Gerhard Richter Forty Years Of Painting:

Gerhard Richter Robert Storr, Museum of Modern Art (New York, N.Y.), 2002 *Gerhard Richter* Robert Storr, Gerhard Richter, 2002 Tour of the exhibition the Museum of Modern Art New York Feb 14 May 21 2002 and others *Gerhard Richter* Gerhard Richter, Lucas Schoormans (Gallery), 2000 **Gerhard Richter** San Francisco Museum of Modern Art, Gerhard Richter, 2002 **The Art of Gerhard Richter** Christian Lotz, 2015-10-22 The Art of Gerhard Richter Hermeneutics Images Meaning presents the first philosophical investigation of arguably one of the most popular and important painters working today Gerhard Richter From monochrome painting and photo realism to conceptual art and gesture expressive painting Richter has transformed the spectrum of 20th Century painting Building upon Gadamer's notion of formed images the book outlines elements of a hermeneutics and a phenomenology of images and paintings Moreover the hermeneutic approach to art is combined with the crucial question of how paintings and photographs are related to each other for Richter The author suggests that paintings open up the fixed relation and intentionality of photographs by idealizing and essentializing the content of the photographs By relying upon a hermeneutical and phenomenological approach rather than working from abstract theory The Art of Gerhard Richter provides philosophical insights developed out of Richter's works of art Uncovering key philosophical aspects of Richter's work the author's reflections discuss the relation between appearance and essence the role of faith and hope the dialectic of distance and nearness the issues of death and terror and the role of beauty and landscapes in Richter's paintings **Gerhard Richter, Individualism, and Belonging in West Germany** Luke Smythe, 2022-07-29 This book reevaluates the art of Gerhard Richter b 1932 in relation to his efforts to achieve belonging in the face of West Germany's increasing individualism between the 1960s and the 1990s Richter fled East Germany in 1961 to escape the constraints of socialist collectivism His varied and extensive output in the West attests to his greater freedom under capitalism but also to his struggles with belonging in a highly individualised society a problem he was far from alone in facing The dynamic of increasing individualism has been closely examined by sociologists but has yet to be employed as a framework for understanding broader trends in recent German art history Rather than critique this development from a socialist perspective or experiment with new communal structures like a number of his colleagues Richter sought and found security in traditional modes of bourgeois collectivity like the family religion painting and the democratic capitalist state The book will be of interest to scholars working in art history as well as German history culture and politics Gerhard Richter Dietmar Elger, 2009 This fascinating book offers unprecedented insight into artist Gerhard Richter's life and work From his childhood in Nazi Germany to his time in the West during the turbulent 1960s and 70s this work presents a complete portrait of the often reclusive Richter **Gerhard Richter** Benjamin H. D. Buchloh, 2009-08-28 The first collection of essays on Gerhard Richter who has been called the greatest modern painter The contemporary painter Gerhard Richter born in 1932 has been heralded both as modernity's last painter and as painting's modern savior seen to

represent both the end of painting and its resurrection Richter works in a dizzying variety of styles from abstraction to a German cool pop that combines painterly technique and appropriation his work includes photo paintings large abstract canvases and stained glass windows This collection features writing by prominent critics including Hal Foster Gertrud Koch and Thomas Crow an essay by Rachel Haidu on Richter's family pictures that is published here for the first time and an essay and two interviews with the artist by Benjamin H D Buchloh Richter's longtime sparring partner as the curator Robert Storr has called him These writings examine Richter's work as a whole from October 18 1977 his dreamlike series of paintings depicting the dead Baader Meinhof gang to his abstract trio Abstract Paintings from his unsettling portrait of Uncle Rudi in Nazi garb to his late series of portraits of his wife and young child This addition to the October Files series will be an essential handbook to one of the most enigmatic figures in contemporary art

Flesh of My Flesh Kaja Silverman, 2009-10-28 What is a woman What is a man How do they and how should they relate to each other Does our yearning for wholeness refer to something real and if there is a Whole what is it and why do we feel so estranged from it For centuries now art and literature have increasingly valorized uniqueness and self sufficiency The theoreticians who loom so large within contemporary thought also privilege difference over similarity Silverman reminds us that this is but half the story and a dangerous half at that for if we are all individuals we are doomed to be rivals and enemies A much older story one that prevailed through the early modern era held that likeness or resemblance was what organized the universe and that everything emerges out of the same flesh Silverman shows that analogy so discredited by much of twentieth century thought offers a much more promising view of human relations In the West the emblematic story of turning away is that of Orpheus and Eurydice and the heroes of Silverman's sweeping new reading of nineteenth and twentieth century culture the modern heirs to the old analogical view of the world also gravitate to this myth They embrace the correspondences that bind Orpheus to Eurydice and acknowledge their kinship with others past and present The first half of this book assembles a cast of characters not usually brought together Friedrich Nietzsche Sigmund Freud Marcel Proust Lou Andr as Salom Romain Rolland Rainer Maria Rilke Wilhelm Jensen and Paula Modersohn Becker The second half is devoted to three contemporary artists whose works we see in a moving new light Terrence Malick James Coleman and Gerhard Richter

Images John J. Curley, 2013-12-03 An important new look at Cold War art on both sides of the Atlantic *From Caspar David Friedrich to Gerhard Richter* Ulrich Bischoff, Elisabeth Hipp, Jeanne Anne Nugent, 2006 From Caspar David Friedrich to Gerhard Richter brings together a select group of paintings from the Galerie Neue Meister in Dresden one of the most significant collections of German art from 1800 to the present and new work from the renowned contemporary artist Gerhard Richter Page 4 of cover *Uncertain Histories* Kate Palmer Albers, 2015-07-21 The compulsion to dwell on history on how it is recorded stored saved forgotten narrated lost remembered and made public has been at the heart of artists engagement with the photographic medium since the late 1960s *Uncertain Histories* considers some of that work ranging from installations that incorporate vast numbers of personal and vernacular photographs by Christian Boltanski Dinh Q L and Gerhard Richter to confrontations with absence in the work of Joel Sternfeld and Ken Gonzales Day Projects such as these revolve around a photographic paradox that hinges equally on knowing and not knowing on definitive proof coupled with uncertainty on abundance of imagery being met squarely with its own inadequacy Photography is seen as a fundamentally ambiguous medium that can be evocative of the historical past while at the same time limited in the stories it can convey Rather than proclaiming definitively what photography is the work discussed here posits photographs as objects always held in suspension perpetually oscillating in their ability to tell history Yet this ultimately leads to a new kind of knowledge production uncertainty is not a dead end but a generative space for the viewer s engagement with the construction of history

Art Outside the Lines , 2015-06-29 This collection of essays written by leading scholars in the fields of East German art film literature music and museum studies seeks to renegotiate the artistic legacy of the German Democratic Republic Combining a range of theoretical and practical perspectives the volume challenges the narrow frameworks of totalitarianism and Ostalgie that have dominated discussions of art produced in the GDR It explores the diversity of art produced in the state and contests the long held perception that socialist realism and artistic innovation were mutually exclusive Crucially the collection puts art itself to the fore GDR art is considered not simply as a political by product as is so often the case but as an entity of innovation and aesthetic value in its own right *Gerhard Richter* Sheena Wagstaff, Benjamin H. D. Buchloh, Briony Fer, Hal Foster, Peter Geimer, Brinda Kumar, André Rottmann, 2020 Over the course of his acclaimed 60 year career Gerhard Richter b 1932 has employed both representation and abstraction as a means of reckoning with the legacy collective memory and national sensibility of post WWII Germany in both broad and very personal terms This handsomely designed book spans the artist s rich and varied oeuvre from the early 1960s to the present including photo paintings portraits large scale abstract series and works on glass Essays by leading experts on the artist illuminate Richter s preoccupation with painting in relation to other modes of representation and emphasize the ongoing importance of the medium s formal and conceptual possibilities in contemporary art **Terrorism, Media, and the Ethics of Fiction** Peter Schneck, Philipp Schweighauser, 2010-08-19 In his novel *Mao II* Don DeLillo lets his protagonist say Years ago I used to think it was possible for a novelist to alter the inner

life of the culture Now bomb makers and gunmen have taken that territory They make raids on human consciousness DeLillo suggests that while the collective imagination of the past was guided by the creative order of narrative fictions our contemporary fantasies and anxieties are directed by the endless narratives of war and terror relayed by the mass media To take DeLillo's literary reflections on media terrorism and literature seriously means to engage with the ethical implications of his media critique This book departs from existing works on DeLillo not only through its focus on the function of literature as public discourse in culture but also in its decidedly transatlantic perspective Bringing together prominent DeLillo scholars in Europe and in the US it is the first critical book on DeLillo to position his work in a transatlantic context **Marking Time**

Paul Rabinow, 2009-02-09 In *Marking Time* Paul Rabinow presents his most recent reflections on the anthropology of the contemporary Drawing richly on the work of Michel Foucault John Dewey Niklas Luhmann and most interestingly German painter Gerhard Richter Rabinow offers a set of conceptual tools for scholars examining cutting edge practices in the life sciences security new media and art practices and other emergent phenomena Taking up topics that include bioethics anger and competition among molecular biologists the lessons of the *Drosophila* genome the nature of ethnographic observation in radically new settings and the moral landscape shared by scientists and anthropologists Rabinow shows how anthropology remains relevant to contemporary debates By turning abstract philosophical problems into real world explorations and offering original insights *Marking Time* is a landmark contribution to the continuing re-invention of anthropology and the human sciences

Artworld Prestige Timothy Van Laar, Leonard Diepeveen, 2013-01-09 *Artworld Prestige* examines the ways in which cultural arguments about value develop the processes by which some practices artists and media in the artworld win and others lose The authors argue that the concept of prestige although uncomfortable and consistently overlooked is an essential model for understanding artworld values as important as the more common models centered on economics or power

Titian's Touch Maria H. Loh, 2019-06-10 At the end of his long prolific life Titian was rumored to paint directly on the canvas with his bare hands He would slide his fingers across bright ridges of oil paint loosening the colors blending blurring and then bringing them together again With nothing more than the stroke of a thumb or the flick of a nail Titian's touch brought the world to life The clinking of glasses the clanging of swords and the cry of a woman's grief The sensation of hair brushing up against naked flesh the sudden blush of unplanned desire and the dry taste of fear in a lost shadowy place Titian's art Maria H Loh argues in this exquisitely illustrated book was and is a synesthetic experience To see is at once to hear to smell to taste and to touch But while Titian was fully attached to the world around him he also held the universe in his hands Like a magician he could conjure appearances out of thin air

Like a philosopher his exploration into the very nature of things channelled and challenged the controversial ideas of his day
But as a painter he created the world anew Dogs babies rubies and pearls Falcons flowers gloves and stone Shepherds
mothers gods and men Paint canvas blood sweat and tears In a series of close visual investigations Loh guides us through the
lush vibrant world of Titian's touch
