Tombstone Yang Jisheng, 2012-10-30 A veteran journalist presents an epic account of the worst famine in history a landmark in the Chinese people's own efforts to confront their history Ian Johnson The New York Review of Books An estimated thirty six million Chinese men women and children starved to death during China's Great Leap Forward in the late 1950s and early 60s One of the greatest tragedies of the twentieth century the famine is poorly understood and in China is still euphemistically referred to as the three years of natural disaster As a journalist with privileged access to official and unofficial sources Yang Jisheng spent twenty years piecing together the events that led to mass nationwide starvation including the death of his own father Finding no natural causes Yang attributes responsibility for the deaths to China s totalitarian system and the refusal of officials at every level to value human life over ideology and self interest Tombstone is a testament to inhumanity and occasional heroism that pits collective memory against the historical amnesia imposed by those in power Stunning in scale and arresting in its detailed account of the staggering human cost of this tragedy Tombstone is written both as a memorial to the lives lost an enduring tombstone in memory of the dead and in hopeful anticipation of the final demise of the totalitarian system Five Wind Partitas Antonio Rosetti, 1989-01-01 **Treasury of Precious** Qualities: Book Two Longchen Yeshe Dorje, Kangyur Rinpoche, Jigme Lingpa, 2020-08-11 This book is a translation of the second part of a commentary on the Treasury of Precious Qualities the most celebrated work of Jigme Lingpa 1730 1798 one of the most important figures in the Nyingma lineage In a slender volume of elegant verse this root text new in this revised edition presents the entire Buddhist path according to the Nyingma school Because it is so concise and makes use of elaborate poetic language the commentary is indispensable Soundings in Tibetan Medicine International Association for Tibetan Studies. Tibbetts, 2019-11-25 This first book length critical examination of the life and work of Marjorie Bowen 1885 1952 reveals a major English writer whose prodigious output included stories of history romance and the supernatural As Pulitzer Prize winning critic Michael Dirda writes in his Foreword Bowen may be the finest British woman writer of the uncanny of the last century a view that echoes the high regard of cultural historian Edward Wagenknecht who called her a literary phenomenon one whose best work places her alongside such contemporaries as Edith Wharton and Daphne du Maurier Publicly acclaimed known only by a series of pseudonyms including Marjorie Bowen but privately inscrutable she was and is a mysterious and complex character Drawing for the first time upon archival resources and the cooperation of the Bowen Estate this book reveals a woman who saw herself as a rationalist and serious historian but also as a mystic and dark enchantress of dread Above all through a lifetime of domestic storms and creative ecstasy Bowen worked tirelessly as both a professional writer and a consummate artist always seeking as she once confessed to find beauty in dark places The People's Health Xun Zhou, 2020-08-20 In 1949 the Communist Party of China pledged that its approach to health care would differ markedly from that of the former Nationalist government and the imperialist West For the next thirty years under Mao s leadership the People's Republic of China made improving the health of the entire population a central pillar of its policy International health stakeholders came to view it as a statistical outlier in its ability to achieve better health outcomes with limited resources The People's Health is the first systematic study of health care and medicine in Maoist China Drawing on hundreds of files from rarely seen party archives and oral testimonies from experts local cadres and villagers across China Zhou Xun shifts her historian s gaze away from official statistics towards the records of local institutions and personal memories that reflect and give voice to lived experiences Through the everyday interactions of policy makers national and local administration and communities Zhou illustrates the dynamic relationship between politics and health and between individual lives and the political system Presenting case studies of the two internationally acclaimed public health initiatives in the PRC the anti schistosomiasis campaign and the Barefoot Doctor program this book offers the first thorough politically

neutral analysis of their background execution and national and international repercussions Opening a unique window into the lives and health care of individuals living under communism The People's Health examines the links between local interest cultural sensibilities resources and abilities exploring the often unforeseeable consequences of political planning and social engineering United States Postal Service's Regulations Regarding Commercial Mail Receiving Agencies (CMRAs) United States, Congress, House, Committee on Small Business, Subcommittee on Regulatory Reform and Paperwork The Peking Temple of the Eastern Peak Anne Swann Goodrich, 2024-12-11 The Tung vUeh Miao in Peking is a veritable pantheon housing hundreds of deities with scores of attendants presided over by the Great God of the Eastern Peak Mrs Goodrich in her delightful narrative relates the stories of these deities how they came to be deified how they secured the faith and trust of thousands of devotees and how they managed to accommodate themselves to each other without interfering with the rights and responsibilities of the neighboring deities. Here is the story of how a faithful people common fold gradually built up a religious syncretistic system happily free from any shackles of logic and historical accuracy Yet it worked so well that the Chinese flocked to this temple at regular intervals If there is a popular demand a common need a private hope or anxiety there must be a deity who answers to it If not people will create such a deity and show that its worship is not useless and therefore justified Anne S Goodrich lived in China for seven years spending most of her time in Peking but making trips that took her as far north as Jehol and as far south as Changsha and Canton In 1923 she married L Carrington Goodrich With her husband she has traveled extensively in Asia Janet R Ten Broeck made detailed studies of the Tung yUeh Miao part of which she has published together with Dr Yiu Tung in Toung Pao XL 1950 1951 She lived in Peking with her husband who for seven years 1920 1927 held a professorship at the Peking Union Medical College Book of Destiny Rick Holmer, 2005-09 The Aztec Book of Destiny summarizes traditional Mesoamerican beliefs about the spiritual nature of time and its influence on one s personality and fate The ancient Aztec Toltec and Maya believed that the day of birth as defined in their sacred calendar affects destiny and this philosophy has guided their daily lives for more than 3000 years This book condenses the scattered and disparate literature about these beliefs into a fun and informative narrative but it goes far beyond what academics and popular authors have published to date The author presents a unique perspective shaped by the wisdom of a traditional calendar keeper he met in Mexico in 1973 The book s message is that the calendar is not simply an ancient and forgotten curiosity it is as relevant today as in ancient times The majority of the book projects the timeless Mesoamerican philosophy into contemporary Western society encouraging introspection and self Flying Training United States.
