while Richard Gilman's introduction examines how Chekhov broke with theatrical conventions and discusses each play in detail. The Last Laugh Will Daddario, 2025-09-04 This book investigates what the author terms The last laugh which reveals itself as a crucial element in the work of grief and acceptance amid social strife and political injustice. We hear and see the laugh emerge when engaged in situations that are not funny at first glance at least not according to social conventions of propriety. The last laugh is seriously funny insofar as it reveals the extent to which the laughing subject is thoroughly enmeshed in the unfunny of social antagonisms yet also capable of accepting its position as something to laugh at and through in order to endure the pains of social life. The last laugh emerges at the hiatus between action autonomy and passivity non doing. Chances are high that you have laughed this laugh. This book is designed to help us all understand what it is and how it helps promote insight in the contemporary moment. Understanding the last laugh is necessary to enable full open grieving of social injustice treating the comic as a necessary component of open or what the social sciences refer to as adaptive grieving. It thus provides a new perspective on grief scholarship as well as a new perspective on comedy studies.

Theatre Theory Reader: Prague School Writings David Drozd, 2017-03-01 This is precisely the book I have been looking out for ever since working at my *Das Drama Theorie und Analyse* 1977. The Theory and Analysis of Drama 1988 and discovering from a few specimens the incisive usefulness and importance of Prague School theatre semiotics. There is everything one could possibly wish for in this monumental Theatre Theory Reader Prague School Writings all the by now canonical texts and many others presented for the first time in English arranged in a systematic order which fully renders the sense of the scope and development of Czech theatre semiotics and all of them in highly competent

translations aware of the terminological complexities at stake and supported by helpful annotations With such a rich harvest garnered this anthology of Prague School Writings is bound to become nationally as well as internationally a prime work of reference and give to them a second lease of life in the 21st century Manfred Pfister Modern theatre theory no matter what its orientation can trace its roots back to the structuralist and semiotic explorations of the Prague School in the early twentieth century This comprehensive and informed overview is therefore most welcome in understanding the course and development of that theoretical tradition It is not however of purely historical interest important as that is Whether they use the terminology of the Prague School or evoke the names of its contributors analysts of theatre and performance today still find the strategies and articulations of those pioneers of ongoing relevance This collection thus provides an important double service providing contemporary theatre scholars with a clearer idea of where they have come from and an inspiration for where they may be going Marvin Carlson I think it is a great idea not to group the articles according to the different authors but following a systematic that covers as many aspects of theatre as possible This way it becomes quite clear that the theories of the so called Prague or Czech structuralists and semioticians were able to apply their theories when discussing most diverging questions related to theatre The choice of texts is excellent It makes more than clear that these theories are not outdated do not only have historical value and are interesting with regard to the history of ideas only Rather it becomes evident that they are highly relevant in the context of discussions led today Erika Fischer Lichte The Prague School and the Czech structuralism have had a considerable impact on the development of semiotic studies and theatre studies at large in the 1960s and 70s But this has been quickly forgotten and with the rise of poststructuralism and deconstruction in the 80s and 90s they were not only neglected but also unjustly disregarded or even forgotten This is why the Theatre Theory Reader Prague School Writings is a very welcome book which comes at the right moment when postmodernism poststructuralism and postdramatic theatre seem to have lost their momentum as if the requirements of today's quest for a new way of living and of making business had become so strong that we must go back to the basics Structuralism and a critique of ideology are now back at least as a sign to not give up thinking and theorizing in a world which has become self centred and mad The afterword by Pavel Dr bek Martin Bern tek Andrea Jochmanov and Eva laisov is a sort of book within the book as it neatly puts in perspective all the important names and theories of the Prague School It does this in a very user friendly manner where complex theories are summarized in a clear yet precise introduction This makes the reading of the different chapters easier and immediately connected to our contemporary way of thinking Patrice Pavis

T. S. Eliot and the Mother Matthew Geary, 2021-05-30 The first full length study on T S Eliot and the mother this book responds to a shortfall in understanding the true importance of Eliot's poet mother Charlotte Champe Stearns to his life and works In doing so it radically rethinks Eliot's ambivalence towards women In a context of mother son ambivalence simultaneous feelings of love and hate it shows how his search for belief and love converged with a developing maternal poetics Importantly the chapters combine standard literary critical methods and extensive archival research with innovative feminist maternal and psychoanalytic theorisations of mother child relationships such as those developed by Julia Kristeva Luce Irigaray Jessica Benjamin Jan Campbell and Rozsika Parker These maternal thinkers emphasise the vital importance and benefit of recognising the pre Oedipal mother and maternal subjectivity contrary to traditional repressive Oedipal models of masculinity Through this interdisciplinary approach the chapters look at Eliot's changing representations and articulations of the mother mother child relationship from his very earliest writings through to the later plays Focus is given to decisive mid career works *Ash Wednesday* 1930 *Marina* 1930 *Coriolan* 1931 32 and *The Family Reunion* 1939 as well as to canonical works *The Waste Land* 1922 and *Four Quartets* 1943 Notably the study draws heavily on the wide range of Eliot materials now available including the new editions of the complete poems the complete prose and the volumes of letters which are transforming our perception of the poet and challenging critical attitudes The book also gives unprecedented attention to Charlotte Eliot's life and writings and brings her individual female experience and subjectivity to the fore Significantly it establishes Charlotte's death in 1929 as a decisive juncture marking both Eliot's New Life and the apotheosis of the feminine symbolised in *Ash Wednesday* Central to this proposition is Geary's new formulation for recognising and examining a maternal poetics which also compels a new concept of maternal allegory as a modern mode of literary epiphany T S Eliot and the Mother reveals the role of the mother and the dynamics of mother son ambivalence to be far more complicated enduring changeable and essential to Eliot's personal religious and poetic development than
