German Art from Beckmann to Richter : Images of a Divided Country, 1997 **German Art.** Eckhart Gillen, 2003-09 **The Oxford Handbook of German Politics** Klaus Larres, Holger Moroff, Ruth Wittlinger, 2022-07-18 Few countries have caused or experienced more calamities in the 20th century than Germany. The country emerged from the Cold War as a newly united and sovereign state eventually becoming Europe's indispensable partner for all major domestic and foreign policy initiatives. This handbook provides a comprehensive overview of some of the major issues of German domestic politics, economics, foreign policy, and culture by leading experts in their respective fields. This book serves primarily as a reference work on Germany for scholars and an interested public, but through this broader lens it also provides a magnifying glass of global developments which are challenging and transforming the modern state. The growing importance of Germany as a political actor and economic partner makes this endeavor all the more timely and pertinent from a German, European, and global perspective. *The Visual Arts in Germany, 1890-1937* Shearer West, 2000 This work provides an introduction to the visual arts in Germany from the early years of German unification to World War II. The study is an analysis of painting, sculpture, graphic art, design, film, and photography in relation to a wider set of cultural and social issues that were specific to German modernism. It concentrates on the ways in which the production and reception of art interacted with and was affected by responses to unification, conflict between left and right political factions, gender concerns, contemporary philosophical and religious ideas, the growth of cities, and the increasing importance of mass culture. *Utopia and Dissent in West Germany* Mia Lee, 2019-01-22 Just as Chancellor Konrad Adenauer was seeking re-election on a campaign of no experiments, art avant-garde groups in West Germany were reviving the utopian impulse to unite art and society. *Utopia and Dissent in West Germany* examines these groups and their legacy. Postwar artists built international as well as intergenerational networks such as Fluxus, which was active in Düsseldorf, Wiesbaden, and Cologne, and the Situationist International based in Paris. These groups were committed to undoing the compartmentalization of everyday life and the isolation of the artist in society. And as artists recast politics to address culture and everyday life, they helped forge a path for the West German extraparlimentary left. *Utopia and Dissent in West Germany* traces these connections and presents a chronological map of the networks that fed into the extraparlimentary left as well as a geographical map of increasing radicalism as the locus of action shifted to West Berlin. These two maps show that in West Germany, artists and their interventions in the structures of everyday life were a key starting point for challenging the postwar order. **Navigating the Transnational in Modern American Literature and Culture** Tara Stubbs, Doug Haynes, 2017-03-16 This study develops the important work carried out on American literature through the frameworks of transnational, transatlantic, and translocal studies to ask what happens when these same aspects become intrinsic to the critical narrative. Much cultural criticism since the 1990s has sought to displace perceptions of American exceptionalism with broader notions of Atlanticism.

transnationalism world system and trans localism as each has redefined the US and the world more generally This collection shows how the remapping of America in terms of global networks and as a set of particular localities or even glocalities now plays out in Americanist scholarship reflecting on the critical consequences of the spatial turn in American literary and cultural studies Spanning twentieth and twenty first century American poetry fiction memoir visual art publishing and television and locating the US in Caribbean African Asian European and other contexts this volume argues for a re modelling of American ness with the transnational as part of its innate rhetoric It includes discussions of travel migration disease media globalization and countless other examples of inflowing Essays focus on subjects tracing the contemporary contours of the transnational such as the role of the US in the rise of the global novel the impact of Caribbean history on American thought and vice versa transatlantic cultural and philosophical genealogies and correspondences and the exchanges between the poetics of American space and those of other world spaces Asking questions about the way the American eye has traversed and consumed the objects and cultures of the world but how that world is resistant this volume will make an important contribution to American and Transatlantic literary studies

Natural Materials of the Holy Land and the Visual Translation of Place, 500-1500 Renana Bartal,Neta Bodner,Bianca Kuhnel,2017-04-21 Natural Materials of the Holy Land and the Visual Translation of Place 500 1500 focuses on the unique ways that natural materials carry the spirit of place Since early Christianity wood earth water and stone were taken from loca sancta to signify them elsewhere Academic discourse has indiscriminately grouped material tokens from holy places and their containers with architectural and topographical emulations two dimensional images and bodily relics However unlike textual or visual representations natural materials do not describe or interpret the Holy Land they are part of it Tangible and timeless they realize the meaning of their place of origin in new locations What makes earth stones or bottled water transported from holy sites sacred How do they become pars pro toto signifying the whole from which they were taken This book will examine natural media used for translating loca sancta the processes of their sanctification and how although inherently abstract they become charged with meaning It will address their metamorphosis natural or induced how they change the environment to which they are transported their capacity to translate a static and distant site elsewhere the effect of their relocation on users viewers and how their containers and staging are used to communicate their substance

deepens our understanding of his many works and their contribution Claudia Mesch analyzes the aspects of Beuys's works that have most offended audiences especially the self woven legend of redemption that many have felt was a dubious and inappropriate fantasy for a former Nazi soldier to engage As she argues however Beuys's self mythology confronted post traumatic life head on foregrounding a struggle for psychic recovery Following Beuys's exhibitions in the 1970s she traces how he both expanded the art world beyond the established regional centers and paved the way for future artists interested in activism as art Exploring Beuys's expansive conceptions of what art is and following him into the realms of science politics and spirituality Mesch ultimately demonstrates the ways that his own myth making acted as a positive force in the Germany's postwar reckoning with its past

Performative monuments Mechtild Widrich, 2024-07-30 This book answers one of the most puzzling questions in contemporary art how did performance artists of the 60s and 70s famous for their opposition both to lasting art and the political establishment become the foremost monument builders of the 80s 90s and today Not by selling out nor by making self undermining monuments This book argues that the centrality of performance to monuments and indeed public art in general rests not on its ephemerality or anti authoritarian rhetoric but on its power to build interpersonal bonds both personal and social Specifically the survival of body art in photographs that cross time and space to meet new audiences makes it literally into a monument The argument of the book spans art in Austria the former Yugoslavia and Germany Valie Export Peter Weibel and the Viennese Actionists working in Austria and abroad Marina Abramovic Sanja Ivecovic and Braco Dimitrijevic working in Yugoslavia and abroad and Joseph Beuys and Jochen Gerz working in Germany

and abroad These artists began by critiquing monumentality in authoritarian public space and expanded the models developed on the streets of Vienna Munich Rome Belgrade and Zagreb to participatory monuments that delegate political authority to the audience Readers interested in contemporary art politics photography and performance will find in this book new facts and arguments for their interconnection
