German Architecture And The Classical Ideal:

German Architecture and the Classical Ideal David Watkin, Tilman Mellinghoff, 1987 German Classicism is a powerful architectural force that is only now being fully studied As this extensively illustrated book shows palaces private houses public buildings and urban planning all received patronage on a scale that could not be paralleled in other countries Of the host of architects whose genius was given such superb opportunities in the years 1740 to 1840 only Karl Friedrich Schinkel's name has become widely known yet this book points out all over Germany rulers were dramatically transforming their capitals and the achievements of Weinbrenner at Karlsruhe Moller at Darmstadt or Klenze at Munich are by any standards astonishing The first part of the book is by David Watkin a leading British authority on the Classical Revival He provides a historical account that sets German Neoclassicism in its regional and political context and notes the impact of France and England and the Franco Prussian style before Schinkel He discusses Schinkel's own work that of Leo von Klenze and Neoclassicism in North and South Germany The book's second part consists of an index of buildings prepared by Tilman Mellinghoff Here every important Neoclassical building both existing and destroyed is listed and described under its location The index is an invaluable source of information available nowhere else in English David Watkin is a Fellow of Peterhouse and a University Lecturer in History of Art at Cambridge University Tilman Mellinghoff is an Assistant Lecturer at the Universities of Cologne and Bonn

German Architecture and the Classical Ideal, 1740-1840 David Watkin, Tilman Mellinghoff, 1987

Sir John Soane? Influence on Architecture from 1791 Oliver Bradbury, 2017-07-05 Sir John Soane's Influence on Architecture from 1791 A Continuing Legacy is the first in depth study of this eighteenth century British architect's impact on the work of others extending globally and still indeed the case over 200 years later Author Oliver Bradbury presents a compelling argument that the influence of Soane 1753 1837 has persevered through the centuries rather than waning around the time of his death Through examinations of internationally renowned architects from Benjamin Henry Latrobe to Philip Johnson as well as a number of not so well known Soanean disciples Bradbury posits that Soane is perhaps second only to Palladio in terms of the longevity of his influence on architecture through the course of more than two centuries from the early 1790s to today concluding with the recent return to pure revivalism Previous investigations have been limited to focusing on Soane's late Georgian and then post modern influence this is the first in depth study of his impact over the course of two centuries Through this survey Bradbury demonstrates that Soane's influence has been truly international in the pre modern era reaching throughout the British Isles and beyond to North America and even colonial Australia Through his inclusion of select detailed case studies Bradbury contends that Soane's is a continuing not negated legacy in architecture

'Turquerie' and the Politics of Representation, 1728-1876 Nebahat Avcioglu, 2011 Devoted explicitly to the examination of Ottoman Turkish inspired architecture in Western Europe during the eighteenth and nineteenth centuries in this study Nebahat Avcioglu rethinks the question of cultural frontiers not as separations but as a

rapport of heterogeneities Reclaiming turquerie as cross cultural art from the confines of the inconsequential exoticism it is often reduced to Avcioglu analyses hitherto neglected constructions and links them to notions of self representation and politics "Turquerie and the Politics of Representation, 1728-1876" Nebahat Avcioglu, 2017-07-05 In this first full length study devoted explicitly to the examination of Ottoman Turkish inspired architecture in Western Europe during the eighteenth and nineteenth centuries Nebahat Avcioglu rethinks the question of cultural frontiers not as separations but as a rapport of heterogeneities Reclaiming turquerie as cross cultural art from the confines of the inconsequential exoticism it is often reduced to Avcioglu analyses hitherto neglected images designs and constructions and links Western interest in the Ottoman Empire to notions of self representation and national politics In investigating why and to what effect Europeans turned to the Turk for inspiration Avcioglu provides a far reaching cultural reinterpretation of art and architecture in this period Presented as a series of case studies focusing on three specific building types kiosks mosques and baths chosen on the basis that each represents the first full fledged manifestations of their respective genres to be constructed in Western Europe the study delves into the cultural politics of architectural forms and styles The author argues that the appropriation of those building types was neither accidental nor did it merely reflect European domination of another culture The process was essentially dialectical and contributed to transculturation in both the West and the East **The Art Museum from Boullée to Bilbao** Andrew McClellan, 2008-01-02 Art museums cases of beauty and calm in a fast paced world have emerged in recent decades as the most vibrant and popular of all cultural institutions But as they have become more popular their direction and values have been contested as never before This engaging thematic history of the art museum from its inception in the eighteenth century to the present offers an essential framework for understanding contemporary debates as they have evolved in Europe and the United States *The Egyptian Revival* James Stevens Curl, 2013-04-03 In this beautifully illustrated and closely argued book a completely updated and much expanded third edition of his magisterial survey Curl describes in lively and stimulating prose the numerous revivals of the Egyptian style from Antiquity to the present day Drawing on a wealth of sources his pioneering and definitive work analyzes the remarkable and persistent influence of Ancient Egyptian culture on the West The author deftly develops his argument that the civilization of Ancient Egypt is central rather than peripheral to the development of much of Western architecture art design and religion Curl examines the persistence of Egyptian motifs in design from Graeco Roman Antiquity through the Medieval Baroque and Neo Classical periods rise of Egyptology in the nineteenth and twentieth century manifestations of Egyptianisms prompted by the discovery of Tutankhamun's tomb various aspects of Egyptianizing tendencies in the Art Deco style and afterwards For students of art architectural and ancient history and those interested in western European culture generally this book will be an inspiring and invaluable addition to the available literature Early Modern Visual Allegory Cristelle Baskins, 2017-09-29 The first book in over twenty five years devoted solely to allegory and personification in art history this anthology

complements current literary and cultural studies of allegory The volume re examines early modern allegorical imagery in light of crucial material contextual and methodological questions how are allegories conceived for whom and for what purposes Contributors consider a wide range of allegorical representations in the visual arts and material culture of both early modern Europe and the colonial New World 1400 1800 Essays included here examine paintings sculpture prints architecture and the spaces of public ritual while discussing the process and theory of interpretation formation of audiences reception history appropriation and censorship A special focus on the medium of the body in visual allegory unites the volume s diverse materials and methods

The Pantheon Tod A. Marder, Mark Wilson Jones, 2015-06-17 The Pantheon is one of the most important architectural monuments of all time Thought to have been built by Emperor Hadrian in approximately AD 125 on the site of an earlier Agrippan era monument it brilliantly displays the spatial pyrotechnics emblematic of Roman architecture and engineering The Pantheon gives an up to date account of recent research on the best preserved building in the corpus of ancient Roman architecture from the time of its construction to the twenty first century Each chapter addresses a specific fundamental issue or period pertaining to the building together the essays in this volume shed light on all aspects of the Pantheon s creation and establish the importance of the history of the building to an understanding of its ancient fabric and heritage its present state and its special role in the survival and evolution of ancient architecture in modern Rome

Mendelssohn Benedict Taylor, 2017-07-05 This volume of essays brings together a selection of the most significant and representative writings on Mendelssohn from the last fifty years Divided into four main subject areas it makes available twenty two essays which have transformed scholarly awareness of this crucial and ever popular nineteenth century composer and musician it also includes a specially commissioned introductory chapter which offers a critical overview of the last half century of Mendelssohn scholarship and the direction of future research The addition of new translations of two influential essays by Carl Dahlhaus hitherto unavailable in English adds to the value of this volume which brings back in to circulation important scholarly works and constitutes an indispensable reference work for Mendelssohn scholars

Imaginary Athens Jin-Sung Chun, 2020-11-25 This book comprehensively examines architecture urban planning and civic perception in three modern cities as they transform into national capitals through an entangled transnational process that involves an imaginative geography based on embellished memories of classical Athens Schinkel s classicist architecture in Berlin especially the principle of tectonics at its core came to be adopted effectively at faraway cities in East Asia merging with the notion of national polity as Imperial Japan sought to reinvent Tokyo and mutating into an inevitable reflection of modern civilization upon reaching colonial Seoul all of which give reason to ruminate over the phantasmagoria of modernity

The Limits Of Globalization Alan Scott, 2013-01-11 Both the force and the limitations of the globalizing forces operating in the world today can best be understood through an analysis of their concrete manifestations Using examples from the people s art of Potsdammer Platz to the ways in which Western cultural icons are reinterpreted in Asian

magazines this collection of essays unpicks the rhetoric of globalization in political analysis cultural theory and urban and economic sociology and exposes the myth of the global society as in many cases a dangerous exaggeration The Imperfect City: On Architectural Judgment Samir Younes,2016-03-03 If architectural judgment were a city a city of ideas and forms then it is a very imperfect city When architects judge the success or failure of a building the range of ways and criteria which can be used for this evaluation causes many contentious and discordant arguments Proposing that the increase in number and intensity of such arguments threatens to destabilize the very grounds upon which judgment is supposed to rest this book examines architectural judgment in its historical cultural political and psychological dimensions and their convergence on that most expressive part of architecture namely architectural character It stresses the value of reasoned judgment in justifying architectural form a judgment based on three sets of criteria those criteria that are external to architecture those that are internal to architecture and those that pertain to the psychology of the architect as image maker External criteria include philosophies of history or theories of modernity internal criteria include architectural character and architectural composition while the psychological criteria pertain to mimetic rivalry or rivaling desires for the same architectural forms Yet although architectural conflicts can adversely influence judgment they can at the same time contribute to the advancement of architectural culture **A History of Western Architecture** David Watkin,2005 The history of Western architecture from the earliest times in Mesopotamia and Egypt to the dramatic impact of CAD on architectural practice at the beginning of the 21st century *Images of the Art Museum* Eva-Maria Troelenberg,Melania Savino,2017-02-06 In recent years the emerging field of museum studies has seen rapid expansion in the critical study of museums and scholars started to question the institution and its functions To contribute differentiated viewpoints to the currently evolving meta discourse on the museum this volume aims to investigate how the institution of the museum has been visualized and translated into different kinds of images and how these images have affected our perception of these institutions In this interdisciplinary collection scholars from a variety of academic backgrounds including art history heritage museums studies and architectural history explore a broad range of case studies stretching across the globe The volume opens up debate about the epistemological and historiographical significance of a variety of different images and representations of the Art Museum including the transformation or adaptation of the image of the art museum across periods and cultures In this context this volume aims to develop a new theoretical framework while proposing new methodological tools and resources for the analysis of museological representations on a global scale Encyclopedia of the Romantic Era, 1760-1850 Christopher John Murray,2013-05-13 In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century The Encyclopedia provides readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to

explore the many issues raised by the very concepts of Romantic and Romanticism

The Greenwood Encyclopedia of Homes through World History James M. Steele, 2009-03-30 The house throughout history in every place in the world has been built to provide shelter from the elements The dwellings that have resulted are as different as the people that have built them the social norms that prevailed at the time and place in which they were built and the natural environment that they adapted to Studying them now in a comprehensive way allows us to understand the social political economic and religious conditions that existed for their inhabitants They are a three dimensional record of culture Twenty four pages of color images along with black and white images through three volumes illustrate the homes of people throughout the world The volumes cover ancient times to the late Middle Ages the Renaissance to the Industrial Revolution and the Post Industrial Revolution to the Present

The Lincoln Memorial & American Life Christopher A. Thomas, 2002 Christopher Thomas offers the first detailed analysis of Bacon s design and the memorial as a system including the statue of Lincoln by Daniel Chester French Using extensive archival data Thomas discusses just why the memorial looks as it does

Ichnographia Rustica William Alvis Brogden, 2017-02-17 One of the most significant occurrences in the history of design was the creation of the English Landscape Garden Accounts of its genesis the surprising structural change from the formal to a seeming informal are numerous But none has ever been quite convincing and none satisfactorily placed the contributions of Stephen Switzer Unlike his contemporaries Switzer an 18th century author of books on gardening and agricultural improvement grasped a quite new principle that the fashionable pursuit of great gardens should be rural and extensive rather than merely the ornamentation of a particular part of an estate Switzer saw that a whole estate could be enjoyed as an aesthetic experience and by the process of improving its value could increase wealth By encouraging improvers to see the garden in his enlarged sense he opened up the adjoining countryside the landscape and made the whole a subject of unified design Some few followed his advice immediately such as Bathurst at Cirencester But it took some time for his ideas to become generally accepted Could this vision and its working out in practice between 1710 and 1740 be the very reason for such changes 300 years after the first volume of his writings began to be published this book offers a timely critical examination of lessons learned and Switzer s roles In major influential early works at Castle Howard and Blenheim and later the more minor works such as Spy Park Leeswood or Rhual the relationships between these designs and his writings is demonstrated In doing so it makes possible major reassessment of the developments and thus our attitudes to well known works It provides an explanation of how he and his colleagues and contemporaries first made what he had called Ichnographia Rustica or more familiarly Modern Gardening from the mid 1740s land later landscape gardens It reveals an exceptional innovator who by transforming the philosophical way in which nature was viewed integrated good design with good farming and horticultural practice for the first time It raises the issue of the cleavage in thought of the later 18th century essentially whether the ferme ornee as the mixture of utile and dulci was the perfect designed landscape or whether this was the enlarged garden with

features of unadorned nature The book discusses these considerable and continuing contrary influences on later work and suggests Switzer has many lessons for how contemporary landscape and garden design ought be perceived and practised

The Secret Lives of Buildings Edward Hollis, 2009-11-10 A strikingly original beautifully narrated history of Western architecture and the cultural transformations that it represents Concrete marble steel brick little else made by human hands seems as stable as immutable as a building Yet the life of any structure is neither fixed nor timeless Outliving their original contexts and purposes buildings are forced to adapt to each succeeding age To survive they must become shape shifters In an inspired refashioning of architectural history Edward Hollis recounts more than a dozen stories of such metamorphosis highlighting the way in which even the most familiar structures all change over time into something rich and strange The Parthenon that epitome of a ruined temple was for centuries a working church and then a mosque the cathedral of Notre Dame was restored to a design that none of its original makers would have recognized Remains of the Berlin Wall meanwhile which was once gleefully smashed and bulldozed are now treated as precious relics With *The Secret Lives of Buildings* Edward Hollis recounts the most enthralling of these metamorphoses and shows how buildings have come to embody the history of Western culture Hollis exposes the surprisingly motley histories of some of the world's great landmarks The chapter on the Parthenon actually brought me to tears Jenna Russell *The Boston Globe* What a happy tingle of discovery to come across a book that differs sharply from all the others in its field Hollis thinks with such originality and writes with such flair that he is a pleasure to read Stanley Abercrombie *The American Scholar*

Unveiling the Energy of Verbal Beauty: An Psychological Sojourn through **German Architecture And The Classical Ideal**

In some sort of inundated with screens and the cacophony of immediate conversation, the profound energy and emotional resonance of verbal art usually diminish in to obscurity, eclipsed by the regular onslaught of sound and distractions. However, nestled within the musical pages of **German Architecture And The Classical Ideal**, a interesting function of fictional beauty that pulses with natural emotions, lies an wonderful journey waiting to be embarked upon.
