This significant book will help focus research on this important though neglected area. The primary aims of the book are to provide an overview of reproductive tract infections and other gynaecological disorders to highlight the conceptual and methodological challenges associated with undertaking research on this subject and to serve as a reference for future research in this area. The book focuses on developing country settings and recognizes that gathering this sort of information requires a multidisciplinary and culturally sensitive approach. Findings from the research described in this book will undoubtedly assist physicians, social scientists, epidemiologists and public health practitioners in evaluating the magnitude of this problem within the community at large and in identifying potentially effective medical and behavioural interventions to address this problem.

Core Curriculum for Neonatal Intensive Care Nursing E-book AWHONN, M. Terese Verklan, Marlene Walden, NANN, AACN, 2009-06-24. Perfect as a resource in the field or for exam preparation, this authoritative reference from the Association of Women's Health, Obstetric and Neonatal Nurses (AWHONN) includes in-depth coverage of the most common neonatal disorders and their management. The concise outline format highlights the essentials of each condition, including definition, etiology, pathophysiology, signs and symptoms, diagnostic tests, treatments and outcomes, to help you find important information quickly. Coverage of key content on the neonatal intensive care nursing certification exam prepares you for test success. Information on families, ethics, legal issues, research, case management and the transition to home emphasizes the importance of total care of the neonatal patient and family. New and updated content on late preterm infants, neurologic disorders and ventilatory strategies provide the latest information from the field for more effective patient outcomes.
