examples of both This book is a fascinating look at the personalities and processes that shape policy and an indispensable guide to those who want to understand how to operate successfully in the shadow of the Oval Office

Scorpion King Scott Ritter, 2020-06-01

We may be likened to two scorpions in a bottle each capable of killing the other but only at the risk of his own life ROBERT OPPENHEIMER *Scorpion King* America s Suicidal Embrace of Nuclear Weapons from FDR to Trump is a history of America s corrosive affair with nuclear weapons and the failed efforts to curb this radioactive ardor through arms control The book s title refers to the allusion by Robert Oppenheimer the father of the American atomic bomb to dueling scorpions when discussing the deadly nuclear rivalry between the US and Soviet Union and signals the dangers inherent in the resumption of the perilous US drive for nuclear supremacy Providing a vivid and gripping A Z history of America s deceptive use of arms control as a means of actually furthering its quest for nuclear dominance Ritter sheds light on a contradictory US agenda little understood by the lay reader while providing sufficient detail and context to engage the specialist Originally published by Nation Books in 2010 under the title *Dangerous Ground* this new version has been streamlined and significantly expanded to account for the failed arms control policies of the Obama administration and the rejection of arms control as a policy during the first term of the Trump administration The Trump administration has pulled out of one landmark arms control treaty the 1987 Intermediate Nuclear Forces treaty and is threatening to let another the 2010 New START treaty expire The terrifying Cuban missile crisis of 1962 demonstrated the apocalyptic folly of nuclear arsenals operating without limitation and led to reciprocal constraints that moderated the nuclear ambitions of both the US and Soviet Union Those constraints for the most part no longer exist The next missile crisis could prove terminal for humanity *Scorpion King* is a book that can and should occupy the shelves of academic libraries diplomats and military professionals as well as make the reading lists of

concerned citizens given the dangerous state of US and Russian relations now hovering on the cusp of a new and increasingly hazardous nuclear arms race It provides a road map showing how we collectively returned to the nuclear cliff edge and shines light on the possibility of an exit from a seemingly endless dark tunnel Providing context for the forthcoming 2020 Review of the Non Proliferation Treaty Scorpion King is must reading for an imperilled world National Security Entrepreneurs and the Making of American Foreign Policy Vincent Boucher, Charles-Philippe David, Karine Prémont, 2020-11-12 Since the advent of the contemporary US national security apparatus in 1947 entrepreneurial public officials have tried to reorient the course of the nation's foreign policy Acting inside the National Security Council system some principals and high ranking officials have worked tirelessly to generate policy change and innovation on the issues they care about These entrepreneurs attempt to set the foreign policy agenda frame policy problems and solutions and orient the decision making process to convince the president and other decision makers to choose the course they advocate In National Security Entrepreneurs and the Making of American Foreign Policy Vincent Boucher Charles Philippe David and Karine Prémont develop a new concept to study entrepreneurial behaviour among foreign policy advisers and offer the first comprehensive framework of analysis to answer this crucial question why do some entrepreneurs succeed in guaranteeing the adoption of novel policies while others fail They explore case studies of attempts to reorient US foreign policy waged by National Security Council entrepreneurs examining the key factors enabling success and the main forces preventing the adoption of a preferred option the entrepreneur's profile presidential leadership major players involved in the policy formulation and decision making processes the national political context and the presence or absence of significant opportunities By carefully analyzing significant diplomatic and military decisions of the Johnson Nixon Reagan and Clinton administrations and offering a preliminary account of contemporary national security entrepreneurship under presidents George W Bush Barack Obama and Donald Trump this book makes the case for an agent based explanation of foreign policy change and continuity **Hearings, Reports and Prints of the House Committee on Foreign Affairs** United States. Congress. House. Committee on Foreign Affairs (1789-1975), 1970 **Developments in Europe**, 1982 **Dynamic Détente** Stephan Kieninger, 2016-03-23 This book examines the dynamic evolution of Western détente policies which sought to transform Europe and overcome its Cold War division through more communication and engagement Kieninger challenges the traditional Cold War narrative that détente prolonged the division of Europe and precipitated America's decline in the aftermath of the Vietnam War Rather he argues that policymakers in the US Department of State and in Western Europe envisaged the stability enabled by détente as a precondition for change as Communist regimes saw a sense of security as a prerequisite for opening up their societies to Western influence over time Kieninger identifies the Helsinki Accords Lyndon Johnson's bridge building and Willy Brandt's Ostpolitik as efforts aimed at constructive changes in Eastern Europe through a multiplication of contacts communication and cooperation on all societal levels This study also illuminates the longevity of

America's policy of peaceful change against the background of the nuclear stalemate and the military status quo

Congressional Record United States. Congress, 1994 **Johnson, McNamara, and the Birth of SALT and the ABM Treaty 1963-1969** John M. Clearwater, 1996-12 The purpose of this book is to examine the birth of bilateral strategic arms control between the United States and the Soviet Union during the Johnson Administration from 1964 to 1969. It is about the time and the place of the birth of bilateral strategic arms control as it came about in the United States through the efforts of President Lyndon Johnson and Secretary of Defense Robert McNamara in the 1960s. This is the time of the birth of what quickly came to be known as SALT or the Strategic Arms Limitation Talks. This inquiry firstly considers whether the move towards bilateral strategic arms control was institutional or personal. It then looks for the motivating factors both theoretical and substantive. As few things have only a single cause, it is likely that we shall find that the birth of strategic arms control was influenced by both nuclear weapons employment theory and by a substantive incident or reality such as the ever increasing number and sophistication of nuclear weaponry. Lastly, we must look for an immediate precipitating factor such as the move towards deployment of a potentially destabilizing ABM system by both the USA and USSR. Therefore, it must be borne in mind when examining the people and their theories, the institutions, the prevailing realities, and major precipitating factors that they all come together to form the basis for the birth of bilateral strategic arms control. This book shall therefore strive to reveal the extent of personal input, the objective basis for that personal commitment, and examine the major precipitating factors, namely Anti Ballistic Missiles (ABM) and to a lesser extent Multiple Independently Targeted Re Entry Vehicles (MIRV). Although barely discussed at the time, the MIRV would turn out to be a major arms control problem far greater than the hotly contested ABM system which spurred so many debates. The unique aspect of this research is that other writers have concentrated almost totally on the people and events surrounding the Nixon Administration when studying SALT. While it is true that the talks did not get underway during the Johnson years, this study will show that all of the theoretical and preparatory work was done in the Johnson years and conclude by showing that many of the same people appear in the Nixon years. Without the input of McNamara and his team, there would have been no movement on strategic arms control until possibly the 1970s. To add to the historical value of the work, I have included in the annexes complete texts of the initial arms control proposal which the US team was to present to the Soviet Union in the autumn of 1968. In addition, presented here for the very first time are the full instructions to the negotiating team and the initial presentation paper to be read by the team leader on the opening day of the talks. When this final material is tied in with the history of the push for the talks, the story is indeed exciting and meaningful. For the first time, we are presented with the almost complete picture of the formulation of an arms control proposal. There is, of course, a fluke of history which brought this all to light. As the Johnson material was never directly used in the formal SALT talks, it was not subject to the same stringent security classifications as those of Nixon, Ford, Carter, Reagan, Bush, and Clinton materials. Therefore, the documents started to be declassified in the late

1980s with the bulk coming to light in 1991 through 1994 Here then is the story of the origins of strategic arms control

Henry Kissinger Abraham Wagner,2019-06-26 Henry Kissinger Pragmatic Statesman in Hostile Times explores the influence of statesman Henry Kissinger in American foreign relations and national security during 1969 to 1977 Henry Kissinger arrived in the U S as a young Jewish refugee and went on to serve as National Security Advisor and Secretary of State to Presidents Nixon and Ford The consulting firm he founded has advised every U S president since In this book Abraham R Wagner reveals how Kissinger used his knowledge of history and international relations to advocate a realpolitik approach to U S foreign policy Through seven selected primary source documents Wagner tracks how Kissinger became an iconic figure in international relations that polarized opinion during 1969 to 1977 a critical and controversial period of American history This book will be useful for students interested in American history and security studies especially those with an interest in U S international relations during the latter years of the war in Vietnam Nomination of Gerard C. China and Global Nuclear Order Nicola Horsburgh,2015 This book offers an empirically rich study of Chinese nuclear weapons behaviour and the impact of this behaviour on global nuclear politics since 1949 China s behaviour as a nuclear weapons state is a major determinant of global and regional security For the United States there is no other nuclear actor with the exception of Russia that matters more to its long term national security However China s behaviour and impact on global nuclear politics is a surprisingly under researched topic Existing literature tends to focus on narrow policy issues such as misdemeanours in China s non proliferation record the uncertain direction of its military spending and nuclear force modernization or enduring opaqueness in its nuclear policy This book proposes an alternative context to understand both China s past and present nuclear behaviour its engagement with the process of creating and maintaining global nuclear order The concept of global nuclear order is an innovative lens through which to consider China as a nuclear weapons state because it draws attention to the inner workings institutional and normative that underpin nuclear politics It is also a timely subject because global nuclear order is considered by many actors to be under serious strain and in need of reform Indeed today the challenges to nuclear order are numerous from Iranian and North Korean nuclear ambitions to the growing threat of nuclear terrorism This book considers these challenges from a Chinese perspective exploring how far Beijing has gone to the aid of nuclear order in addressing these issues
