

The background of the slide features a central blue globe. Surrounding the globe are the flags of the Five Eyes intelligence alliance: the United States flag at the top, the United Kingdom flag on the left, the Canadian flag on the right, and the Australian flag at the bottom. The entire scene is set against a dark blue background filled with various white icons related to technology and security, such as padlocks, Wi-Fi symbols, document icons, and a location pin. A semi-transparent red banner is positioned across the middle of the globe.

Naked Seeing Christopher Hatchell,2014 Buddhism is in many ways a visual tradition with its well known practices of visualization its visual arts its epistemological writings that discuss the act of seeing and its literature filled with images and metaphors of light Some Buddhist traditions are also visionary advocating practices by which meditators seek visions that arise before their eyes *Naked Seeing* investigates such practices in the context of two major esoteric traditions the Wheel of Time Kalacakra and the Great Perfection Dzogchen Both of these experimented with sensory deprivation and developed yogas involving long periods of dwelling in dark rooms or gazing at the open sky These produced unusual experiences of seeing which were used to pursue some of the classic Buddhist questions about appearances emptiness and the nature of reality Along the way these practices gave rise to provocative ideas and suggested that rather than being apprehended through internal insight religious truths might also be seen in the exterior world realized through the gateway of the eyes

Christopher Hatchell presents the intellectual and literary histories of these practices and also explores the meditative techniques and physiology that underlie their distinctive visionary experiences The book also offers for the first time complete English translations of three major Tibetan texts on visionary practice a Kalacakra treatise by Yumo Mikyo Dorj The Lamp Illuminating Emptiness a Nyingma Great Perfection work called The Tantra of the Blazing Lamps and a B n Great Perfection work called Advice on the Six Lamps along with a detailed commentary on this by Drugom Gyalwa Yungdrung

Nung Wong,2025-07-24 From September 11 to the calamitous withdrawal of United States troops from Afghanistan Western intelligence has failed to negotiate the largest military and humanitarian crises across the world This book proposes to decolonize global intelligence from the peripheries of the Global South and put forward a new intelligence practice of inclusive statecraft It shows how dominant Western intelligence systems have failed to protect the very ideas they promised to uphold and the discrepancy between the West s Responsibility to Protect R2P liberalist doctrine and the realist on the ground complex reality as observed by the Failure to Protect F2P scholarships Drawing theoretical insights and empirical both historical and contemporary materials from a wide array of case studies of Western and non Western intelligence settings and practices as well as their interactions it argues that the next generation of global security and intelligence practitioners will necessitate genuine interracial non anthropocentric and cross cultural inclusivity especially the capability to take the non Western intelligence cultures and their realist strategic thoughts seriously This book will not just add new

knowledge to the larger field of security and intelligence studies but will also pioneer the relatively underdeveloped fields of comparative intelligence cultures and interstellar intelligence cultural studies It will be indispensable for policymakers bureaucrats and government officials

Global Intelligence Oversight Zachary K. Goldman, Samuel James Rascoff, 2016

Global Intelligence Oversight is a comparative investigation of how democratic countries can govern their intelligence services so that they are effective but operate within frameworks that are acceptable to their people in an interconnected world The book demonstrates how the institutions that oversee intelligence agencies participate in the protection of national security while safeguarding civil liberties balancing among competing national interests and building public trust in inherently secret activities It does so by analyzing the role of courts and independent oversight bodies as they operate in countries with robust constitutional frameworks and powerful intelligence services
