Germans or Foreigners? Attitudes Toward Ethnic Minorities in Post-Reunification Germany R. Alba,P. Schmidt,M.

Wasmer,2004-01-02 This book examines contemporary attitudes towards ethnic minorities in Germany These minorities include some of immigrant origin such as Italians Turks and asylum seekers and the principal non immigrant minority Jews While the findings demonstrate that intense prejudice against minorities is not widespread among Germans many of whom in fact can be considered immigrant and minority friendly a crystallization of attitudes is also evident that is attitudes towards immigrants are strongly correlated with anti Semitism and with other worldview dimensions such as positioning in the left right political spectrum In this sense the fundamental question of whether immigrants and other minorities should be regarded as fellow citizens or ethnic outsiders remains relevant in the German context **Foreigners, minorities and**

**integration** Sarah Hackett,2015-11-01 This book explores the arrival and development of Muslim immigrant communities in Britain and Germany during the post 1945 period through the case studies of Newcastle upon Tyne and Bremen It traces Newcastle s South Asian Muslims and Bremen s Turkish Muslims from their initial settlement through to the end of the twentieth century and investigates their behaviour and performance in the areas of employment housing and education At a time at when Islam is sometimes seen as a barrier to integration and harmony in Europe this study demonstrates that this need not be the case In what is the first comparison of Muslim ethnic minorities in Britain and Germany at a local level this book reveals that instances of integration have been frequent It is essential reading for both academics and students with an interest in migration studies modern Britain and Germany and the place of Islam in contemporary Europe **Challenging**

**Multiculturalism: European Models of Diversity** Raymond Taras,2012-12-17 Tackles the challenge of dismantling the multicultural model without destroying diversity in European society Have Europeans become hostile to multiculturalism When people vote for anti immigration parties do they also support their anti multiculturalism policies And are right wing extremists becoming the storm troopers of the struggle against diversity In recent years European political leaders from Angela Merkel to David Cameron have discarded the term multiculturalism and now express scepticism criticism and even hostility towards multicultural ways of organising their societies Yet they are unprepared to reverse the diversity existing in their states These contradictory choices have different political consequences in the countries examined in this book The future of European liberalism is being played out as multicultural notions of belonging inclusion tolerance and the national home are brought into question After the Nazi Racial State Rita Chin,Heide Fehrenbach,Geoff Eley,Atina

Grossmann,2010-02-22 An investigation of the concept of race in post Nazi Germany Thucydides' Meditations on Fear Raymond Taras,2023-09-12 Understanding contemporary global politics by connecting them to the meditations of a classical Greek philosopher may seem farfetched and counterintuitive But for political theorists policymakers the new influencers journalists and engaged students Thucydides ancient wisdom provides insights into diagnosing and even undermining an

endemic of political fear spreading across the world's borders. With his help, this book probes six case studies of aspiring great powers and the brittle identities that they may have unwittingly constructed. Raymond Taras questions the motives of the manipulators of fear, whether found in authoritarian states or increasingly in backsliding liberal democratic ones. The urgency of returning to and respecting tolerance in states establishing relations with arriving refugees and migrants takes on critical importance.

Immigration Dialectic Harald Bauder, 2011-11-19 Immigration is an integral part of national identity in settler societies such as Canada. But in countries where identity is defined more in ethnic terms such as Germany, the presence of immigrants has only recently begun to be acknowledged. Taking these two countries as case studies, *Immigration Dialectic* explores the impact of immigration on national identity as imagined through media-based discourse. Harald Bauder argues that while both countries rely on negative depictions of immigrants to construct a positive image of the self, the ways in which Canada and Germany construct national identity in relation to representations of immigrants are significantly different. Bauder introduces a sophisticated framework of Hegelian dialectics for the growing interdisciplinary literature regarding media perspectives on immigration and national identity. Providing close analysis of themes such as belonging, economic impacts, and national security, *Immigration Dialectic* will appeal to anyone interested in contemporary discussions on immigration.

**Teaching Migrant Children in West Germany and Europe, 1949-1992** Brittany Lehman, 2018-11-23 This book examines the right to education for migrant children in Europe between 1949 and 1992. Using West Germany as a case study to explore European trends, the book analyzes how the Council of Europe and European Community's ideological goals were implemented for specific national groups. The book starts with education for displaced persons and exiles in the 1950s, then compares schooling for Italian, Greek, and Turkish labor migrants, then circles back to asylum seekers and returning ethnic Germans. For each group, the state entries involved tried to balance equal education opportunities with the right to personhood, an effort which became particularly convoluted due to implicit biases. When the European Union was founded in 1993, children's access to education depended on a complicated mix of legal status and perception of cultural compatibility. Despite claims that all children should have equal opportunities, children's access was limited by citizenship and ethnic identity.

New Russian Nationalism Kolsto Pal Kolsto, 2016-03-24 Russian nationalism, previously dominated by imperial tendencies, pride in a large, strong, and multi-ethnic state able to project its influence abroad, is increasingly focused on ethnic issues. In 2014, Russia's annexation of Crimea and the subsequent violent conflict in Eastern Ukraine utterly transformed the nationalist discourse in Russia. This book provides an up-to-date survey of Russian nationalism as a political, social, and intellectual phenomenon by leading Western and Russian experts in the field of nationalism studies. It includes case studies on migrantophobia, the relationship between nationalism and religion, nationalism in the media, nationalism and national identity in economic policy, nationalism in the strategy of the Putin regime, as well as a survey-based study of nationalism in public opinion.

Anti-Racist Social Work Lena Dominelli, 2017-09-21 Fully revised and updated throughout

this fourth edition of Lena Dominelli's influential book retains its reputation as the go to text on anti racist social work practice As racism continues to present a problem in contemporary society the growth of the Far Right the rise of Islamophobia and the victory of the Brexit camp in the EU referendum the need to address racist attitudes and behaviour that affect diverse groups of people in the UK remains an urgent one A truly classic text Anti Racist Social Work has been providing students and practitioners with a comprehensive guide to the debates and practices on racism in contemporary society since 1988 New to this Edition Includes a brand new chapter on Social Work Across Borders Incorporates discussion of recent events and developments to encourage critical thinking and analyses their effect on practice Offers examples from across the globe at both micro and macro level      **Nordic, Central, and Southeastern Europe 2014** Wayne C.

Thompson, 2014-07-24 This is an annually updated presentation of each sovereign country in Nordic Central and Southeastern Europe past and present It is organized by individual chapters for each country dealing with its geography people history political system constitution parliament decentralization and states if a federation parties political leaders and elections There are also sections on foreign and defense policy economy culture future and a lengthy bibliography      **Race in Mind** Paul Spickard, 2015-11-19 These essays analyze how race affects people's lives and relationships in all settings from the United States to Great Britain and from Hawai'i to Chinese Central Asia They contemplate the racial positions in various societies of people called Black and people called White of Asians and Pacific Islanders and especially of those people whose racial ancestries and identifications are multiple Here for the first time are Spickard's trenchant analyses of the creation of race in the South Pacific of DNA testing for racial ancestry and of the meaning of multiplicity in the age of Barack Obama

**The Oxford Handbook of Modern German History** Helmut Walser Smith, 2011-09-29 This is the first comprehensive multi author survey of German history that features cutting edge syntheses of major topics by an international team of leading scholars Emphasizing demographic economic and political history this Handbook places German history in a denser transnational context than any other general history of Germany It underscores the centrality of war to the unfolding of German history and shows how it dramatically affected the development of German nationalism and the structure of German politics It also reaches out to scholars and students beyond the field of history with detailed and cutting edge chapters on religious history and on literary history as well as to contemporary observers with reflections on Germany and the European Union and on multi cultural Germany Covering the period from around 1760 to the present this Handbook represents a remarkable achievement of synthesis based on current scholarship It constitutes the starting point for anyone trying to understand the complexities of German history as well as the state of scholarly reflection on Germany's dramatic often destructive integration into the community of modern nations As it brings this story to the present it also places the current post unification Federal Republic of Germany into a multifaceted historical context It will be an indispensable resource for scholars students and anyone interested in modern Germany      **Ageing in Contexts of Migration** Ute Karl, Sandra

Torres,2015-08-20 Population ageing and the globalisation of international migration are challenging the research agendas of social scientists around the world and posing numerous challenges for policy makers and practitioners whose goal is to formulate and design high quality and user friendly policies and services Both of these phenomena have brought for example attention to the fact that more and more people around the world are ageing in countries other than those where they were born The fact that elderly care sectors around the world need to recruit staff if they are to handle the growing number of older people that will need their services is also something that has been discussed when population ageing and the globalisation of international migration have been debated The elderly care sector s reliance on people with migrant backgrounds has namely increased as a result of these phenomena This collection is therefore situated at the intersection of ageing and migration studies and takes into account the various issues with which this intersection is concerned The chapters in this volume are written by established researchers in the field of ageing and migration around the world The collection explores these issues in three sections Elderly care regimes and migration regimes national perspectives Ageing in contexts of migration a multifaceted phenomenon Elderly care and migration The expert contributions in this volume address the array of issues associated with the study of ageing old age and elderly care in contexts of migration

**The Uyghur Lobby** Yu-Wen Chen,2013-12-17 An upsurge in violence between Uyghur and Han in China s far western region of Xinjiang has gained increased media and academic attention in recent years as was evidenced in the July 2009 riots Numbering over eight million the Uyghur are China s fifth largest minority nationality and their mounting aspiration for obtaining more autonomy has contributed to the recent ethnic conflicts in the region This book looks at those who are seeking to preserve the Uyghur identity and support the secession of Xinjiang from China in order to create their own independent state by exploring the global operations and sister groups of the Uyghur diaspora umbrella organization the World Uyghur Congress WUC It examines the networks of the WUC the coalitions it has formed the strategies the organization pursues to raise public awareness about Uyghur issues around the globe and looks at the actors that have emerged as key players in the contemporary WUC network Further this book shows that the Uyghur lobby is not a unified movement but that the local groups that it consists of are highly constrained by the broader domestic politics of their host countries a fact which has a significant impact on the lobby s ability to realize its strategic and political

ambitions In turn Yu Wen Chen gauges the impact of the WUC on public opinion and policymakers in the world's democracies and shows how since Uyghur organizations have been given legitimacy by liberal democracies and international governmental organizations they can no longer be considered merely splintered members of a far flung diaspora locked in a one sided struggle with Beijing Indeed Uyghur activists can and do use their hard won legitimacy as legal migrants and asylum seekers to influence politics in their host countries This unique and timely study reveals how an issue concerning a Chinese minority has been catapulted onto the wider global political stage and as such it will be of great interest to students and scholars working on Chinese politics the Uyghur issue and minority and ethnic politics social movements human rights and international politics more broadly

### **Methods, Theories, and Empirical Applications in the Social Sciences**

Samuel Salzborn,Eldad Davidov,Jost Reinecke,2012-03-30 The volume addresses major features in empirical social research from methodological and theoretical perspectives Prominent researchers discuss central problems in empirical social research in a theory driven way from political science sociological or social psychological points of view These contributions focus on a renewed discussion of foundations together with innovative and open research questions or interdisciplinary research perspectives

**Political Psychology of Turkish Political Behavior** Cengiz Erisen,2016-04-14 The primary motivation for this book is to focus on something crucial that is missing in Turkish political science well founded theories on the Turkish voter and empiricism in scholarly research Given the absence of such theories one could ask what then the best model is for explaining a Turkish citizen's vote choice and political behaviour and what schools of thought Turkish political science has Unfortunately it is not possible to offer a satisfactory response to either question at this point and among the clear deficiencies in the current literature the primary one is the lack of a robust model explaining how Turkish citizens form their political attitudes engage in political participation or cast their votes With these important questions in mind this book aims to generate an interest in the theoretical and methodological tools that one can employ to conduct research contributing to the needs of the literature particularly in political behaviour and political psychology This book expands our understanding about the processes and the mechanisms of Turkish political behaviour and contributes to the foundations of theory building in the literature This book was published as a special issue of Turkish Studies

### ***The Next Generation***

Richard Alba,Mary C. Waters,2011-04-01 One fifth of the population of the United States belongs to the immigrant or second generations While the US is generally thought of as the immigrant society par excellence it now has a number of rivals in Europe The Next Generation brings together studies from top immigration scholars to explore how the integration of immigrants affects the generations that come after The original essays explore the early beginnings of the second generation in the United States and Western Europe exploring the overall patterns of success of the second generation While there are many striking similarities in the situations of the children of labor immigrants coming from outside the highly developed worlds of Europe and North America wherever one looks subtle features of national and local contexts interact with

characteristics of the immigrant groups themselves to create variations in second generation trajectories The contributors show that these issues are of the utmost importance for the future for they will determine the degree to which contemporary immigration will produce either durable ethno racial cleavages or mainstream integration Contributors Dalia Abdel Hady Frank D Bean Susan K Brown Maurice Crul Nancy A Denton Rosita Fibbi Nancy Foner Anthony F Heath Donald J Hernandez Tariqul Islam Frank Kalter Philip Kasinitz Mark A Leach Mathias Lerch Suzanne E Macartney Karen G Marotz Noriko Matsumoto Tariq Modood Joel Perlmann Karen Phalet Jeffrey G Reitz Rub n G Rumbaut Roxanne Silberman Philippe Wanner Aviva Zeltzer Zubida and Ye Zhang

Germany on the Road to Normalcy W. Reutter, 2004-04-02 Many thought that the German question that had shaped European history so catastrophically in the last century had been solved for good in 1990 And the last elections seemed to confirm that Germany was on the road to normalcy However at the beginning of the new century many see Germany as a problem case in Europe This raises the question about the future of Germany and the performance of the incumbent government The book addresses these issues by examining the policies and politics of the Red Green government and by putting recent changes and developments in this country in a long term perspective

**Thirty Years After the Berlin Wall** Ayline Heller, Peter Schmidt, 2024-03-29 This book examines the increasing body of research dedicated to the lasting differences between the former separate states of the Federal German Republic FRG and the German Democratic Republic GDR Thirty years after the fall of the Berlin Wall it takes a broad view on German unification and transformation research Transformation and unification processes in East and West Germany are still ongoing and they may serve as a model for social change and its political economic and psychological consequences Using advanced statistical methods of analysis this edited volume provides insights into the valuable contextualization of individual and social phenomena that current research on German unification and transformation is producing Following the open science mindset using code and data the authors investigate temporal trends in 1 mental health 2 political attitudes and 3 work and family life It explores changes in mental health and political attitudes as well as continued differences in work and family arrangements that may stem from heterogeneous experiences within the systems and during the transformation process This book will appeal to scholars and students from the disciplines of sociology political science public health social psychology psychology and communication science interested in postsocialist transition processes and temporal changes in individuals and societies
