## Five Decades Of Opposition:

**Opposing Power** Elvin Jiayun Ong, 2022-05-17 *Opposing Power* argues that perceptions of regime vulnerability and mutual dependency by opposition elites shape the building of opposition alliances When electoral autocracies are consistently dominant opposition parties eschew fully fledged alliances At best they allocate only one candidate to contest against the incumbent in each subnational electoral district to avoid splitting the opposition vote However when multiple regime debilitating events strike within a short period of time thus pushing an incumbent to the precipice of power opposition elites expect victory accepting costly compromises to build alliances and seize power *Opposing Power* shows how oppositions build these alliances through case study comparisons in East and Southeast Asia between the Philippines and South Korea in the late 1980s and between Malaysia and Singapore from 1965 to 2020 *Historical Dictionary of Gabon* Douglas A.

Yates, 2017-12-28 This new fourth edition of the *Historical Dictionary of Gabon* brings up to date the political affairs of the country since the accession to power of Ali Bongo eldest son of Omar Bongo the former president for life who died in 2009 after the publication of the third edition Themes of continuity and change are present throughout the entries not only as the Bongo family continues its half century of dynastic rule there are a dozen Bongos in this new edition but as the rare primeval tropical rainforests continue to dominate the landscape yet are menaced by destructive logging and palm oil plantations and as this former French colony after independence continues to collaborate with the French African sphere of influence yet seeks new partners from America and Asia China Singapore and as the country's numerous ethnic groups perpetuate a multicultural mosaic that is nevertheless threatened by globalization of communications and cultural convergence This fourth edition of *Historical Dictionary of Gabon* contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Gabon *Opposition to War* Mitchell K. Hall, 2018-01-04 How have Americans sought peaceful rather than destructive solutions to domestic and world conflict This two volume set documents peace and antiwar movements in the United States from the colonial era to the present Although national leaders often claim to be fighting to achieve peace the real peace seekers struggle against enormous resistance to their message and have often faced persecution for their efforts Despite a well established pattern of being involved in wars the United States also has a long tradition of citizens who made extensive efforts to build and maintain peaceful societies and prevent the destructive human and material costs of war Unarmed activists have most consistently upheld American values at home *Opposition to War* An Encyclopedia of U S Peace and Antiwar Movements investigates this historical tradition of resistance to involvement in armed conflict an especially important and relevant topic today as the nation has been mired in numerous military conflicts throughout most of the current century The book examines a largely misunderstood and underappreciated minority of Americans who have

committed themselves to finding peaceful resolutions to domestic and international conflicts individuals who have proposed and conducted an array of practical and creative methods for peaceful change from the transformation of individual behavior to the development of international governing and legal systems for more than 250 years Readers will learn how individuals working alone or organized into societies of various size have steadfastly campaigned to stop war end the arms race eliminate the underlying causes of war and defend the civil liberties of Americans when wartime nationalism most threatens them

**The Global Third Nuclear Age** Andrew Futter, Ludovica Castelli, Cameron Hunter, Olamide Samuel, Francesca Silvestri, Benjamin Zala, 2025-01-17 This book provides an in depth examination of the technological geopolitical and normative pressures driving the world into a new more complex and potentially more dangerous Third Nuclear Age By adopting an innovative framework for analysis the book challenges the constrained focus of much of the existing literature by explaining that the pathways to nuclear security for different actors across the globe will vary considerably in this new context It argues that the Third Nuclear Age will be defined by friction and conflict between Nuclear Traditionalists Technological Transformers Hedgers and Balancers and Activists and Protestors as different interests and visions of the nuclear future clash The book draws on dozens of interviews and non English language sources to provide a global approach and looks at the security politics driving the political debate in 20 different countries across the globe This book will be of much interest to students of nuclear politics security studies and International Relations The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

**China Rising** David C. Kang, 2010-01-22 Over the past three decades China has rapidly emerged as a major regional power yet East Asia has been more peaceful than at any time since the Opium Wars of 1839 1841 Why has the region accommodated China s rise David C Kang believes certain preferences and beliefs are responsible for maintaining stability in East Asia His research shows that East Asian states have grown closer to China with little evidence that the region is rupturing These states see China s rise as advantageous and are willing to defer judgment as to China s wishes and future actions They believe that a strong China stabilizes East Asia while a weak China tempts other states to seek control of the region Kang s provocative work reveals the flaws in contemporary views on China and offers a new understanding of sound U S policy in East Asia

**The Opposition Presidency** David A. Crockett, 2002 When a president s governing philosophy is out of step with the dominant ideology of the culture his options for leadership are much different FROM those of a leader more in sync with the times Such opposition leaders face distinctive challenges and opportunities for effectiveness They should be judged by different standards argues political scientist David Crockett Crockett has analyzed presidents from Whig times through the Clinton presidency to develop a model for understanding presidential success and the strategies that are appropriate to the circumstances Focusing on the terms of TWELVE opposition presidents Crockett details the approaches they have taken to maximize their own goals and maintain political

power He illustrates vividly how these leaders must balance personal and partisan success and he lays out the relationship between personality or character and the larger political context All opposition presidents face roughly the same type of leadership situation governing in an era in which they do not control the power to define politics but Crockett s broad historical perspective demonstrates that they do not all handle this situation in the same way Studying the presidency in such a political context enables Crockett to break free of the one size fits all model of presidential leadership Leadership strategies are contingent and context bound and the wise president understands the constraints history places on his leadership In the case of opposition presidents history demonstrates that pursuing a path of moderation is far healthier than launching a frontal assault on the governing party It is healthier for the president and his party and healthier for the political system as a whole Breaking free of the standard focus on post World War II presidencies this historically rich analytically sophisticated and extremely readable volume offers challenging understandings of presidential effectiveness Students of American politics will join scholars of the presidency in welcoming its innovative and tightly argued perspectives      *Occupying Island* Aide Esu, Simone Maddanu, 2025-10-03 This book offers an analytical perspective of the unfolding militarization in the Italian island of Sardinia grounded in extensive ethnographic fieldwork and using in depth documentation analysis Since the late 1950s the island which is the second largest in the Mediterranean has been one of the main hubs for weapons testing and interforce training for the Italian armed forces and NATO The book retraces the extent and the significance of military bases in Sardinia and the rise of local collective actions and resistance This case study offers relevant insights to understand the strategic role of islands in the post war military space control more specifically on geo strategic policy in the Mediterranean and its effects on military civil relations The relevance of the militarization of islands shed a light on opaque institutional decision processes that reinforce the figure of subaltern subjects relegated to peripheral spaces and subdued to extractivism dependency and exclusion It will be of interest to students and researchers of sociology sociology of environment and risk globalization social movement studies postcolonial studies and political studies      **From Grassroots Activism to**

**Disinformation** Aim Sinpeng, Ross Tapsell, 2020-10-21 This book reflects on the role of social media in the past two decades in Southeast Asia It traces the emergence of social media discourse in Southeast Asia and its potential as a liberation technology in both democratizing and authoritarian states It explains the growing decline in internet freedom and increasingly repressive and manipulative use of social media tools by governments and argues that social media is now an essential platform for control The contributors detail the increasing role of disinformation and fake news production in Southeast Asia and how national governments are creating laws which attempt to address this trend but which often exacerbate the situation of state control From Grassroots Activism to Disinformation explores three main questions How did social media begin as a vibrant space for grassroots activism to becoming a tool for disinformation Who were the main actors in this transition governments citizens or the platforms themselves Can reformists reclaim the digital public sphere And if so

how **Poetics of the Pillory** Thomas Keymer, 2019-10-30 On the lapse of the Licensing Act in 1695 Thomas Macaulay wrote in his History of England English literature was emancipated and emancipated for ever from the control of the government It is certainly true that the system of prior restraint enshrined in this Restoration measure was now at an end at least for print Yet the same cannot be said of government control which came to operate instead by means of post publication retribution not pre publication licensing notably for the common law offence of seditious libel For many of the authors affected from Defoe to Cobbett this new regime was a greater constraint on expression than the old not least for its alarming unpredictability and for the spectacular punishment the pillory that was sometimes entailed Yet we may also see the constraint as an energizing force Throughout the eighteenth century and into the Romantic period writers developed and refined ingenious techniques for communicating dissident or otherwise contentious meanings while rendering the meanings deniable As a work of both history and criticism this book traces the rise and fall of seditious libel prosecution and with it the theatre of the pillory while arguing that the period's characteristic forms of literary complexity ambiguity ellipsis indirection irony may be traced to the persistence of censorship in the post licensing world The argument proceeds through case studies of major poets and prose writers including Dryden Defoe Pope Fielding Johnson and Southey and also calls attention to numerous little known satires and libels across the extended period

**The Dictator's Learning Curve** William J. Dobson, 2013-03-12 In this riveting anatomy of authoritarianism acclaimed journalist William Dobson takes us inside the battle between dictators and those who would challenge their rule Recent history has seen an incredible moment in the war between dictators and democracy with waves of protests sweeping Syria and Yemen and despots falling in Egypt Tunisia and Libya But the Arab Spring is only the latest front in a global battle between freedom and repression a battle that until recently dictators have been winning hands down The problem is that today's authoritarians are not like the frozen in time ready to crack regimes of Burma and North Korea They are ever morphing technologically savvy and internationally connected and have replaced more brutal forms of intimidation with subtle coercion The Dictator's Learning Curve explains this historic moment and provides crucial insight into the fight for democracy

**Casino Capitalism** Susmit Kumar, 2012 The immediate future promises bloodshed and grandstanding but in the end the majority of Islamic countries will become secular and democratic As with the two World Wars a cataclysmic turn of events will ultimately unify the world as Islamic countries deal with the fallout from Casino Capitalism

Pitch Battles Peter Hain, Andre Odendaal, 2021-09-01 There will be a black Springbok over my dead body Dr Danie Craven President of the South African Rugby Board 1969 Just a year after the controversial D Oliveira affair the organised disruption of the all white 1969/70 South African rugby and cricket tours to Britain represented a significant challenge to apartheid politics Led by future cabinet minister Peter Hain the Stop the Seventy Tour campaign brought about the cancellation of both tours presaging white South Africa's expulsion from the Olympics and the end of apartheid sport altogether With his brand of attention grabbing direct action sports protest the 19

year old Hain emerged as a hero to some and enemy to others Now reflecting on these experiences with fifty years of hindsight Lord Hain together with South Africa's foremost sports historian and fellow anti apartheid activist Andr Odendaal shows how decades of relentless international and domestic campaigning for equality led to a Springbok team captained by black athlete Siya Kolisi winning the 2019 Rugby World Cup Interspersing a wide range of examples with personal testimony Pitch Battles explores the themes of sport globalisation and resistance from the deep past to the present day Published in the same year as the Stop The Tour documentary from acclaimed director Louis Myles this compelling story of sacrifice struggle and triumph reveals how sport should never be divorced from politics or society's values

**Against Post-Liberal Courts and Justice** Lesley A. Jacobs, Matthew McManus, 2023-12-27 This book covers how Liberal institutions constitutional democracy economic markets liberal courts free trade international human rights around the world are under assault by the political right and we are witnessing the emergence of post liberal institutions These post liberal institutions are founded on the core conviction that the actions of liberal institutions including the United States Supreme Court are patently unjust This volume makes the case against post liberal courts and justice by reconnecting to the principles of moral equality and dignified freedom for all The intention is to show how there is great untapped potential in the work of Ronald Dworkin's work to demonstrate that it can help progressive liberals think through the great issues of the day and respond to the contemporary criticisms of the political right The core themes are concretely illustrated by focusing on some of the most controversial recent post liberal decisions of the Supreme Court ranging from election funding to abortion to race sensitive affirmative action to economic inequality in an age of increasingly unequal opportunities

**Country Reports on Human Rights Practices for 2008 Vol.1**, *History of the Great American Fortunes* Gustavus Myers, 1910 *Rediscovering Public Law and Public Administration in Comparative Policy Analysis* Stéphane Nahrath, Frédéric Varone, 2009-01-01 Published on the occasion of the 60th anniversary of Prof Peter Knoepfel Professeur à l'Institut de hautes études en administration publique IDHEAP

**How the Police Generate False Confessions** James L. Trainum, 2016-07-15 Despite the rising number of confirmed false confession cases most people have a hard time grasping why someone would confess to a crime they did not commit or even why a guilty person would admit to something that could put them in jail for life How the Police Generate False Confessions takes you inside the interrogation room exposing the tactics that law enforcement uses to make confessions happen James L Trainum reveals how innocent people can become suspects and then confessed criminals even when they have not committed a crime Using real stories he looks at the inherent coerciveness of the interrogation process and why so many false confessions contain so many of the details that only the true perpetrator would know More disturbingly the book examines how these same processes corrupt witness and victim statements create lying informants and cooperators and induce innocent people to plead guilty Trainum also offers recommendations for change in the U S by looking at how other countries are changing the process to prevent such miscarriages of justice The reasons that people falsely confess can be

complex and varied throughout How the Police Generate False Confessions Trainum encourages readers to critically evaluate confessions on their own by gaining a better understanding of the interrogation process Thomas Jefferson and the Fight against Slavery Cara Rogers Stevens,2024-01-29 In this groundbreaking work Cara Rogers Stevens examines the fascinating life of Thomas Jefferson s book Notes on the State of Virginia from its innocuous composition in the early 1780s to its use as a political weapon by both pro and antislavery forces in the early nineteenth century Initially written as a brief statistical introduction to Virginia for French readers Jefferson s book evolved to become his comprehensive statement on almost all facets of the state s natural and political realms As part of an antislavery education strategy Jefferson also decided to include a treatise on the nature of racial difference as well as a manifesto on the corrupting power of slavery in a republic and a plan for emancipation and colonization In consequence his book for better or worse defined the boundaries of future debates over the place of African descended people in American society Although historians have rightly criticized Jefferson for his racism and failure to free his own slaves his antislavery intentions for the Notes have received only cursory notice partly because the original manuscript was not available for detailed examination until recently By analyzing Jefferson s complex revision process Thomas Jefferson and the Fight against Slavery traces the evolution of Jefferson s views on race and slavery as he considered how best to persuade younger slaveholders to embrace emancipation Rogers Stevens then moves beyond Jefferson to examine contemporary responses to the Notes from white and black intellectuals and politicians concluding with an attempt by Jefferson s grandson to implement elements of the Notes s emancipation plan during Virginia s 1831 1832 slavery debates **Bulletin** National Association of Wool Manufacturers,1905 A bibliography of wool and the woolen manufacture v 21 1891 p 118 134 *Current Background* ,1977-04-25

### Five Decades Of Opposition Introduction

In today's digital age, the availability of Five Decades Of Opposition books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Five Decades Of Opposition books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Five Decades Of Opposition books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of

them for educational or professional purposes. By accessing Five Decades Of Opposition versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Five Decades Of Opposition books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Five Decades Of Opposition books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Five Decades Of Opposition books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Five Decades Of Opposition books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Five Decades Of Opposition books and manuals for download and embark on your journey of knowledge?
