Zalar,2018-11-29 Popular conceptions of Catholic censorship symbolized above all by the Index of Forbidden Books figure prominently in secular definitions of freedom To be intellectually free is to enjoy access to knowledge unimpeded by any religious authority But how would the history of freedom change if these conceptions were false In this panoramic study of Catholic book culture in Germany from 1770 1914 Jeffrey T Zalar exposes the myth of faith based intellectual repression Catholic readers disobeyed the book rules of their church in a vast apostasy that raised personal desire and conscience over communal responsibility and doctrine This disobedience sparked a dramatic contest between lay readers and their priests over proper book behavior that played out in homes schools libraries parish meeting halls even church confessionals The clergy lost this contest in a fundamental reordering of cultural power that helped usher in contemporary Catholicism

Reading the Canon Philipp Löffler,2017-03-02 Reading the Canon explores the relation between the production of literary value and the problem of periodization tracing how literary tastes particular reader communities and sites of literary learning shape the organization of literature in historical perspective Rather than suggesting a political critique of the canon this book shows that the production of literary relevance and its tacit hierarchies of value are necessary consequences of how reading and writing are organized as social practices within different fields of literary activity Reading the Canon offers a comprehensive theoretical account of the conundrums still defining contemporary debates about literary value the book also features a series of historically inflected author studies from classics such as Shakespeare and Thomas Pynchon to less likely figures such as John Neal and Owen Johnson that illustrate how the idea of literary relevance has been appropriated throughout history and across a variety of national and transnational literary institutions **Annual Report of the**
