Geriatric Nursing and Healthy Aging Priscilla Ebersole, Patricia A. Hess, 2001 Each unit builds the fundamental concepts required to effectively treat older adults and teaches how to help them to reach their highest level of wellness regardless of their physical disorder

An Evidence-based Approach to the Treatment and Care of the Older Adult with Cancer Diane G. Cope, Anne M. Reb, 2006 Description The book offers a comprehensive overview of the treatment and care of the older adult with cancer The evidence based practice approach is timely and provides the foundation for nursing practice that is the expected standard of care The use of the case study at the end of each chapter assists the reader in the synthesis and application of the information The book addresses every aspect of the care and treatment of not only the cancer patient but also the family The chapter on complementary therapy is a bonus Purpose The purpose is to focus on the unique aspects of treatment and care that the older adult with cancer requires Addressing the older adult with cancer is of paramount importance to not only the health of the individual but of the family community and society The book meets the author s objectives Audience This is written for all healthcare providers The authors have written a book that can be used by gero oncology nurses but it is

appropriate for the multidisciplinary team that provides care to the older adult with cancer The authors have the professional background with applicable experience to edit this book Features This book covers more than the care and treatment of cancer in the older adult It provides necessary background information that demonstrates the impact of cancer on the older patient and their significant others The assessment information is useful for both experienced and novice nurses The use of chapter case studies enables healthcare providers to apply the chapter content The use of an evidence based practice approach to delivering healthcare is essential The information allows nurses to use the findings from reviewed research literature in providing the best care for their patients in an efficient manner that also considers patient preferences the risks and the benefits of treatment or lack thereof Assessment This book provides guidance to novice to expert nurses in the treatment and care of the older adult cancer patient using a holistic approach The chapters are well written by authors who are experts in their field The Cochrane Guidelines are considered the gold standard for evaluating research that impacts treatment selection and care of all patients Their use in the reference materials lends credibility to the information that is presented in the book Publisher *High-acuity Nursing* Kathleen Dorman Wagner, Karen L. Johnson, Melanie G. Hardin-Pierce, 2010 The Fifth Edition of High Acuity Nursing delivers essential understanding of complex patients and instructs both students and nurses on how to provide nursing care in varied clinical settings Broken down into a series of learner focused modules High Acuity Nursing takes complex information and presents it in smaller more accessible chunks that promote easier mastery by readers Note No access code is needed all resources are available for this book at <http://nursing.pearsonhighered.com> **Older Adults** John A. Hartford Foundation. Institute for Geriatric Nursing, 2000 [End-of-life Ethics and the Nursing Assistant](#) Eileen R. Chichin, 2000 This book describes a research based project that was developed to assess Certified Nursing Assistants CNAs knowledge and attitudes about ethical issues and end of life decision making and to provide educational intervention and support Based on the project s findings a workbook was designed to enable nursing homes to conduct an ethics education program for their CNAs *Improving Hospital Care for Persons with Dementia* Nina M. Silverstein, PhD, 2006 Print CourseSmart **Care of Gastrointestinal Problems in the Older Adult** Sue Meiner, 2004-04-15 This book provides nurses with practical information on the most frequently encountered gastrointestinal disorders and problems found in the elderly from constipation hemorrhoids and diverticulosis to cancers of the GI tract It was developed to provide greater depth of information than can be found in general nursing textbooks and to tailor this information to the special needs of the elderly Each chapter includes a definition of the condition followed by its cause normal and abnormal physiology nursing care with attention to nursing diagnoses interventions medications and alternative therapies where appropriate Health promotion nutrition and quality of life issues are included as an essential part of any plan of care for older adults
