Sigrun Skogly

Five Uneasy Pieces American Ethics In A Globalized World:

Five Uneasy Pieces Mark Gibney, 2004-08-27 Americans pride themselves on being an ethical people They go to church quote the Bible erect statues and discuss morality with abandon They also trust their government to do the right thing when it comes to delivering legal justice and conducting foreign policy Trouble is American foreign policy has yielded some pretty spectacular ethical lapses and as 9 11 starkly demonstrated the world is beginning to notice Here Mark Gibney lays out some of the most egregious insults the U S has visited upon international law economic justice and human rights in recent times He covers everything from multinational corporations the first Persian Gulf war and Guantanamo Bay to American refugee policy foreign aid and global environmental degradation Through all these examples he exposes the discrepancy between the guise of ethical policy motivation and the reality of situational international ethics or worse He shows us how we practice easy ethics in an uneasy world and how it is beginning to catch up with us Part I concludes with a gallop through the alphabet of countries where the U S has engaged in nefarious legal behavior and supported brutal dictatorships everywhere from Argentina to Zaire Part II offers a cautious coda of hope in exploring recent trends toward public political apology and forgiveness new U S policies toward AIDS in Africa and renewed civic commitment flowing out of the tragedy of 9 11 Only when the exercise of American ethics becomes as muscular as our use of military force will the United States become the ethical superpower it projects itself to be And only then will the concert of nations join us in the harmonization of global governance

Five Uneasy Pieces Mark Gibney, 2005 In Five Uneasy Pieces Mark Gibney offers an assessment of the role of the US in the wider world contrasting the policies that have been adopted with those that he argues would constitute a more ethically based relationship with other nations

U.S. Foreign Policy and the Politics of Apology Loram

Gerstbauer, 2016-10-14 Acts of contrition and transitional justice admission of wrong apology and reparations have become fashionable in the discourse of international affairs Using a case study approach that inspires student discussion of concrete examples this text addresses important questions about the politics of apology in relation to some of the most controversial cases of US foreign policy over the past fifty years Vietnam Nicaragua and the most recent war in Iraq Loram Gerstbauer offers an original transdisciplinary and accessible argument for the practical value of contrition forgiveness and reconciliation in international relations while examining why the United States has been a less than contrite nation and offering a prescription for how to change this state of affairs

The Ethics of Foreign Policy David B. MacDonald, Robert G. Patman, 2016-03-23 This ground breaking volume considers the ethical aspects of foreign policy change through five interrelated dimensions conceptual security economic normative and diplomatic Defining ethics and what an ethical foreign policy should be is highly contested The book includes many very different viewpoints to reflect the strong divergence of opinion on such issues as humanitarian intervention free trade the doctrine of preemption political corruption and human rights The thematic approach provides this volume with a clear organizational structure giving readers a balanced overview

of a number of important conceptual and practical issues central to the ethical analysis of states conduct and foreign policy making An impressive group of international scholars and practitioners including a New Zealand Foreign Minister a US National Security Advisor and an ICJ Justice makes this volume ideally suited to courses on international relations security studies ethics and human rights philosophy media studies and international law

Can Globalization Promote Human Rights? Rhoda E. Howard-Hassmann, 2010-01-01 An examination of globalization s effects on human rights world poverty and inequality Describes international human rights law and the international social movement for reform of globalization Provided by publisher

Reparations to Africa Rhoda E. Howard-Hassmann, 2018-04-13 What is the just measure of Western obligations to Africa As Africans and their supporters mark the 200th anniversary of the abolition of the slave trade in the United States and Great Britain the question becomes increasingly salient Calls for reparations for the evils of slavery as well as for past colonial and current economic and political abuses can be heard across Africa and the African diaspora Human rights scholar Rhoda E Howard Hassmann examines these calls for redress in *Reparations to Africa* Her study analyzes the reparations movement from the perspectives of law philosophy political science and sociology While acknowledging the brutal background of the slave trade and colonialism and the mistreatment of the peoples of Africa Howard Hassmann finds that the complexity of this history along with facts of the contemporary situation weakens the case for financial compensation although she does recommend acknowledgment of and apologies for some actions The book not only provides a bold reckoning of the root causes both internal and external of African underdevelopment and unrest but also suggests alternative means for restorative justice and examines the role that institutions such as the International Criminal Court can play By including the voices of 74 African academics diplomats and activists interviewed by Howard Hassmann and Anthony P Lombardo *Reparations to Africa* makes a valuable contribution to the reparations debate In an emotionally and politically charged postcolonial environment this book serves as a judicious guide to the search for economic justice for Africans today and into the future

Spaces of Law in American Foreign Relations Daniel S. Margolies, 2011-06-01 In the late nineteenth century the United States oversaw a great increase in extraterritorial claims boundary disputes extradition controversies and transborder abduction and interdiction In this sweeping history of the underpinnings of American empire Daniel S Margolies offers a new frame of analysis for historians to understand how novel assertions of legal spatiality and extraterritoriality were deployed in U S foreign relations during an era of increased national ambitions and global connectedness Whether it was in the Mexican borderlands or in other hot spots around the globe Margolies shows that American policy responded to disputes over jurisdiction by defining the space of law on the basis of a strident unilateralism Especially significant and contested were extradition regimes and the exceptions carved within them Extradition of fugitives reflected critical questions of sovereignty and the role of the state in foreign affair during the run up to overseas empire in 1898 Using extradition as a critical lens *Spaces of Law in American Foreign Relations* examines the rich embeddedness of questions of sovereignty

territoriality legal spatiality and citizenship and shows that U S hegemonic power was constructed in significant part in the spaces of law not simply through war or trade

Beyond National Borders Sigrun Skogly, 2006 Within and outside the legal and academic professions it is now increasingly recognised that the human rights consequences of states actions are not limited to the domestic sphere but quite often transcend national borders This is a challenge to the human rights community which up to the present time has focused almost exclusively on human rights violations and protections solely within a national setting The term extraterritorial effect application obligation in international law refers to acts that are taken by one actor state that have some kind of effect within another country s territory with or without this second country s implicit or explicit agreement Extraterritoriality within international human rights law then concerns actions or omissions by one state that have an effect on the human rights of individuals in another state with or without this other state s agreement This effect may be positive or negative in that such actions or omissions by foreign states may contribute positively to the enjoyment of human rights or alternatively they may result in a deteriorated human rights situation and even human rights violations This book gives for the first time a comprehensive analysis of extraterritorial obligations in international human rights law by placing the discussion in a larger international law context interpreting obligations in the various sources of international human rights law and discussing the way in which extraterritoriality has been approached by international courts and human rights implementation bodies in the United Nations and regional systems

Imperialism and Human Rights Bonny Ibhawoh, 2008-01-03 Looks at the language of rights used by diverse interest groups in British colonized Nigeria

Encyclopedia of Human Rights David P Forsythe, 2009-08-27 Winner of the 2010 Dartmouth Medal this major five volume encyclopedia offers comprehensive coverage of all aspects of human rights theory practice law and history The set will provide situation profiles and full coverage of the development of the movement historical cases of abuse the key figures major organizations and a range of other issues in economics government religion and journalism that touch on human rights theory and practice In addition to providing original analytical articles covering standard subjects such as the right to health and health care Amnesty International the Balkan wars and former President of Ireland Mary Robinson it offers innovative coverage of such subjects as the Internet intellectual property rights the American civil rights movement globalization and Brazil in historical context Focusing primarily on developments since 1945 it offers an unrivaled reference source for students and researchers even human rights experts are likely to find much original material and keen insights in many of the entries

KEY SUBJECT AREAS INCLUDE ORGANIZATIONS AND INSTITUTIONS American Civil Liberties Union World Health Organization UNICEF Carter Center LEADING FIGURES Adolf Hitler Steve Biko Elie Wiesel Simone de Beauvoir Joseph Stalin Eleanor Roosevelt Pol Pot Shirin Ebadi Kim Jong Il HUMAN RIGHTS EVENTS AND CRISES Darfur Irish Famine Soviet Gulag Central America in the 1980s Colonialism Belgian Congo AIDS HUMAN RIGHTS NORMS Ethnic Cleansing Women s Rights Religious Freedom Torture International Law Disability Rights

American Book Publishing

Record ,2003 New York University Journal of International Law & Politics New York University. International Law Society,2006 **Contemporary Cases in U.S. Foreign Policy** Ralph G. Carter,2005 A textbook for students of American foreign policy with an accompanying website to help lecturers enhance classroom lessons Crafting foreign policy in America is a pluralistic process involving Members of Congress interest groups NGOs the media and bureaucratic actors which all compete with the president to influence the way U S foreign policy is made and implemented Contemporary Cases in U S Foreign Policy captures this complexity by showcasing 15 recent real world cases Whether grappling with the policy making dynamics of fighting the war on terror dealing with North Korea s nuclear weapons programme or choosing to participate in multilateral initiatives like the International Criminal Court or Kyoto Protocol on Climate Change students must question motives consider alternatives predict outcomes and communicate choices particular policy choices were made the authors follow a consistent format across chapters providing critical thinking questions a chronology and an annotated list of key characters for each case Instructors can log on to the accompanying website for a wealth of resources including case summaries and analysis tips for classroom use discussion and test questions and suggestions for further resources The Publishers Weekly ,2004 Choice ,2008 *A Kaleidoscope of Pieces* Alan Cadwallader,2017-12-30 There has been considerable debate in recent years in the Anglican Church of Australia about issues of sexual diversity To this end two collections of essays have been published The first Five Uneasy Pieces addressed the texts that have frequently been used to argue against the legitimacy of homosexual expression within Christian life and leadership The book demonstrated clearly that the texts that have been interpreted to slam gay and lesbian people are in fact misused with little or no regard either for ancient context or for contemporary hermeneutics However as all biblical liberationist projects have demonstrated it is not enough to invalidate oppressive uses of selected texts The obligation is to establish Scripture s hospitable inclusion of those who have been subjected to such oppression This is more than a generalized divine invitation to the world it requires a retrieval of those texts that actively embrace gays and lesbians Hence a second collection followed Pieces of Ease and Grace This collection broke significant new ground in the way the Bible can contribute to contemporary debates The collection utilized a range of methodologies and unlocked authentic significant and original readings that restored the Bible to a pastoral and transformative support for those whose self identification was not shaped by heterosexual normativity However the project has raised significant issues for wider theological analysis as well as calling for general theological reflection that can address historical systematic and ecclesial concerns for supportive inclusive recognition of those who identify as and with gay and lesbian people of faith A third volume is therefore prepared focusing theological analysis for the benefit of reflection in the Anglican Church and beyond Given recent developments in Ireland and the potential repercussions in Australian politics it is clear that the Church needs to harness its thinking and its actions in relation to its place within society **Forthcoming Books** Rose Army,2004 The British National Bibliography Arthur James Wells,2006

International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences ,2005 **The Ethics of Global Poverty** Scott Wisor,2016-12-08 The Ethics of Global Poverty offers a thorough introduction to the ethical issues surrounding global poverty It addresses important questions such as What is poverty and how is it measured What are the causes of poverty Do wealthy individuals have a moral duty to reduce global poverty Should aid go to those who are most in need or to those who are easiest to help Is it morally wrong to buy from sweatshops Is it morally good to provide micro finance Featuring case studies throughout this textbook is essential reading for students studying global ethics or global poverty who want an understanding of the moral issues that arise from vast inequalities of wealth and power in a highly interconnected world
