Clinical Pastoral Supervision and the Theology of Charles Gerkin Thomas St. James O'Connor, 2006-01-01 In the last twenty years the number of texts written on clinical pastoral supervision has accelerated Thomas St James O Connor analyzes these texts nearly 300 of them in light of three fundamental questions about the praxis of clinical pastoral supervision 1 what is distinctive about the praxis 2 what is an appropriate theological method for the praxis and 3 what is an adequate praxis In doing so he formulates three approaches the social science the hermeneutic and the special interest Looking at the theology of Charles Gerkin a pastoral theologian and family therapist O Connor develops a conversation between Gerkin's theology and the texts The theological methods in the three approaches are critiqued and Gerkin's praxis theory praxis method is endorsed Case examples are used throughout to illustrate theory and issues discussed and to aid in the presentation of an adequate praxis Clinical Pastoral Supervision and the Theology of Charles Gerkin provides a unique overview of the history and current state of clinical pastoral supervision and an understanding of its methodology and theological foundations More than that it builds on the practical theory of Charles Gerkin expanding it for immediate use in The Chaplain's Presence and Medical Power Richard Coble, 2017-12-20 Why is loss present but the practice of ministry rarely spoken of in the hospital system How does such silence carry over to the practices of chaplains who accompany dying patients and grieving families Richard Coble critically examines his experiences as a hospital chaplain to analyze the place of spiritual care in wider trends vexing healthcare today including its persistent disparities and its related inability to reckon with human decline Simultaneously he offers routes for chaplains to be a force of change *Opening the Field of Practical* Theology Kathleen A. Cahalan, Gordon S. Mikoski, 2014-04-10 Opening the Field of Practical Theology introduces students to practical theology through an examination of fifteen different approaches ranging from feminist to liberationist Roman Catholic to evangelical Asian American to Latino a After an introduction to the field of practical theology and its broad range of practice today the book features chapters written by leading experts in the discipline Each chapter has an identical structure to facilitate comparison covering historical context key features and figures norms and sources of authority theory practice contexts interdisciplinary considerations areas of current and future research and suggested readings Opening the Field of Practical Theology is an ideal introduction to the field highlighting the diverse ways practical theology is engaged Sharing Faith Thomas Groome, 1998-11-23 Provides a comprehensive introduction to all aspects of religious today education and pastoral ministry and gives an in depth inquiry into the philosophical educational and theological theories for Theology and the Arts Ruth Illman, W. Alan Smith, 2013-06-07 This book brings the emerging fields of sharing faith practical theology and theology of the arts into a dialogue beyond the bias of modern systematic and constructive theology The authors draw upon postmodern post secular feminist liberation and dialogical dialectical philosophy and theology and their critiques of the narrow modern emphases on reason and the scientific method as the model for all knowledge Such a

practical theology of the arts focuses the work of theology on the actual practices that engage the arts in their various forms as the means of interpreting and understanding the nature of the communities and their members as well as the mechanisms through which these communities engage in transformative work to make persons and neighborhoods whole This book presents its theological claims through the careful analysis of several stories of communities around the world that have engaged in transformational practices through a specific art form investigating communities from Europe the Middle East South America and the U S The case studies explored include Jewish Christian Muslim Druze indigenous and sometimes agnostic subjects involved in visual art music dance theatre documentary film and literature Theology and the Arts demonstrates that the challenges of a postmodern and post secular context require a fundamental rethinking of theology that focuses on discrete practices of faithful communities rather than one dimensional theories about religion Leadership Won Sang Lee, 2015-01-14 In ascending to heaven Jesus Christ gave the church the Great Commission to expand the gospel to all nations Despite this biblical commission it is still an unfinished task As leaders of local churches pastors play a crucial part in this endeavor Pastoral leadership principles have varied widely throughout history yet it is interesting to discover the similarities between pastoral leadership principles practiced by John Chrysostom AD 347 407 in Antioch and Constantinople and Won Sang Lee 1937 in Washington DC Despite ministering 1600 years apart both pastors share the same core values care for people Christ like character biblical preaching and world missions. This suggests that continued emphasis on these principles will play a significant role in fulfilling the Great Commission independent of time and place

Pastoral Theology in an Intercultural World Emmanuel Y. Lartey, 2013-03-13 In today s world the challenge of care is how to respond to people s emotional as well as their economic circumstances How can we be respectful of the individual and the community in ways that affirm both How are we to live respectfully with difference and ambiguity Where shall we find our models of life and care from the dominant Western or else some kind of global perspective that includes indigenous knowledge In our theologies do we continue to privilege the study of abstract conceptual theory or do we give place to pragmatic aesthetic and nonverbal forms In the face of increasing extremism terrorism and violence is it possible to make a sensible choice between radical relativism and absolute essentialism Are we to be drawn towards the various expressions of religion or to the opportunities and ambiguities of spirituality as it is called upon in many societies today With the scarce resources available or allocated to health care in many national budgets across the world shall we give greater attention to the eradication of disease through increasingly advanced technologies and therapeutic strategies or to the promotion of health through primary health care and public health education Pastoral Theology in an Intercultural World presents practical theological resources for the broad vision deep passion and thoughtful action needed for pastoral care in the twenty first century

Practical Theology Richard R. Osmer, 2008-07-02 Every church congregation encounters challenging situations some the same the world over and others specific to each church Richard Osmer here seeks to teach

congregational leaders including but not limited to clergy the requisite knowledge and skills to meet such situations with sensitivity and creativity Osmer develops a framework for practical theological interpretation in congregations by focusing on four key guestions What is going on in a given context Why is this going on What ought to be going on and How might the leader shape the context to better embody Christian witness and mission The book is unique in its attention to interdisciplinary issues and the ways that theological reflection is grounded in the spirituality of leaders Useful accessible and lively with lots of specific examples and case studies Osmer's Practical Theology effectively equips congregational leaders to guide their communities with theological integrity Taking It to the Streets Jennifer Baldwin, 2018-12-18 Taking It to the Streets Public Theologies of Activism and Resistance is an edited volume that explores the critical intersection of public theology political theology and communal practices of activism and political resistance This volume functions as a sister companion to the text Religion and Science as Political Theology Navigating Post Truth and Alternative Facts and focuses on public civic performative action as a response to experiences of injustice and diminishments of humanity There are periods in a nation s civil history when the tides of social unrest rise into waves upon waves of public activism and resistance of the dominant uses of power In American history activism and public action including and extending beyond the Women's Suffrage the Million Man March protests against the Vietnam War the Civil Rights Movement Boston Tea Party Black Lives Matter the Stonewall Rebellion are hallmarks of transitional or liminal moments in our development as a society Critical periods marked by increases in public activism and political resistance are opportunities for a society to once again decide who we will be as a people Will we move towards a more perfect union in which all persons gain freedom in fulfilling their potential or will we choose the perceived safety of the status quo and established norms of power Whose voices will be heard Whose will be silenced through intimidation or harm Ultimately these are theological questions Like other forms of non textual research subjects movement dance performance art public activism requires a set of research lenses that are often neglected in theological and religious studies Attention to bodies as a category performance or epistemological vehicle is sorely lacking so it is no wonder that attention to the mass of moving bodies in activism is largely absent Activism and public political resistance are a hallmark of our current social webbing and deserve scholarly attention The South Western Reporter, 1897 Includes the decisions of the Supreme Courts of Missouri Arkansas Tennessee and Texas and Court of Appeals of Kentucky Aug Dec 1886 May Aug 1892 Court of Appeals of Texas Aug 1892 Feb 1893 Jan Feb 1928 Courts of Civil and Criminal Appeals of Texas Apr June 1896 Aug Nov 1907 Court of Appeals of Indian Territory May June 1927 Jan Feb 1928 Courts of Appeals of Missouri and Commission of Appeals of Texas **The Princeton Seminary Bulletin Princeton** Theological Seminary, 1998 Vols for 1907 1908 1936 1937 no 1 Commencement issue no 2 Necrology report no 3 News no 4 Catalogue v for 1937 1938 1938 1939 no 1 3 News no 2 Bulletin of courses no 4 Catalogue v for 1939 1940 1944 1945 no 1 4 News no 2 Bulletin of courses no 3 Catalogue v for 1945 1946 no 1 Bulletin of courses no 2 4 News no 3 Catalogue v for 1946

such as divine action and justification is properly and fully theological Mending the World? Niclas Blader, Kristina Helgesson Kjellin, 2017-06-16 Religion has played a major role in history affecting the course of events and influencing individuals Today one frequently hears the expression the return of religion but opinions differ as to how this return is to be understood It is clear that modernity and postmodernity have not meant that religion is dead or relegated to society s backyards Religion is still of vital importance for many people It has to some extent changed shape but has not lost its legitimacy and attractiveness to broad groups Religion is public visible and has a sought for voice but it is also wrestling with extremism ignorance and preconceptions Just like ideologies religions are capable of activating diametrically opposite traits in humans It is this dual tension that is implicit in the question mark in this book s title Mending the World This book s aim is to help explore whether how and in what ways religion church and theology can contribute constructively to the future of a global society In thirty one chapters researchers from around the world address the relation between religion and society

Cable Vision ,1999 The premium entertainment magazine Because He Has Spoken to Us Brad Bursa, 2022-05-11 Pope John XXIII called the Second Vatican Council so that the Church's doctrine might be more widely known more deeply understood and more penetrating in its effects However since the close of the Council in 1965 the results are wanting Rather than announcing the gospel boldly in the present age the Church has been seemingly reduced to silence How did she lose her voice How did the structures of proclamation intended to hand on the Catholic faith devolve and even contribute to vaporizing a Catholic culture Because He Has Spoken to Us traces such developments from fixed points drawn from the fluid theology of Karl Rahner to their postmodern condition successive steps that usher in the crisis by subduing dismissing and silencing the tradition This postconciliar anthropocentric structure can now be better understood critiqued and displaced by a Ratzingerian approach Rather than embracing a given demanded by contemporary context Ratzinger proposes the revelation of the Logos in Jesus Christ as the given the true object of Christian faith His alternate proposal requires the courage to face the full scope of the Christian structure accessed through the Church's tradition and a willingness to proclaim the gospel personally and with humble confidence Care-full Preaching G.
