Healy,Lyle E. Bourne, Jr.,2013-05-13 Based on a research project funded by the Army Research Institute Foreign Language Learning reports original empirical and theoretical research on foreign language acquisition and makes recommendations about applications to foreign language instruction The ultimate goal of this project was to identify a set of psychological principles that can provide the foundation for or at least argumentation for a foreign language training course This book reviews the various studies of which the project is comprised It begins with an overview chapter outlining the scope of the project and summarizing some of the experiments that were conducted in the laboratory In each of the following chapters the contributors report on previously unpublished research on selected specific psycholinguistic training principles vocabulary and concept acquisition language comprehension reading processes and bilingualism The final chapter prepared by a prominent expert on second language training provides an overview and evaluation of the contribution of the research described in earlier chapters to the goal of improving instructional methods in foreign language learning Sandwiched between the introductory and final chapters are four major sections Vocabulary and Concept Acquisition which discusses the effect of first language phonological configuration on lexical acquisition in a second language contextual inference effects in foreign language vocabulary acquisition and retention mediated processes in foreign language vocabulary acquisition and retention and the status of the count mass distinction in a mental grammar Language Comprehension which addresses voice communication between air traffic controllers and pilots who are nonnative speakers of English cognitive strategies in discourse processing and the effects of context and word order in Maasai sentence production and comprehension Reading Processes which discusses the enhancement of text comprehension through highlighting the effect of alphabet and fluency on unitization processes in reading and reading proficiency of bilinguals in

their first and second languages and Bilingualism which addresses Stroop interference effects in bilinguals between similar and dissimilar languages the individual differences in second language proficiency and the hierarchical model of bilingual representation *The Modern Language Journal* ,1918 The Academy ,1891 **An Encyclopedia of Language** N.E. Collinge,2002-09-11 Examines how language works accounting for its nature its use its study and its history Two comprehensive indexes of Topics and Technical Terms and Names Carefully illustrated to explain key points in the text This rich repository of information on all aspects of language is a must for all libraries in higher education schools and larger public libraries Library Review Each article has an excellent bibliography In addition there are comprehensive indexes of topics and technical terms and names Highly recommended for all college and general public libraries Choice This important book is in many ways a state of the art survey of current conceptions of and approaches to language with generous references to more detailed sources Each chapter has a good bibliography Language International A comprehensive guide with very thorough bibliographies Collinge s Encyclopedia is recommended to academic libraries Reference Reviews The bibliographies are an invaluable aid the editor is to be congratulated for having done an excellent job there are virtually no areas of language and linguistics that do not get a look in somewhere and there is good signposting in the text itself Nigel Vincent Times Higher Education Supplement **Language Learning and the Brain** Ulf Schütze,2017 Takes the reader on a fascinating journey through the brain to demonstrate how language is processed *Learning a non-native language in a naturalistic environment: Insights from behavioural and neuroimaging research* Christos Pliatsikas,Vicky Chondrogianni,2015-09-02 It is largely accepted in the relevant literature that successful learning of one or more non native languages is affected by a number of factors that are independent of the target language s per se these factors include the age of acquisition AoA of the target language s the type and amount of formal instruction the learners have received as well as the amount of language use that the learners demonstrate Recent experimental evidence suggests that one crucial factor for efficient native like performance in the non native language is the amount of naturalistic exposure or immersion that the learners receive to that language This can be broadly defined as the degree to which language learners use their non native language outside the classroom and for their day to day activities and usually presupposes that the learners live in an environment where their non native language is exclusively or mostly used Existing literature has suggested that linguistic immersion can be beneficial for lexical and semantic acquisition in a non native language as well as for non native morphological and syntactic processing More recent evidence has also suggested that naturalistic learning of a non native language can also have an impact on the patterns of brain activity underlying language processing as well as on the structure of brain regions that are involved expressed as changes in the grey matter structure This Research Topic brings together studies on the effects of learning and speaking a non native language in a naturalistic environment These include more efficient or native like processing in behavioural tasks tapping on language lexicon morphology syntax as well as changes in

the brain structure and function as revealed by neuroimaging studies *Cognitive Language Acquisition Training in a Classroom Setting* Ora Melles,2019-02-13 **Handbook of Child Language Disorders** Richard G. Schwartz,2010-10-18 The Handbook of Child Language Disorders provides an in depth comprehensive and state of the art review of current research concerning the nature assessment and remediation of language disorders in children The book includes chapters focusing on specific groups of childhood disorders SLI autism genetic syndromes dyslexia hearing impairment the linguistic perceptual genetic neurobiological and cognitive bases of these disorders and the context of language disorders bilingual across dialects and across languages To examine the nature of deficits their assessment and remediation across populations chapters address the main components of language morphology syntax semantics and pragmatics and related areas processing memory attention executive function such as reading and writing Finally even though there is extensive information regarding research and clinical methods in each chapter there are individual chapters that focus directly on research methods This Handbook is a comprehensive reference source for clinicians and researchers and can be used as a textbook for undergraduate masters and doctoral students in speech language pathology developmental psychology special education disabilities studies neuropsychology and in other fields interested in children s language disorders **Evidence, pt. 2** ,1864 **The Regional Travel Guide for Jura Mountains (Switzerland)** YouGuide Ltd, **The Ecology of Pre-Primary Foreign Language Learning** Joanna Rokita-Jaśkow,2025-01-29 This book synthesises research on very early language learning in pre primary organised instruction settings such as kindergarten nursery or afternoon classes Using a framework of ecological development it investigates the nested systems in which very young learners operate the other agents involved in each of these systems and the influence these agents have on children s foreign language learning It explores the ecosystems of the individual learner and their family educational institutions general social climate and language education policies resulting in a holistic view of early language learning and the key transitions into and out of pre primary formal instruction settings This is the first book to gather research to date on very young learners in formal settings offering a comprehensive state of the art to researchers and graduate students in early language learning second language acquisition and early years pedagogy **Context and Culture in Language Teaching and Learning** Michael Byram,Peter Grundy,2003 The chapters in this book all address the significance of the relationship between the aims and methods of language teaching and the contexts in which it takes place Some consider the implications for the ways in which we research language teaching others present the results of research and development work
