economies so that by the late twentieth century Italy's per capita income reached the levels of Germany France and the UK From the mid 1990s however the Italian economy declined first in relative and then absolute terms The authors describe the intertwined financial and institutional crises that eroded trust in the political system and in the economy at the exact juncture when new technologies and markets transformed the global economy Longstanding problems of uneven levels of education and obsolete bureaucratic and judicial practices deepened the division between economically vibrant regions and the rest causing polarization political instability and rising public debt Italy's contemporary malaise makes the country a test case for understanding the implications of protracted declines in productivity and the flattening of GDP growth for the stability of western democracies resulting in populism mistrust and political instability **United and Divided** Mike Dennis, Eva Kolinsky, 2004-03-01 The system transformation after German unification in 1990 constituted an experiment on an unprecedented scale At no point in history had one state attempted to redesign another without conquest bloodshed or coercion but by treaties public policy and bureaucratic processes Unification was achieved by erasing the eastern political and economic model However in the meantime it has become clear that the same cannot be said about social transformation On the contrary social and cultural attitudes and differentiation have continued and resulted in deep divisions between West and East Germany After unification the injustices of politics seemed to have been replaced in the eyes of most former GDR citizens by unexpected injustices in the personal spheres of ordinary people who lost their jobs and faced unknown realities of deprivation and social exclusion These are the main concerns of the contributors to this volume Incorporating new research findings and published data they focus on key aspects of economic political and social transformation in eastern Germany and compare through case studies each area with developments in the west *Social Transformation and the Family in Post-Communist Germany* E.
