Gerhard Richter Landscapes:

Gerhard Richter, Landscape Hubertus Butin, Cathérine Hug, Lisa Ortner-Kreil, 2020 Landscapes Gerhard Richter, 2011 Gerhard Richter 1932 in Dresden has always dealt with the landscape No other motif has fascinated him as much or kept him so occupied over the years black and white landscapes based on images from magazines and amateur photos views of mountains and parks painted in thick impasto softly hues transparent illusionist lake scenes Ever since the subtle Corsica paintings of 1968 69 landscapes have become an established distinct group of works within the artist's oeuvre Richter captures reality in a painterly way such that landscape and abstraction manifest not as opposites but as related concepts Containing outstanding illustrations and insightful texts this volume examines Richter's landscapes from the early sixties to the present German edition ISBN 978 3 7757 2638 2 **Gerhard Richter, Landscapes** Gerhard Richter, 1998 Overzicht van het werk van de Duitse schilder 1932 *Gerhard Richter - Landscapes* Gerhard Richter, 1998 **Gerhard Richter** Gerhard Richter, 1998 **Gerhard Richter: Landscape** Hubertus Butin, Cathérine Hug, Lisa Ortner-Kreil, 2020-10-05 Gerhard Richter is one of the most famous painters of our time Worldwide His fascinating visual spheres are characterized by a unique originality and quality in which the abstract and the figural intertwine and permeate each other This extensive volume of pictures concentrates entirely upon the theme of landscape in Richter's oeuvre Through this genre to which Richter has remained loyal for more than sixty years it is possible to see more than a development in the artist's painting style There is also a perceptible genuine independence in many of the works which makes him one of the most remarkable artists of our day This book adds to the understanding of the significance and pictorial essence of Richter's art opening up current insights into the theme of nature and landscape in the twenty first century 00Exhibition Bank Austria Kunstforum Wien Austria 01 10 2020 24 01 2021 Kunsthau Z rich Switzerland 05 03 18 07 2021 *The Art of Gerhard Richter* Christian Lotz, 2015-10-22 The Art of Gerhard Richter Hermeneutics Images Meaning presents the first philosophical investigation of arguably one of the most popular and important painters working today Gerhard Richter From monochrome painting and photo realism to conceptual art and gesture expressive painting Richter has transformed the spectrum of 20th Century painting Building upon Gadamer's notion of formed images the book outlines elements of a hermeneutics and a phenomenology of images and paintings Moreover the hermeneutic approach to art is combined with the crucial question of how paintings and photographs are related to each other for Richter The author suggests that paintings open up the fixed relation and intentionality of photographs by idealizing and essentializing the content of the photographs By relying upon a hermeneutical and phenomenological approach rather than working from abstract theory The Art of Gerhard Richter provides philosophical insights developed out of Richter's works of art Uncovering key philosophical aspects of Richter's work the author's reflections discuss the relation between appearance and essence the role of faith and hope the dialectic of distance and nearness the issues of death and terror and the role of beauty and landscapes in Richter's paintings *Gerhard*

Richter Sheena Wagstaff, Benjamin H. D. Buchloh, Briony Fer, Hal Foster, Peter Geimer, Brinda Kumar, André Rottmann, 2020 Over the course of his acclaimed 60 year career Gerhard Richter b 1932 has employed both representation and abstraction as a means of reckoning with the legacy collective memory and national sensibility of post WWII Germany in both broad and very personal terms This handsomely designed book spans the artist s rich and varied oeuvre from the early 1960s to the present including photo paintings portraits large scale abstract series and works on glass Essays by leading experts on the artist illuminate Richter s preoccupation with painting in relation to other modes of representation and emphasize the ongoing importance of the medium s formal and conceptual possibilities in contemporary art **Gerhard Richter** Dietmar Elger, 2009 This fascinating book offers unprecedented insight into artist Gerhard Richter s life and work From his childhood in Nazi Germany to his time in the West during the turbulent 1960s and 70s this work presents a complete portrait of the often reclusive Richter Gerhard Richter Robert Storr, Gerhard Richter, 2002 Tour of the exhibition the Museum of Modern Art New York Feb 14 May 21 2002 and others **From Caspar David Friedrich to Gerhard Richter** Ulrich Bischoff, Elisabeth Hipp, Jeanne Anne Nugent, 2006 From Caspar David Friedrich to Gerhard Richter brings together a select group of paintings from the Galerie Neue Meister in Dresden one of the most significant collections of German art from 1800 to the present and new work from the renowned contemporary artist Gerhard Richter Page 4 of cover **Gerhard Richter, Individualism, and Belonging in West Germany** Luke Smythe, 2022-07-29 This book reevaluates the art of Gerhard Richter b 1932 in relation to his efforts to achieve belonging in the face of West Germany s increasing individualism between the 1960s and the 1990s Richter fled East Germany in 1961 to escape the constraints of socialist collectivism His varied and extensive output in the West attests to his greater freedom under capitalism but also to his struggles with belonging in a highly individualised society a problem he was far from alone in facing The dynamic of increasing individualism has been closely examined by sociologists but has yet to be employed as a framework for understanding broader trends in recent German art history Rather than critique this development from a socialist perspective or experiment with new communal structures like a number of his colleagues Richter sought and found security in traditional modes of bourgeois collectivity like the family religion painting and the democratic capitalist state The book will be of interest to scholars working in art history as well as German history culture and politics *Gerhard Richter* Christine Mehring, Jeanne Anne Nugent, Jon L. Theory of Form Florian Klinger, 2022-06-24 A pragmatist conception of artistic form through a study of the painter Gerhard Richter In this study of the practice of contemporary painter Gerhard Richter Florian Klinger proposes a fundamental change in the way we think about art today In reaction to the exhaustion of the modernist postmodernist paradigm s negotiation of the essence of art he takes Richter to pursue a pragmatist model that understands artistic form as action Here form is no longer conceived according to what it says as a vehicle of expression representation or realization of something other than itself but strictly according to what it does Through its doing Klinger argues artistic form is not only more real but also more shared than non artistic reality and thus enables interaction under conditions where it would otherwise not be possible It is a human practice aimed at testing and transforming the limits of shared reality urgently needed in situations where such reality breaks down or turns precarious Drawing on pragmatist thought philosophical aesthetics and art history Klinger s account of Richter s practice offers a highly distinctive conceptual alternative for contemporary art in general
