Germany Divided From The Wall To Reunification:

Germany Divided A. James McAdams, 2020-12-08 *Germany Divided* remains one of the most thought provoking and comprehensive interpretations of the forty year relationship between East and West Germany and of the problems of contemporary German unity In this politically controversial and analytically sophisticated account A James McAdams dissects the complex process by which East and West German leaders moved over the years from first pursuing the ideal of German unity to accepting what they believed to be the inescapable reality of division and then finally to meeting the challenges of an unanticipated reunification This new edition contains an epilogue in which McAdams considers some of the political and economic problems faced by eastern and western Germans as they entered their fourth year of living together *The German Problem Transformed* Thomas Banchoff, 2010-05-06 Does the new more powerful Germany pose a threat to its neighbors Does the new German Problem resemble the old *The German Problem Transformed* addresses these questions fifty years after the founding of the Federal Republic and ten years after the fall of the Berlin Wall Many observers have underscored the reemergence of Germany as Europe's central power After four decades of division they contend Germany is once again fully sovereign without the strictures of bipolarity its leaders are free to define and pursue national interests in East and West From this perspective the reunified Germany faces challenges not unlike those of its unified predecessor a century earlier *The German Problem Transformed* rejects this formulation Thomas Banchoff acknowledges post reunification challenges but argues that postwar changes not prewar analogies best illuminate them The book explains the transformation of German foreign policy through a structured analysis of four critical postwar junctures the cold war of the 1950s the détente of the 1960s and 1970s the new cold war of the early 1980s and the post cold war 1990s Each chapter examines the interaction of four factors international structure and institutions foreign policy ideas and domestic politics in driving the direction of German foreign policy at a key turning point This book will be of interest to scholars and students of German history German politics and European international relations as well as policymakers and the interested public Thomas Banchoff is Assistant Professor of Government Georgetown University *Homelands* Nadav G. Shelef, 2020-07-15 Why are some territorial partitions accepted as the appropriate borders of a nation's homeland whereas in other places conflict continues despite or even because of division of territory In *Homelands* Nadav G Shelef develops a theory of what homelands are that acknowledges both their importance in domestic and international politics and their change over time These changes he argues driven by domestic political competition and help explain the variation in whether partitions resolve conflict *Homelands* also provides systematic comparable data about the homeland status of lost territory over time that allow it to bridge the persistent gap between constructivist theories of nationalism and positivist empirical analyses of international relations **The Fall of the Berlin Wall** Jeffrey A. Engel, 2011-10 More than two decades after the Wall's collapse this book brings together leading authorities who offer a fresh look at how leaders in four vital centers of world politics the

Driving the Soviets up the Wall Hope M. Harrison, 2011-06-27 The Berlin Wall was the symbol of the Cold War For the first time this path breaking book tells the behind the scenes story of the communists decision to build the Wall in 1961 Hope Harrison's use of archival sources from the former East German and Soviet regimes is unrivalled and from these sources she builds a highly original and provocative argument the East Germans pushed the reluctant Soviets into building the Berlin Wall This fascinating work portrays the different approaches favored by the East Germans and the Soviets to stop the exodus of refugees to West Germany In the wake of Stalin's death in 1953 the Soviets refused the East German request to close their border to West Berlin The Kremlin rulers told the hard line East German leaders to solve their refugee problem not by closing the border but by alleviating their domestic and foreign problems The book describes how over the next seven years the East German regime managed to resist Soviet pressures for liberalization and instead pressured the Soviets into allowing them to build the Berlin Wall *Driving the Soviets Up the Wall* forces us to view this critical juncture in the Cold War in a different light Harrison's work makes us rethink the nature of relations between countries of the Soviet bloc even at the height of the Cold War while also contributing to ongoing debates over the capacity of weaker states to influence their stronger allies
