Song for the Blue Ocean Carl Safina, 2010-04-01 Part odyssey part pilgrimage this epic personal narrative follows the author's exploration of coasts islands reefs and the sea's abyssal depths Scientist and fisherman Carl Safina takes readers on a global journey of discovery probing for truth about the world's changing seas deftly weaving adventure science and political analysis *Poems* Walt Whitman, 1892 **Crabgrass Crucible** Christopher C. Sellers, 2012-06-18 Although suburb building created major environmental problems Christopher Sellers demonstrates that the environmental movement originated within suburbs not just in response to unchecked urban sprawl Drawn to the countryside as early as the late nineteenth century new suburbanites turned to taming the wildness of their surroundings They cultivated a fondness for the natural world around them and in the decades that followed they became sensitized to potential threats Sellers shows how the philosophy science and emotions that catalyzed the environmental movement sprang directly from suburbanites' lives and

their ideas about nature as well as the unique ecology of the neighborhoods in which they dwelt Sellers focuses on the spreading edges of New York and Los Angeles over the middle of the twentieth century to create an intimate portrait of what it was like to live amid suburban nature As suburbanites learned about their land became aware of pollution and saw the forests shrinking around them the vulnerability of both their bodies and their homes became apparent Worries crossed lines of class and race and necessitated new ways of thinking and acting Sellers argues concluding that suburb dwellers through the knowledge and politics they forged deserve much of the credit for inventing modern environmentalism **Welcome to**

New York-Paris Laure Katsaros, 2012-10-15 As New York and Paris began to modernize new modes of entertainment such as panoramas dioramas and photography seemed poised to take the place of the more complex forms of literary expression Dioramas and photography were invented in Paris but soon spread to America forming part of an increasingly universal idiom of the spectacle This brave new world of technologically advanced but crudely mimetic spectacles haunts both Whitman s vision of New York and Baudelaire s view of Paris In New York Paris Katsaros explores the images of the mid nineteenth century city in the poetry of both Whitman and Baudelaire and seeks to demonstrate that by projecting an image of the other s city onto his own each poet tried to resist the apparently irresistible forward momentum of modernity rather than create a
