**America** Justin Winsor, 1887      **The Civil War and Reconstruction in Indian Territory** Bradley R. Clampitt, 2015-12-01

In Indian Territory the Civil War is a story best told through shades of gray rather than black and white or heroes and villains. Since neutrality appeared virtually impossible the vast majority of territory residents chose a side doing so for myriad reasons and not necessarily out of affection for either the Union or the Confederacy. Indigenous residents found themselves fighting to protect their unusual dual status as communities distinct from the American citizenry yet legal wards of the federal government. The Civil War and Reconstruction in Indian Territory is a nuanced and authoritative examination of the layers of conflicts both on and off the Civil War battlefield. It examines the military front and the home front, the experience of the Five Nations and those of the agency tribes in the western portion of the territory, the severe conflicts between Native Americans and the federal government and between Indian nations and their former slaves during and beyond the Reconstruction years, and the concept of memory as viewed through the lenses of Native American oral traditions and the modern evolution of public history. These carefully crafted essays by leading scholars such as Amanda Cobb Greetham, Clarissa Confer, Richard B. McCaslin, Linda W. Reese, and F. Todd Smith will help teachers and students better understand the Civil War, Native American history, and Oklahoma history. Back cover

[Native American Animal Stories](#) Joseph Bruchac III, 2020-10-16. The Papago Indians of the American Southwest say butterflies were created to gladden the hearts of children and chase away thoughts of aging and death. How the Butterflies Came to Be is one of twenty-four Native American tales included in *Native American Animal Stories*. The stories coming from Mohawk, Hopi, Yaqui, Haida, and other cultures demonstrate the power of animals in Native American traditions. Parents, teachers, and children will delight in lovingly told stories about our relations to the animals. The stories come to life through magical illustrations by Mohawk artists John Kahionhes Fadden and David Fadden. The stories in this book present some of the basic perspectives that Native North American parents, aunts, and uncles use to teach the young. They are phrased in terms that modern youngsters can understand and appreciate. They enable us to understand that while birds and animals appear to be similar in thought processes to humans, that is simply the way we represent them in our stories. But other creatures do have thought processes, emotions, personal relationships. We must carefully accord these other creatures the respect that they deserve and the right to live.

Legends: the second records periodic efforts to revive the original founding impulses. Through the biographies of important individuals, the role of national holidays, and determining events, the book allows the American soul to reveal itself. When these phenomena appear in their fullest light, the American dream appears as a whole that is more than the sum of its parts: the stories and legends. Moreover, it is a whole that is universal. The book speaks with relevance and urgency to all who want to renew hope in the future of our nation and of the world. Luigi Morelli is
