Fishers Of Men Or Founders Of Empire:

Fishers of Men Or Founders of Empire? David Stoll,1982 **Fishers of men or founders of empire?** David Stoll,1982 God in the Rainforest Kathryn T. Long,2019-01-10 In January of 1956 five young evangelical missionaries were speared to death by a band of the Waorani people in the Ecuadorian Amazon Two years later two missionary women the widow of one of the slain men and the sister of another with the help of a Wao woman were able to establish peaceful relations with the same people who had killed their loved ones The highly publicized deaths of the five men and the subsequent efforts to Christianize the Waorani quickly became the defining missionary narrative for American evangelicals during the second half of the twentieth century God in the Rainforest traces the formation of this story and shows how Protestant missionary work among the Waorani came to be one of the missions most celebrated by Evangelicals and most severely criticized by anthropologists and others who accused missionaries of destroying the indigenous culture Kathryn T Long offers a study of the complexities of world Christianity at the ground level for indigenous peoples and for missionaries anthropologists environmentalists and other outsiders For the first time Long brings together these competing actors and agendas to reveal one example of an indigenous people caught in the cross hairs of globalization Kenneth L. Pike: An Evangelical Mind Boone Aldridge,2021-12-07 This biography examines the life of a most unusual twentieth century evangelical Kenneth L Ken Pike 1912 2000 who served with the Wycliffe Bible Translators and the Summer Institute of Linguistics Pike began his missionary career as a Bible translator but he went on to become a world class linguist who made his mark on the science of linguistics and the study of indigenous languages around the world Known among linguists and anthropologists for his theoretical contributions this volume seeks to bring Pike to a wider audience by illuminating his life as a key evangelical figure one who often broke with conventional evangelical constraints to pursue the life of the mind as a Christian intellectual and scholar Here is a story of how one evangelical Christian man served the global church the scientific community and the world s indigenous peoples with his entire heart soul and mind **Great Awakenings** David Horn,Gordon L. Isaac,2022-05-03 This book is an engaging look at spiritual awakenings that have happened in the church throughout history It examines how these extraordinary movements of God translate into the larger cultural analysis of today Spiritual awakenings have refreshed the people of God from the very origins of the church What about these past movements can be instructive for the church today Can we expect God s awakening presence in our day These questions brought about the Surprising Work of God Conference in the fall of 2015 in which speakers traced awakening movements from the Old and New Testaments to the present day Great Awakenings represents the culmination of this conference as the collected works of notable speakers Chapters address questions about spiritual awakenings through historical theological and sociological lenses They look at the events that precipitated these awakenings evaluating whether their causes were purely religious or otherwise and finally suggest what about the awakenings is normative for the church today Protestantism and State

Formation in Postrevolutionary Oaxaca Kathleen M. McIntyre, 2019-05-15 In this fascinating book Kathleen M McIntyre traces intra village conflicts stemming from Protestant conversion in southern Mexico and successfully demonstrates that both Protestants and Catholics deployed cultural identity as self defense in clashes over local power and authority McIntyre's study approaches religious competition through an examination of disputes over tequio collective work projects and cargo civil religious hierarchy participation By framing her study between the Mexican Revolution of 1910 and the Zapatista uprising of 1994 she demonstrates the ways Protestant conversion fueled regional and national discussions over the state's conceptualization of indigenous citizenship and the parameters of local autonomy The book's timely scholarship is an important addition to the growing literature on transnational religious movements gender and indigenous identity in Latin America

The New Shape of World Christianity Mark A. Noll, 2009-05 Noll makes a compelling case that how Americans have come to practice the Christian faith is just as globally important as what the American church has done in the world

Evangelism and Apostasy Kurt Bowen, 1996-04-30 Highlighting the demographic social and political character of the Evangelical movement in the 1980s and 1990s Bowen pays particular attention to conversion processes commitment mechanisms schisms and distinctive beliefs He also considers the controversial issues of religious persecution and American missionary influence Bowen reveals that Evangelicalism's appeal is so pervasive in Mexico that if Evangelical converts all remained faithful it could become Mexico's dominant religion by 2006 This projection however is improbable due to high drop out rates Bowen argues that Evangelical apostasy is rooted in the most basic beliefs and practices of its followers

Rethinking Protestantism in Latin America David Stoll, 1993 The diverse case studies in this volume explore facets of the Protestant movement in Central and South America such as the role of women the connection with Catholic mysticism the politics of supposedly conservative evangelical missionaries and the implications for existing patterns of authority

Reflections on Sociology and Theology David Martin, 1997 Reflections on Sociology and Theology is a collection of essays by a distinguished sociologist exploring the relationship between sociology and religious issues After laying out the main themes to be explored David Martin divides the essays into three sections Part I Theoretical Considerations have a strong methodological content and examine the nature of sociology and theology and their inter relationship Part II Practical Issues discusses sociological and practical issues of interest to theologians such as peace studies Christian Unity and the nature of religious comment on politics Part III Addresses to Clergy and to Teachers of Sociology divides into two parts the first address is directed against the notion of collective guilt as propagated by both religious and secular sources The second aimed at the clergy sets out the empirical situation of western Christianity and suggests a socio theological response David Martin presents an elegant compelling argument that religion and sociology can and should co exist

For the Gospel's Sake Boone Aldridge, 2018-04-12 Informed take on the amazing growth of a very unusual missionary organization The two sided mission organization comprising Wycliffe Bible Translators and the Summer Institute of Linguistics is a paradox that

begs for an explanation The Summer Institute has long been doing laudable linguistic humanitarian work in many countries while Wycliffe has been one of the largest fastest growing and most controversial Christian missionary enterprises in the world In this wide ranging study Boone Aldridge a religious historian and twenty year insider at WBT SIL looks back at the organization s early years from its inception in the 1930s to the death of its visionary founder William Cameron Townsend in 1982 He situates the iconic institution within the evolving landscape of mid twentieth century evangelicalism examines its complex and occasionally confusing policies and investigates the factors that led despite persistent criticism from many sides to its remarkable rise to prominence

The Politics of Linguistics Frederick J. Newmeyer, 1988-03-15 Linguists in the past two centuries have for the most part approached language as an autonomous entity their practice has been to study languages without considering the culture society or beliefs of the speakers Autonomous linguistics has been attacked from both the left and the right Critics on the left in particular Marxists argue that the separation of language from its societal context reinforces the status quo by downplaying the role of language as an instrument of ideology and social control Critics on the right object to the value free analyses of individual languages required by the autonomous approach and to the idea that all languages merit equal attention The Politics of Linguistics surveys two centuries of debate over autonomy The discussion includes the political implications of the birth of the modern field of linguistics in the Romantic movement the views of Marx and Engels on language the attack on structural linguistics by both Hitler and Stalin the role of Christian missionary groups and the military in building the field in the United States and the relation between Noam Chomsky s linguistic theories and his political views Frederick J Newmeyer demonstrates that external political demonstrates that external political currents have often influenced the relative popularity of the autonomous approach to language He argues that autonomous linguistics far from being inconsistent with progressive political goals can be creatively applied to the fulfillment of such goals

Philosophy, Science, and Theology of Mission in the 19th and 20th Centuries: The philosophy and science of mission J. A. B. Jongeneel, 1995 **Missionalia** , 1985 **The New Cambridge History of American Foreign Relations** William Earl Weeks, Walter LaFeber, Akira Iriye, Warren I. Cohen, 2013-02-28 This new first volume proposes that the British North American colonists desire for expansion security and prosperity is the essence of American foreign relations

ThirdWay , 1984-12 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture The Annual Register, Or, A View of the History, Politics, and Literature for the Year ... , 1822 Annual Register, Or, A View of the History, Politics, and Literature for the Year ... Edmund Burke, 1822 Thy Will be Done Gerard Colby, Charlotte Dennett, 1995 We see Rockefeller gathering political power and building a vast business empire in Latin America working with the CIA developing close friendships with famous Latin American politicians and businessmen and increasingly advocating military dictatorships while Townsend s missionaries are used to pacify native populations in frontiers rich in oil and rare minerals or subject to guerrilla insurgencies **Darkest**
