Kennedy,2003-02 This volume is one of a series produced by the American intelligence services after the Second World War and written by captive German officers who had detailed knowledge of the operation It looks at the political situation before the outbreak of war on 1 September 1939 as well as examining in some detail German military developments up to the start of the war The Polish military situation is included together with the actual German plans for the invasion Operations are reported in great detail accompanied by maps Operations by Army Groups North and South receive separate treatment but are always linked at the strategic level There is a chronological treatment of the first battles and of the subsequent destruction of the Polish Armed Forces as well as the intervention by Russian forces under the terms of the Ribbentrop Molotov agreement of August 1939 which freed Hitler from the fear of a two front war There are ten maps of the developing military campaign As the campaign which started the Second World War Poland in 1939 deserves study especially the German reactions to the lessons learned during the campaign the solutions to which were in effect by May 1940 when the invasion of France and the Low Countries took place *The German Campaign in Poland, 1939* Robert M. Kennedy,1956 The German attack on Poland precipitated World War II making the Polish campaign one of particular significance to the student of the 1939 45 conflict The lessons learned by the German Army in its operations in Poland were put to use in the later campaigns against the western Allies the Balkan states and the Soviet Union Poland also formed the testing ground for new theories on the use of armored forces and close air support of ground troops The complete destruction of the Polish state and the removal of Poland from the map of eastern Europe were grim portents of the fate of the vanquished in the new concept of total war The purpose of this campaign study is to provide the United States Army with a factual account of German military operations against Poland based on source material from captured records currently in the custody of The Adjutant General Department of the Army monographs prepared by a number of former German officers for the Historical Division United States Army Europe and such Polish accounts as were available Abstract **"The" German Campaign in Poland 1939** Robert M. German Campaign In Poland (1939) [Illustrated Edition] Major Robert M. Kennedy,2014-06-13 Includes 6 maps and over 20 other illustrations The German attack on Poland precipitated World War II making the Polish campaign one of particular significance to the student of the 1939 45 conflict The lessons learned by the German Army in its operations in Poland were put to use in the later campaigns against the western Allies the Balkan states and the Soviet Union Poland also formed the testing ground for new theories on the use of armored forces and close air support of ground troops The complete destruction of the Polish state and the removal of Poland from the map of eastern Europe were grim portents of the fate of the vanquished in the new concept of total war The purpose of this campaign study is to provide the United States Army with

a factual account of German military operations against Poland based on source material from captured records currently in the custody of The Adjutant General Department of the Army monographs prepared by a number of former German officers for the Historical Division United States Army Europe and such Polish accounts as were available *The German Campaign in Poland, September 1 to October 5, 1939, Etc. [With Maps.]*. United States. War Department,1942 **The German Campaign in Poland** War Department,2017-04-03 This is an in depth examination of the successful tactics used by the German army and air force compiled by the United States War Department to be studied in preparation for meeting the Germans on the battlefield The author explains how through the proper and effective use of intelligence combined arms tactics and fifth column activities the German military was able to secure a massive and overwhelming victory **The German Campaign in Poland, 1939, by Robert M. Kennedy,...** Robert M. Kennedy,États-Unis. Army (Department),1956 *September, 1939. [An Account of the Author's Experiences in Poland.]*. Dominik WĘGIERSKI,1940 **The German Campaign in Poland, September 1 to October 5, 1939** United States. War Department. General Staff,1942 *Case White* Robert Forczyk,2019-10-31 This fascinating title from renowned World War II historian Robert Forczyk tells the story of Case White The German invasion of Poland on 1 September 1939 designated as Fall Weiss Case White was the event that sparked the outbreak of World War II in Europe The campaign has widely been described as a textbook example of Blitzkrieg but it was actually a fairly conventional campaign as the Wehrmacht was still learning how to use its new Panzers and dive bombers The Polish military is often misrepresented as hopelessly obsolete and outclassed by the Wehrmacht when in fact it was well equipped with modern weapons and armour Indeed the Polish possessed more tanks than the British and had cracked the German Enigma machine cipher Though the combined assault from Germany and the Soviet Union defeated Poland it could not crush the Polish fighting spirit and thousands of soldiers and airmen escaped to fight on other fronts The result of Case White was a brutal occupation as Polish Slavs found themselves marginalized and later eliminated paving the way for Hitler s vision of Lebensraum living space and his later betrayal and invasion of the Soviet Union in 1941 Using a wide array of sources Robert Forczyk challenges the myths of Case White to tell the full story of the invasion that sparked history s greatest conflict *The German Campaign in Poland* ,1942 Poland 1939 Steven J. Zaloga,2022-12-10 A detailed study of the first major conflict of the Second World War comparing the German Blitzkrieg offensive to the small but formidable Polish defense The German invasion of Poland on 1 September 1939 began World War II in Europe pitting the newly modernized army of Europe s great industrial power against the much smaller Polish army and introducing the world to a new style of warfare Blitzkrieg Panzer divisions spearheaded the German assault with Stuka dive bombers prowling ahead spreading terror and mayhem This book demonstrates how the Polish army was not as backward as it is often portrayed and fielded a tank force larger than that of the contemporary US Army Its stubborn defence did give the Germans some surprises and German casualties were relatively heavy for such a short campaign **Campaign in Poland 1939**

United States Army Military Academy,Aleksandra Miesak Rohde,2014-12-06 This previously classified military analysis of the German Invasion of Poland was conducted by the United States War Department in 1941 Included are six maps that were part of the original analysis terrain communications and permanent fortifications map 1 dispositions of opposing forces on August 31 and German Plan map 2 situation at dark on September 5 map 3 situation at dark on September 8 map 4 situation at dark on September 14 map 5 and situation at dark on September 20 map 6 The German campaign plan is reviewed as well as what was known of the Polish plan at the time There is also an analysis of comparative fighting strengths and a list of the principal commanders and their units This is a rare book and a valuable reference for every student and scholar of military history

The German Way of War Robert Michael Citino,2005 For Frederick the Great the prescription for warfare was simple kurz und vives short and lively wars that relied upon swift powerful and decisive military operations Robert Citino takes us on a dramatic march through Prussian and German military history to show how that primal theme played out time and time again Citino focuses on operational warfare to demonstrate continuity in German military campaigns from the time of Elector Frederick Wilhelm and his great sleigh drive against the Swedes to the age of Adolf Hitler and the blitzkrieg to the gates of Moscow Along the way he underscores the role played by the Prussian army in elevating a small vulnerable state to the ranks of the European powers describes how nineteenth century victories over Austria and France made the German army the most respected in Europe and reviews the lessons learned from the trenches of World War I
