Fallschirmjäger: German Paratroopers, 1942-1945 François Cochet, 2019-01-30 The second volume following the World War II exploits of the famed German parachute unit from the battle of Crete to the surrender of the Third Reich As elite troops the German Fallschirmjäger paratroopers were regularly engaged in front line combat during the Second World War Their famed actions such as the fighting in Scandinavia the taking of the Belgian fortress Eben Emael in May 1940 and the Battle for Crete just a year later have given them the reputation of being determined courageous and loyal soldiers This book continues the pictorial history of the Fallschirmjäger focusing on the period following the bloody Battle for Crete Used as elite infantry first in the USSR and then in Africa the Fallschirmjäger were able to reconnect with their glorious past whether in Italy or on the Greek Islands as they jumped from their Ju 52s to engage the enemy Their hard fighting in Italy helped to cement the legend of the Green Devils with the British General Harold Alexander describing them as tenacious highly trained men hardened by their many actions and combats However during the fighting in Normandy the Ardennes and on the Eastern Front the number of veterans decreased meaning it was the young German paratroopers who finally surrendered the Third Reich on 8 May 1945 François Cochet's two volumes in the Images of War series are not only an excellent introduction to this force and its combat history in the war but also much much more Avon Napoleonic Fellowship

Crete 1941 Peter Antill,2012-11-20 Operation Mercury the German airborne assault on the island of Crete in May 1941 was the first strategic use of airborne forces in history The assault began on 20 May with landings near the island's key airports and reinforcements the next day allowed the German forces to capture one end of the runway at Maleme By 24 May the Germans were being reinforced by air on a huge scale and on 1 June Crete surrendered This book describes how desperately close the battle had been and explains how German losses so shocked the Führer that he never again authorised a major airborne operation

The Fall of Eben Emael Chris McNab,2013-02-20 In early May 1940 the fortress of Eben Emael was a potent sentinel over the Belgian Dutch borderlands The fortress covered 75 hectares on the surface had 5km of tunnels underground and was studded with bunkers gun turrets and casemates Add a garrison of 1 200 men and the natural protection of 60m high canal walls and Eben Emael gave the impression of near impregnability Yet on 10 May just 78 elite airborne soldiers managed to defeat this fortress in an operation of unprecedented tactical skill Deployed by glider onto the very top of the fortifications they utilized elite training fast movement and specialist explosives to destroy many of the gun positions and trap much of the garrison within the fortress Simultaneously three other assault detachments conducted high risk glider operations to capture critical bridges over the Albert Canal By the end of 11

Tragedy at Graignes Margaret R. O'Leary,Dennis S. O'Leary,2011-02-24 Tragedy at Graignes tells the story of Captain Bud Sophian the only US Army officer who did not flee Graignes France as the Waffen SS overran the American positions and stormed the village Sophian was a surgeon and he refused to abandon the fourteen wounded paratroopers in his care He surrendered by waving a white flag at the door of the badly shelled Norman church where his aid station was located He hoped for fair prisoner treatment in accordance with the Geneva Convention of 1929 The German troops instead committed unspeakable atrocities leaving many of the American prisoners mutilated in grotesque heaps All of the American prisoners including Sophian were killed Captain Sophians judgment and actions in the US Army were the culmination of the rich and challenging life he led prior to the Second World War Buds correspondence with his sister and other Sophian archival materials tell the story of this compelling life These letters are reproduced verbatim in Tragedy at Graignes The Bud Sophian Story so that Bud and other authors may speak directly to you and to the historical record **Fallschirmjäger** Bruce Quarrie,2012-07-20 Few of the combatants of World War II have captured the imagination as compulsively as the Fallschirmj ger Boldness and courage were vital characteristics in the rigorous selection process and their training was highly

demanding Hitler's airborne troops were involved in some of the most daring actions of the whole war from the 1940 assault on Eben Emael and the invasion of Crete in 1941 to the rescue of Mussolini and the attempt on Tito's life. In addition they saw service as elite line infantry in the key theatres of North West Europe, North Africa and the Eastern Front. The Fall Of Fort Eben Emael: The Effects Of Emerging Technologies On The Successful Completion Of Military Objectives Major Thomas B. Gukeisen, 2015-11-06. This study details the events of 10 May 1940 at Fort Eben Emael, Belgium, and the elements which led to the successful seizure of the fort by the German military. The central focus of this thesis is the following question: Was the use of emerging technologies the key to victory at Fort Eben Emael? First, the study focuses on the technologies themselves. Secondly, this study examines the leadership and training of the German unit assigned the mission at Fort Eben Emael. Lastly, this study examines administration and personnel issues that existed for the Belgians stationed at Fort Eben Emael. This study determined that the glider did afford troops the advantage of surprise; however, the hollow charge failed to live up to its reputation as it was most effective when used in such a way that it was no different than a conventional charge. Further, the German unit's training and leadership was exemplary and contributed more to the mission's success than the technologies the unit employed. Additionally, Fort Eben Emael was faced with serious internal issues that prevented a successful defence of the fort. Therefore, this thesis concludes that emerging technologies were not the most crucial component contributing to mission success.
