popular and elite levels This is the basis for Europe's condition of far from completed unity at the centre of which is now a reunited Germany more sure of itself but less sure of the world around it **Tangled Transformations** Kiran Klaus Patel, 2024-08-30 Tangled Transformations presents a historical analysis of the interplay between German unification and European integration from the mid 1980s to the mid 1990s Building on freshly released documents the book's sixteen chapters explore constellations in which the two processes accelerated and informed one another The book highlights the role of Germany's neighbours to the east with chapters discussing the cotransformation between East and West as well as chapters dedicated to Poland Romania and Hungary It sheds new light on the two interrelated processes by examining the role of Germany's most important Western neighbours and partners the United States the United Kingdom France and Italy The book pays particular attention to the role of the European Commission as well as to monetary and industrial policy It also moves beyond the economic sphere by discussing foreign and security policy issues justice and home affairs German debates about European integration at the time and the significance of the German federal states Ultimately Tangled Transformations demonstrates the strong interlinkages between German unification and European integration The Making of EU Foreign Policy K. Smith, 2004-01-13 The Making of EU Foreign Policy argues that there has been a common European Union EU foreign policy towards six countries of Eastern Europe Bulgaria Czech Republic Hungary Poland Romania Slovakia and analyzes why the EU has agreed to the policy The objective of the EU's policy is to support the transformation of Eastern Europe and thus ensure security and stability The most important instrument that the EU has used to reach this objective has been the prospect of enlargement **Political Parties and the European Union** John Gaffney, 2002-09-11 A major textbook for comparative courses on European politics and for courses on the European Union providing a panoramic survey of the political parties of Europe **Historical Dictionary of Contemporary Germany** Derek Lewis, Ulrike Zitzlsperger, 2016-10-18 This second edition of Historical Dictionary of Contemporary Germany provides a comprehensive overview of most aspects of life and institutions in contemporary Germany It also introduces the reader to the historical development of both East and West Germany between 1949 and 1990 and addresses the various issues arising from reunification This second edition of Historical Dictionary of Contemporary Germany contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 500 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Germany *Germany in Europe in the Nineties* Bertel Heurlin, 2016-07-27 What will be the future of Germany Will Germany remain a soft power pursuing a bind me love me policy or will we see a new Germany signalling strength and power based on nationalism and German identity The book written by well known German British French Russian Danish and American scholars attempts to present contrasting analyses on different levels of the general political dimension and position of the united Germany in Europe *International*

Pushing Back the Boundaries Mike Mannin, 1999 Missionary families were an integral component of the missionary enterprise both as active agents on the global religious stage and as a force within the enterprise that shaped understandings and theories of mission itself Taking the family as a legitimate unit of historical analysis in its own right for the first time Missionary families traces changing familial policies and lived realities throughout the nineteenth century and powerfully argues for the importance of an historical understanding of the missionary enterprise informed by the complex interplay between the intimate the personal and the professional By looking at marriage parenting and childhood along with professionalism vocation and domesticity this first in depth study of missionary families reveals their profound importance to the missionary enterprise and concludes that mission history can no longer be written without attention to the personal emotional and intimate aspects of missionary lives

The Post-Cold War International System Ewan Harrison, 2004-07-31 The end of the Cold War has opened up a real world laboratory in which to test and refine general theories of international relations Using the frameworks provided by structural realism institutionalism and liberalism The Post Cold War International System examines how major powers responded to the collapse of the Soviet Union and developed their foreign policies over the period of post Cold War transition The book argues that the democratic peace has begun to generate powerful socialisation effects due to the emergence of a critical mass of liberal democratic states since the end of the Cold War The trend this has produced is similar to a pattern that classical realists have interpreted as bandwagoning within a unipolar power structure Case studies of Germany China and Japan identified as key states with the potential to challenge US dominance provide evidence to support the assessment of international change The author concludes by exploring the implications of September 11th for the analysis developed This important volume argues that the end of the Cold War was a major historical turning point in the development of world politics with fundamental implications for the basic way in which the dynamics of the international system are conceptualised
