

Amount of Alteration Depends on Style

Don't automatically do a full alteration. Do so on the inside first. The dart shown below is 4" longer than the body measurement to the bust and the skirt is 4" longer. The blouse may require no alteration or much less than the skirt. The fuller bust might "come up" some of the ease in the skirt.

Good piece
4" Bust
bust

Good blouse
4" Bust
bust

Try On the Tissue

Prepare the pattern piece as shown above page 112. Pin seams and darts, wrong sides together. Try on as you'll wear it (i.e., with shoulder pads or not a blouse). Check and alter the back to fit first, then alter the front. If you are full-busted you'll usually use a

gap in the armhole. Also, the pattern's center front won't reach your waistline. Measure from the pattern center front to your center front. That's the amount you'll need to widen the front pattern piece.

NOTE: If the dart is too high, don't worry. It will be lower after completing the alteration.

FIT
Tip

If you are thick at the waist, put one pin only at the top of the side seam during tissue-fitting.

Full Bust—Darted Front

Use full bust measurement to the bust (waistline). Pattern Sewing Book is 34" and a full bust size blouse was made.

Darts should point to bust apex, but slope about 1" toward B.

STEP 1

With pattern right side up, place (front) lines on the pattern board.

Draw Line 1 from waistband of the waist up the armhole to the apex and then straight down from the apex. (If there is an existing central dart, as shown, this line will usually go through the center of it.)

Draw Line 2 through the center of the side dart, extending it to the apex.

Draw Line 3 anywhere below the apex in the section shown.

STEP 2

Cut on Line 1 from the lower edge up to, but not through, the armhole seam.

Fit
Tip

In the armhole area, cut the seam allowance to 1/4" (not 1/2"!). Because the seamline from both sides has armhole won't get larger when you spread the tissue. The seam allowance will lap when the tissue is spread.

STEP 3

Cut on Line 2 up to Line 1, leaving a 1-in. lap.

Step 4
Use the pattern board to spread the tissue toward the armhole, pulling toward center. The shoulder seamline must

remain straight. Cut the pattern open at the horizontal seam (Line 1) the amount you need, leaving the long edges even. To do this, spread the tissue until the dart is flat, the center goes up and the side edges down as in 1) open up leaving a 1-in. lap.

Now, under the two 1-in. sections with pins as shown.

Angling
pins
spread from the center of each tissue section up to 1/4" in place. It can't move.

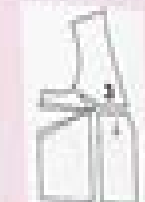

OR, if it is easier for you, cut on Line 1 and spread the tissue the amount you need at the horizontal seam in the illustration at left. Then cut on Line 2 and make Line 1 edges parallel.

STEP 5

Cut on Line 1 and tissue until the bottom edges of the pattern sections are even. Another as shown.

Design
Tip

If you want a blouse 12" in a waist, Line 1. Cut on it at the apex as shown here.

STEP 6

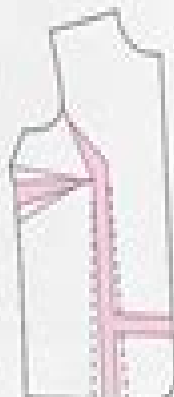

Fill in the openings with tissue. Make sure all pieces are flat with no wrinkles. Tape in place, beginning in the middle and working to the side edges.

Don't remove pins until all pieces are securely taped.

You now have deeper darts, more width across the bust and a higher armhole which won't gap after the dart is sewn!

Quick
Tip

Steps 1-6 can be done on top of one large sheet of tissue to save time. After pinning and taping, trim away the excess tissue.

Fit For Real People Sew Great Clothes Using Any Pattern
