**Five Fires** David Wyatt,1998 Using his background in cultural history and literature David Wyatt focuses this history of California on five events that swept through the state altering its physical and political landscape Five Fires provides a unique framework for understanding the recent developments in California and will prove an important contribution to the history of American culture Photos Puruṣa Matthew I. Robertson,2024 Puru a Personhood in Ancient India is a study of what ancient Indian traditions say about personhood It describes a way of thinking that suggests that persons are deeply confluent with the world and indistinguishable from their environments Dealing with classic works and addressing the fields of religion politics philosophy medicine and literature this book brings ancient India into a new light giving readers a novel perspective on what it means to be a person and what it means to be in the world **Homa Variations** Richard K.

Payne,Michael Witzel,2016 Throughout human history and across many religious cultures offerings are made into fire The essays collected in Homa Variations provide detailed studies of this practice known in the tantric world as the homa from its inception up to the present The Philosophy of the Upanishads Paul Deussen,2010-06-01 The Hindu scriptures the Upanishads are according to German scholar PAUL DEUSSEN 1845 1919 the culminating point of the Indian doctrine of the universe an achievement that had been reached even before the arrival of the Buddha In this work originally published in German in 1906 and translated into English two years later Deussen explores the place of the Upanishads in the literature of the Veda and explains the theology cosmology and psychology of that holy book A landmark for East West cross cultural scholarship The Philosophy of the Upanishads helped create the European understanding of the mind and heart of India a philosophical and cultural endeavor that consumed both academics and armchair truth seekers of the day Today it is still essential reading for anyone wishing to obtain a deeper knowledge of Indian spiritual wisdom *The Philosophy of the Upanishads* Paul Deussen,1906 *The Path* ,1894 A Dictionary in Sanscrit and English Designed for the Use of Private Students and of Indian Colleges and Schools by W. **Text and Authority in the Older Upaniṣads** Signe Cohen, 2008-06-30 The Upaniṣads have often been treated as a unified corpus of religious and philosophical texts separate from the older Vedic tradition It is well known that the Upaniṣads were initially composed and transmitted within specific schools of Vedic recitation or *śākhās* but the *śākhā* affiliation of each Upaniṣad has received very little attention in the scholarly literature The author offers a new interpretation of the older Upaniṣads in the light of the Vedic school affiliations of each text This book argues that issues of textual authority and in particular the authority of the various Vedic schools are central in the Upaniṣads and that the Upaniṣads can on one level be read as texts about text While analyzing the theme of textual authority in the Upaniṣads the author also outlines a theory of textual criticism as applied to orally transmitted texts that will be of use to textual scholars in other fields as well
