Woodforde-Finden,1906 *The Ballad Collectors of North America* Scott B. Spencer,2012 Much has been written about the songs gathered in North America in the first half of the 20th century However there is scant information on those individuals responsible for gathering these songs The Ballad Collectors of North America How Gathering Folksongs Transformed Academic Thought and American Identity fills this gap documenting the efforts of those who transcribed and recorded North American folk songs Both biographical and topical this book chronicles not only the most influential of these song catchers but also examines the main schools of thought on the collection process the leading proponents of those schools and the projects that they shaped Contributors also consider the role of technology especially the phonograph in the collection efforts Chapters organized by region cover such areas as Appalachia the West and Canada while others devoted to specialized topics from the cowboy tune and occupational song to the commercialization of folk music through song collections and anthologies

Ballad Collectors investigates the larger role of the ballad in the development of American identity from the national appreciation of cowboy songs in popular culture to the use of Appalachian song forms in radio broadcasts to the role of dustbowl ballads in the urban folk revival of the 1950s and 1960s Finally this collection assesses the changing role of songs and song texts in the academic fields of folklore anthropology musicology and ethnomusicology Scholars and students of American cultural and social history as well as fans of North American folk and popular music will find The Ballad Collectors of North America a fascinating story of how the American folk tradition gained greater visibility fueling the revolutions that would follow in the writing and performance of American music

American Folk Songs Norman Cohen, 2008-09-30 This state by state collection of folksongs describes the history society culture and events characteristic of all fifty states Unlike all other state folksong collections this one does not focus on songs collected in the particular states but rather on songs concerning the life and times of the people of that state The topics range from the major historical events such as the Boston Tea Party the attack on Fort Sumter and the California Gold Rush to regionally important events such as disasters and murders labor problems occupational songs ethnic conflicts Some of the songs will be widely recognized such as Casey Jones Marching Through Georgia or Sweet Betsy from Pike Others less familiar have not been reprinted since their original publication but deserve to be studied because of what they tell about the people of these United States their loves labors and losses and their responses to events The collection is organized by regions starting with New England and ending with the states bordering the Pacific Ocean and by states within each region For each state there are from four to fifteen songs presented with an average of 10 songs per state For each song a full text is reprinted followed by discussion of the song in its historical context References to available recordings and other versions are given Folksongs such as those discussed here are an important tool for historians and cultural historians because they sample experiences of the past at a different level from that of contemporary newspaper accounts and academic histories These songs in a sense are history writ small Includes *Away Down East* *The Old Granite State* *Connecticut* *The Virginian* *Maid s Lament* *Carry Me Back to Old Virginny* *I m Going Back to North Carolina* *Shut up in Cold Creek Mine* *Ain t God Good to Iowa* *Dakota Land* *Dear Prairie Home* *Cheyenne Boys* *I m off for California* and others **Dictionary of American**

Bly, 2023-10-01 The book provides a historical survey of the wind band's music and denotes how historical and cultural developments have influenced it over the course of time. Although the modern wind band developed first in the 19th century, it has its roots in the wind music of ancient times and music survives that has been composed since the Middle Ages. Therefore, this book covers the music from that time to the present, including the dance music of the Renaissance, the Harmoniemusik of the Classical Period, and the nationalistic music of the Romantic Period, as well as the major wind band repertoire developed after 1900. *Notes and Sources for Folk Songs of the Catskills* Norman Cazden, Herbert Haufrecht, Norman Studer, 1983-06-30 *Notes and Sources to Folk Songs of the Catskills* also published by the State University of New York Press is the companion volume to *Folk Songs of the Catskills*.
