Retreat from Moscow David Stahel,2019-11-19 An authoritative revisionist account of the German Winter Campaign of 1941 1942 with maps Hair raising a page turner Kirkus Reviews Germany s winter campaign of 1941 1942 is commonly seen as its first defeat In Retreat from Moscow a bold gripping account of one of the seminal moments of World War II David Stahel argues that instead it was its first strategic success in the East The Soviet counteroffensive was in fact a Pyrrhic victory Despite being pushed back from Moscow the Wehrmacht lost far fewer men frustrated its enemy s strategy and emerged in the spring unbroken and poised to recapture the initiative Hitler s strategic plan called for holding important Russian industrial cities and the German army succeeded The Soviets as of January 1942 aimed for nothing less than the destruction of Army Group Center yet not a single German unit was ever destroyed Lacking the professionalism training and experience of the Wehrmacht the Red Army s offensive attempting to break German lines in countless head on assaults led to

far more tactical defeats than victories Using accounts from journals memoirs and wartime correspondence Stahel takes us directly into the Wolf s Lair to reveal a German command at war with itself as generals on the ground fought to maintain order and save their troops in the face of Hitler s capricious increasingly irrational directives Excerpts from soldiers diaries and letters home paint a rich portrait of life and death on the front where the men of the Ostheer battled frostbite nearly as deadly as Soviet artillery With this latest installment of his pathbreaking series on the Eastern Front David Stahel completes a military history of the highest order An engaging fine grained account of an epic struggle Mr Stahel describes these days brilliantly switching among various levels of command while reminding us of the experiences of the soldiers on the ground and the civilians caught up in the Nazi war of annihilation *The Wall Street Journal* *The British National Bibliography*

Arthur James Wells,1979 *ACES HIGH MAGAZINE 19 EN* , **Technological Slavery** Theodore John Kaczynski,2010 Theodore J Kaczynski a k a The Unabomber is notoriously famed as the mastermind behind one of the longest and most publicised terror campaigns in US history Between 1978 and 1995 he sent 16 bombs to targets including universities airlines and The New York Times killing three people and injuring 23 The ideas expressed by Kaczynski before and after his capture raise crucial issues concerning the evolution and future of society For the first time the reader will have access to an uncensored personal account of his anti technology philosophy *Air Force Magazine* ,2014-07 **Great Stories of World War II** Arthur Coleman,Hildy Neel,2007 These eye witness accounts written by war correspondents service men and women home front civilians and defense workers among others constitute an invaluable and underutilized resource for historians geographers and students of this great historical event **Guide to Federal Records in the National Archives of the United States: Record groups 171-515** United States. National Archives and Records Administration,1995 *Air Corps News Letter* ,1950 *World War II Memory and Contested Commemorations in Europe and Russia* Jennifer A. Yoder,2024 Instrumentalization of the wartime past for political gain is the subject of this study of eleven World War II commemorations Using a comparative conceptually original approach Yoder identifies the actors who manipulate memory surrounding wartime anniversaries such as the bombing of Dresden and ceremonies to honor fallen soldiers and fascist collaborators The cases of memory contestation span three geographic regions Western Europe Eastern Europe and Russia recognizing that each developed distinctive interpretations of the war and different patterns of memory politics This empirically rich study reveals the grievances that motivate memory challengers and their strategies for shaping the commemoration discourses and rituals The memory challengers toolkit includes varieties of emotional manipulation subtle distortion revisionism and full scale denial The study finds that while there are differences in context and strategy across cases and regions there are also areas of convergence Moreover a memory challenge in one country can spill over into others with serious consequences for foreign relations While *World War II Memory and Contested Commemorations in Europe and Russia* deals with debates and narratives about events in the last century its focus is on power persuasion and identity in the present *The Book at War*

Andrew Pettegree, 2023-12-05 A magisterial Sunday Times history of how books were used in war across the twentieth century both as weapons and as agents for peace We tend not to talk about books and war in the same breath one ranks among humanity's greatest inventions the other among its most terrible But as esteemed literary historian Andrew Pettegree demonstrates the two are deeply intertwined The Book at War explores the various roles that books have played in conflicts throughout the globe Winston Churchill used a travel guide to plan the invasion of Norway lonely families turned to libraries while their loved ones were fighting in the trenches and during the Cold War both sides used books to spread their visions of how the world should be run As solace or instruction manual as critique or propaganda books have shaped modern military history for both good and ill With precise historical analysis and sparkling prose The Book at War accounts for the power and the ambivalence of words at war Soviet Military Power Army Library (U.S.), 1959
