Evenden, 2004-05-03 Fish versus Power is an environmental history of the Fraser River British Columbia and the attempts to dam it for power and to defend it for salmon Amid contemporary debates over large dam development and declines in fisheries this book offers a case study of a river basin where development decisions did not ultimately dam the river but rather conserved its salmon Although the case is local its implications are global as Evenden explores the transnational forces that shaped the river the changing knowledge and practices of science and the role of environmental change in shaping environmental debate The Fraser is the world's most productive salmon river it is also a large river with enormous waterpower potential Very few rivers in the developed

in 1870 due to war political turmoil and limited opportunities and sought out new lives in the Cariboo region of British Columbia There are few stories of entrepreneurial business class women in nineteenth century BC They didn't keep diaries or save letters like the ruling class women often did and they were usually overlooked in newspaper reports Yet many came into British Columbia in the early years of the gold rush and helped build and sustain the developing communities This book tells the stories of three sisters Laura Christine and Caroline Lindhard who arrived in BC from Denmark in the 1870s Coming of age in Europe the Lindhard sisters had aspirations that were restricted by societal norms about what women could and should be and do This is a story of how each of the sisters made a life for themselves marrying and having children becoming single parents at an early age marrying again or not working together providing for their children and making choices that set them on different paths While their lives diverged at various points their commitments to each other and the next generation remained strong The sisters stories illustrate the importance of family and community relationships as support structures for women entrepreneurs who combine family responsibilities with earning a living While they were not heroic in the traditional patriarchal sense of the word the Lindhard sisters were powerful influential members of their families and their community and their lives reveal much about the complex social fabric of early British Columbia and the unsung contributions of women
