 When this book was written it was hard to decide on what the title should be I finally reduced my choice to two titles the
 second one being used as the sub title THE VATICAN CIPHERS If I had not been so sensitive to the economic and social
 consequences of the Kennedy and Lincoln assassinations this would have been the actual title because more than anything
 else this is about the early invention of our languages Some of the most important discoveries include the following Religious
 names and words such as Christ Thomas crucifixion and others were used as roots to invent many of our modern day words
 but they were originally written phonetically and then hidden away when dictionaries standardized our spelling of words A
 technique was discovered showing how rootwords and rootnames were used to create other words and ideas and then those
 ideas and words were used to create detail in short stories especially myths and religious fables of the New Testament Since
 this technique was not known to exist it fell on me to invent a name for it I named it the ROOTWORD TECHNIQUE Finally I
 discovered that the alphabet was pictorial or hieroglyphic The wordsmiths who created our vocabulary used the letters as
 pictures as well as symbols for sounds **Sherlock Holmes the Five Orange Pips Large Print** Arthur Conan Doyle,
 Sir,2013-12 When I glance over my notes and records of the Sherlock Holmes cases between the years 82 and 90 I am faced
 by so many which present strange and interesting features that it is no easy matter to know which to choose and which to
 leave Some however have already gained publicity through the papers and others have not offered a field for those peculiar
 qualities which my friend possessed in so high a degree and which it is the object of these papers to illustrate Some too have
 baffled his analytical skill and would be as narratives beginnings without an ending while others have been but partially
 cleared up and have their explanations founded rather upon conjecture and surmise than on that absolute logical proof which
 was so dear to him There is however one of these last which was so remarkable in its details and so startling in its results
 that I am tempted to give some account of it in spite of the fact that there are points in connection with it which never have
 been and probably never will be entirely cleared up The year 87 furnished us with a long series of cases of greater or less
 interest of which I retain the records Among my headings under this one twelve months I find an account of the adventure of
 the Paradol Chamber of the Amateur Mendicant Society who held a luxurious club in the lower vault of a furniture warehouse
 of the facts connected with the loss of the British barque Sophy Anderson of the singular adventures of the Grice Patersons in
 the island of Uffa and finally of the Camberwell poisoning case In the latter as may be remembered Sherlock Holmes was
 able by winding up the dead man s watch to prove that it had been wound up two hours before and that therefore the

deceased had gone to bed within that time a deduction which was of the greatest importance in clearing up the case All these I may sketch out at some future date but none of them present such singular features as the strange train of circumstances which I have now taken up my pen to describe It was in the latter days of September and the equinoctial gales had set in with exceptional violence All day the wind had screamed and the rain had beaten against the windows so that even here in the heart of great hand made London we were forced to raise our minds for the instant from the routine of life and to recognise the presence of those great elemental forces which shriek at mankind through the bars of his civilisation like untamed beasts in a cage As evening drew in the storm grew higher and louder and the wind cried and sobbed like a child in the chimney Sherlock Holmes sat moodily at one side of the fireplace cross indexing his records of crime while I at the other was deep in one of Clark Russell s fine sea stories until the howl of the gale from without seemed to blend with the text and the splash of the rain to lengthen out into the long swash of the sea waves My wife was on a visit to her mother s and for a few days I was a dweller once more in my old quarters at Baker Street

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
