Flaubert The Problem Of Aesthetic Discontinuity:

Flaubert, the Problem of Aesthetic Discontinuity Marie J. Diamond, 1975 *Ascetic Modernism in the Work of T S Eliot and Gustave Flaubert* Henry Michael Gott, 2015-10-06 Gott examines Eliot's *The Waste Land* 1922 in conjunction with Gustave Flaubert's *La Tentation de Saint Antoine* 1874 He provides a highly original reading of both texts and argues that a stylistic affinity exists between the two works

A Gustave Flaubert Encyclopedia Laurence M. Porter, 2001-03-30 Gustave Flaubert is probably the most famous novelist of nineteenth century France and his best known work *Madame Bovary* is read in numerous comparative literature and French courses His fiction set the standard to which other authors turned to learn their craft and his cult of art and his unrelenting search for stylistic perfection inspired many later writers such as Maupassant Proust Conrad Faulkner and Joyce His denunciation of materialistic corrupt society his fascination with altered states of consciousness his oscillation between metaphysical longings and a radical nihilism and his deep seated mistrust of the adequacy of words themselves anticipate the works of contemporary authors This reference is a convenient guide to his life and writings Included in this volume are several hundred alphabetically arranged entries on Flaubert's individual works and major characters historical persons and events that shaped his life the themes that run throughout his writings the critical approaches employed by scholars studying his works and related topics of interest Each entry is written by an expert contributor and most close with a brief bibliography All of his major works are treated at length and the volume mentions nearly every unpublished project of his that has a title The book concludes with a selected general bibliography of major studies

The Cambridge Companion to Flaubert Timothy Unwin, 2004-11-18 This volume brings together a series of essays by acknowledged experts on Flaubert It offers a coherent overview of the writer's work and critical legacy and provides insights into the very latest scholarly thinking While a central place is given to Flaubert's most widely read texts attention is also paid to key areas of the corpus that have tended to be overlooked Close textual analyses are accompanied by discussion of broader theoretical issues and by a consideration of Flaubert's place in the wider traditions that he both inherited and influenced These essays provide not only a robust critical framework for readers of Flaubert but also a fuller understanding of why he continues to exert such a powerful influence on literature and literary studies today A concluding essay by the prize winning author Mario Vargas Llosa examines Flaubert's legacy from the point of view of the modern novelist

Flaubert and Kafka Charles Bernheimer, 1982-01-01 Although their styles appear remarkably different Flaubert and Kafka share a common identification with the writing process itself *I am a human pen* wrote Flaubert *I am nothing but literature* declared Kafka This stimulating book is the first to explore the link between these writers Introducing his conception of psychopoetics Charles Bernheimer brings new clarity to many controversial issues in psychoanalysis rhetoric and critical theory In chapters on Flaubert and Kafka he probes the desires and fears motivating each writer's search for a fully satisfying literary style His interpretation of the strategies the authors adopt to harness the negativity of writing reveals

the creative function of such psychological phenomena as narcissism fetishism and sadomasochism The major works Bernheimer argues dramatize the conflict between the structures of Eros and Thanatos metonymy and metaphor through which they are constituted From this illuminating perspective he traces the genesis of each writer's mature style analyzes two early works *La Tentation de saint Antoine* and *The Judgment* and examines two late masterpieces *Bouvard et Pécuchet* and *The Castle* applying to the latter Walter Benjamin's description of the allegorical mode This highly original work of theoretical criticism will interest not only readers of Flaubert and Kafka but all students of literary theory and the creative process

Flaubert Writing Michal Peled Ginsburg, 1986 The author's starting point for this study was the conviction that Flaubert's difficulty in sustaining a narrative so evident in his early works was not entirely overcome even in the works of his maturity Flaubert seems to have a problem in generating his text and keeping it going What is the difficulty in generating a text How is it circumvented And most important how does this problem and the strategies used to overcome it shape the narrative

Flaubert: Transportation, Progression, Progress (Le Romantisme Et Après En France) Kate Rees, 2010 Romanticism and after in France is a series designed to publish research monographs or longer works of high quality whether by established scholars or recent graduates dealing with French literature in the period from pre-Romanticism to the turn of the twentieth century

The Poetry of Raymond Carver Sandra Lee Kleppe, 2016-02-24 Best known as one of the great short story writers of the twentieth century Raymond Carver also published several volumes of poetry and considered himself as much a poet as a fiction writer Sandra Lee Kleppe combines comparative analysis with an in-depth examination of Carver's poems making a case for the quality of Carver's poetic output and showing the central role Carver's pursuit of poetry played in his career as a writer Carver constructed his own organic literary system of autopoetics a concept connected to a paradigm shift in our understanding of the interrelatedness of biological and cultural systems This idea is seen as informing Carver's entire production and a distinguishing feature of Kleppe's book is its contextualization of Carver's poetry within the complex literary and scientific systems that influenced his development as a writer Kleppe addresses the common themes and intertextual links between Carver's poetry and short story careers situates Carver's poetry within the love poem tradition explores the connections between neurology and poetic memories and examines Carver's use of the elegy genre within the context of his terminal illness Tellingly Carver's poetry which has aroused slight interest among literary scholars is frequently taught to medical students This testimony to the interdisciplinary implications of Carver's work suggests the appropriateness of Kleppe's culminating discussion of Carver's work as a bridge between the fields of literature and medicine

Porter, 1986 **The Temptation of Saint Redon** Stephen F. Eisenman, Odilon Redon, 1992-12-15 Bristling with demons grotesques and bizarre apparitions the graphic work of Odilon Redon has often seemed to be the product of a mind unhinged In *The Temptation of Saint Redon* Stephen F Eisenman argues instead that these works are Redon's conscious and considered response to changing social realities an attempt to find refuge from the forces of modernization in an imaginative world of the macabre and the fantastic Eisenman's careful attention to the circumstances of Redon's life 1840

1916 allows him to bring into focus the interconnections between Redon's complex style and the culture and society of his time. Born and raised on a sixteenth century estate near Bordeaux, Redon was immersed as a child in traditional rural culture. I spent my entire childhood in the M doc completely free among peasant children, he recalled in his memoirs. I heard them tell supernatural tales: witches still exist there. Indeed, local tales and legends of witches, ghosts, one-eyed monsters, evil eyes, and wood fairies figure prominently in Redon's graphic works, which he called his noirs or blacks. After formal training at Bordeaux and Paris in the 1850s and 1860s, Redon began to chart his independent artistic course. Eisenman shows how rejecting both naturalism and classicism, Redon, a prototypical Symbolist, found in grotesque and epic genres the expression of organic communities and precapitalist societies. He places Redon's desire for this imagined world of superstitious simplicity, a desire manifest in his entire mature artistic practice, in the context of contemporary avant-garde movements. Redon's great noirs of the 1870s and 1880s, dreamlike configurations of seemingly irreconcilable elements from portraits, still lifes, and landscapes, show an increasingly subtle control of connotation and a complex indebtedness to caricature, allegory, and puns. Many of the noirs also visually interpret works by like-minded authors, including Baudelaire, Flaubert, Poe, and Mallarmé, one of Redon's close friends. Eisenman's analysis of the noirs underscores Redon's interest in creating an imaginative, even fantastic art that could act directly on the human spirit. In addition to deepening our understanding of Redon and his art, *The Temptation of Saint Redon* exposes a link between place, politics, personal history, and the artistic imagination.

Madame Bovary Gustave Flaubert, 2009-09-01 In his Introduction, MacKenzie discusses Flaubert's life, the writing of *Madame Bovary*, the world in which the novel is set, and its publication and reception. Footnotes, a bibliography, and a chronology are also provided.

The Orient of Style Beryl Schlossman, 1991 In this study of modernist aesthetics, Beryl Schlossman reveals how, for such writers as Marcel Proust, Gustave Flaubert, and Charles Baudelaire, the Orient came to symbolize the highest aspirations of literary representation. She demonstrates that through allegory, modernism became a style itself, a style that married the ancient and the modern and that emerged as both a cause and an effect, both an ideal construct and an textual materiality, all symbolized by the Orient, land of style, place of plurality, and site of the coexistence of holy lands. Toward the end of *Remembrance of Things Past*, the narrator describes the act of creating a work of art as a conversion of sensation into a spiritual equivalent. By means of such allegories of conversion, Schlossman shows the modernist artist disappeared within the work of art and left behind the trace of his sublime vocation, a vocation in which he was transformed. In Schlossman's words, into a kind of priest kneeling at the altar of beauty before the masked divinity of representation. The author shows how allegory, the representation of the symbolic as something real, was adapted by modernist writers to reflect subjectivity while masking an authorial origin. She reveals how modernist allegory arose as Walter Benjamin suggests, at the crossroads of history, sociology, economics, urban architecture, and art, providing a kind of map of capitalism and was produced through the eyes of a melancholic gazing at a monument of absence. Taking its starting point from women's contributions to the French revolution this important anthology goes far beyond any particular historical European or American context and expands its scope in space and time to an all inclusive global theme namely the contributions of radical women towards an ever changing world and its revolutionary transformations everywhere The superbly edited essays by diverse contributors from various continents and disciplines explore a wide platform of women's revolutionary involvements and elucidate the broad range of contributions by women scholars scientists and activists to movements of social transformation as well as to a reexamination of established methods of cultural analysis from enlightened liberalism to Marxism The contributions of women scholars and activists from Africa Asia and Latin America are particularly significant in that they transcend and expand European North American feminism as relevant primarily to its own socio cultural context and focus on women acting in terms of their own non Western traditions and cultures that is on non Western models based on indigenous strategies of social transformation This rich anthology shuns any postulation of a single global model for revolution Yet despite the emergence of a problematic relationship between Western or Western educated theorists and the causes of the oppressed women's diverse social cultural and historical experiences and strategies are united in this edition as in their common causes as emphasized by the following statement in the introduction the female body has become a privileged site for social analysis in the context of international capitalism as well as in the critique of traditional socialism

Sabine Jell Bahlsen Ogbuide Films *Women and Revolution* covers an enormous socio historical space four continents Europe Africa Asia and Latin America and quite a few countries within them This huge field of human experience is looked at from the focal point which runs explicitly and implicitly through all nineteen chapters the active if not revolutionary role women have played individually and collectively in various determining social situations a role regularly suppressed by the coercive power of institutionalized domination The impetus for this endeavor was the commemoration of the bicentennial of the French Revolution an occasion to take an in depth look at its less obvious agendas through a focus on the activity of women and on Olympe de Gouges in particular But as Olympe de Gouges became acquainted with Mr Guillotine the considerable role of women became suppressed not only actually but as a kind of *damnatio memoriae* which the old Romans had already invented As this work shows there have been multiple forms and contents through which women have taken history into their own hands and have participated in emancipatory struggles throughout the world They are at their best in their use of the resources of local village traditions of dense social contexts of mutual aid and in turning such grassroots resources into radical democratic struggles for the future A fascinating and timely book

Wolf Dieter Narr Freie Universit t Berlin The vital role played by women in struggles for social transformation has scarcely been appreciated and with the sense of defeat that hangs over the revolutionary project stands to be further forgotten That is why the publication of *Women and Revolution* is

both welcome and necessary on intellectual and scholarly grounds but also because these are stories which have to be told if we are to resume the march toward a better world Joel Kovel Bard College **Inner Workings of the Novel A.**

Pasco,2010-11-14 Pasco analyzes innovative nineteenth and twentieth century French works to suggest a definition of the novel in all of its variations and difficulties a relatively long artistically designed prose fiction He permits literary aficionados to reevaluate novels through comparisons with other genres and both recent and former traditions **Books in Print** ,1991
