During and just after World War II an influential group of American writers and intellectuals projected a vision for literature that would save the free world. Novels, stories, plays, and poems they believed could inoculate weak minds against simplistic totalitarian ideologies, heal the spiritual wounds of global catastrophe, and just maybe prevent the like from happening again. As the Cold War began, high-minded and well-intentioned scholars, critics, and writers from across the political spectrum argued that human values remained crucial to civilization and that such values stood in dire need of formulation and affirmation. Creative writing emerged as a graduate discipline in the United States amid this astonishing swirl of grand conceptions. *Workshops of Empire* explores this history via the careers of Paul Engle at the University of Iowa and Wallace Stegner at Stanford. In the story of these founding fathers of the discipline, Eric Bennett discovers the cultural, political, literary, intellectual, and institutional underpinnings of creative writing programs within the university. **Politics and Culture in Postwar Britain** Alan Sinfield, 2007-03-15 *Literature, Politics and Culture in Postwar Britain* is a landmark work in contemporary literary and cultural analysis. It offers a provocative and brilliant account of political change since 1945 and how such change shaped the cultural output of our time. It also looks at how and when literature intersects with other cultural forms including jazz and rock music, television, journalism, commercial and mass cultures, and the growth of American cultural dominance. This edition includes a new foreword by the author      *Kritisismo: Teorya at Paglalapat* ,

Sterling A. Brown Joanne V. Gabbin, 1994 Sterling A. Brown's achievement and influence in the field of American literature and culture are unquestionably significant. His poetry has been translated into Spanish, French, German, and Russian and has been read in literary circles throughout the world. He is also one of the principal architects of black criticism. His critical essays and books are seminal works that give an insider's perspective of literature by and about blacks. Leopold Sedar Senghor, who became familiar with Brown's poetry and criticism in the 1920s and 1930s, called him an original militant of Negritude, a precursor of our movement. Yet Joanne V. Gabbin's book, originally published in 1985, remains the only study of Brown's work and influence. Gabbin sketches Brown's life, drawing on personal interviews and viewing his achievements as a poet, critic, and cultural griot. She analyzes in depth the formal and thematic qualities of his poetry, revealing his subtle adaptation of song forms, especially the blues. To articulate the aesthetic principles Brown recognized in the writings of black authors, Gabbin explores his identification of the various elements that have come together to create American culture.
