**'Fit to be Styled a Typographer'** James Moran, 1978      *Modern Typography* Robin Kinross, 2004 In a survey of developments since 1700 this book proposes a new understanding of modern typography as something larger and more deeply rooted than a modernism of style Rather modern is taken to imply an articulate consciousness of action The book's treatment lays stress on debates over principle and explanations of practice But full weight is given to the social technical and material bases of the activity and the argument is illustrated by freshly made photographs of items not often reproduced before Sources of information are discussed and extensively listed The book thus contributes on several levels as a brisk narrative of historical development as a springboard for further investigation as a delineation of modern typography Published first in 1992 Modern typography is now issued in a revised and updated second edition **BOOK JACKET**      **Library of Congress Catalogs** Library of Congress, 1980      Subject Catalog, 1979 Library of Congress, 1979      A Bibliography of the History of Printing in the Library of Congress, 1987      British Literary Bibliography, 1970-1979 Trevor Howard Howard-Hill, 1992 British Literary Bibliography 1970 1979 is a ten year supplement to the six volumes already published in the prestigious series Index to British Literary Bibliography and is fully indexed for consistency with earlier volumes The series provides a comprehensive record of the writings that describe and study the history of the printed book in Britain and works of bibliography and textual criticism from the earliest times The period covered by the present volume was bibliographically very active witnessing a great renewal of interest in the history of the book The volume has seven main sections General Bibliographies of and Guides to British Literature Bibliography and Textual Criticism General and Period Bibliography Regional Bibliography Book Production and Distribution Forms Genres and Subjects and Authors Complete information about each book or journal article is provided in standard form and in many instances objective annotations are given affording additional access to the items through a very detailed index      Subject Catalog Library of Congress, 1979
