Fixing Health Budgets:

Fixing Health Budgets Friedrich Wilhelm Schwartz, Howard Glennerster, Richard B. Saltman, 1997-01-24 The notion of a fixed health budget seems self evident a public or private payer sets a time tied ceiling on expenditures Such a definition while correct is nonetheless far from sufficient In actual practice the key issues revolve around not only the what but also the who and the how of establishing and maintaining periodic health care expenditure ceilings The design and implementation of fixed budgets in health systems not to mention their success varies considerably between countries within countries and between health sub sectors Fixing Health Budgets Experience from Europe and North America reviews the impact of financial reform on the quality and delivery of health care in Austria Canada Germany the Netherlands Sweden the UK and the USA It outlines how far countries have moved to adopt fixed budgets and how management on a macro meso and micro level of the various systems is coping with the challenges and conflicts between the providers patients community and society Its message has relevance for health care providers public policy analysts and health economists worldwide as well as providers of health education and social services

Health Care and Cost Containment in the European Union Elias Mossialos, Julian Le Grand, 2019-05-20 First published in 1999 this volume aims to describe and analyse the experience of cost containment in Europe over the last fifteen years in order to understand that experience and to determine as best we can which methods were successful and which were not Part I provides an overview of healthcare in the European Union an overview of recent expenditure trends Part II complements the first examining in detail cost containment policies in each EU Member State The country based chapters refer to developments up to mid 1997

Getting Health Economics into Practice David Kernick, 2018-08-11 Fifty years ago medicine was straightforward Doctors had limited therapeutic options and patients did as they were told Today an array of medial interventions is putting increasing pressure on limited resources patients are questioning everything and doctors are uncertain of their role Health economists hoped to offer important insights to aid decision making but their technical frameworks bore little resemblance to the practical requirements of end users Now this book presents the concepts and insights that health economics has to offer in a way that is accessible to every healthcare decision maker Getting Health Economics into Practice is for all those who are involved in the planning commissioning and delivery of healthcare It illuminates the practical value that the concepts and principles of health economics can offer decision makers at all levels Comprehensive and extensive it is the first such book to be edited by a clinician rather than a health economist with contributions from an expert panel of specialists This approach ensures it is accessible and useful in the everyday work of health professionals It is relevant for all healthcare sectors in particular for Primary Care Trusts and is essential reading for managers researchers and especially practitioners

Implementing Change in Health Systems Michael I Harrison, 2004-03-27 *Implementing Change in Health Systems* brings fresh thinking and evidence to the continuing debate about market reforms of health care and other public services The book examines the development and implementation of

national cost containment programs and health system reorganizations in the UK Sweden and the Netherlands countries that have been leaders in health system reform The book provides a new framework for analyzing public policy implementation and system change synthesizing diverse streams of academic research and thinking It explores the processes of implementing market reforms in each country and considers the outcomes both expected and unintended In all three countries competitive reform encountered serious technical organizational and political obstacles Yet they triggered important system changes and paved the way for significant new health policies The complex outcomes of the reforms included changes in the quality efficiency and costs of care growing managerial and political control over physicians and other health care professionals increased influence and centrality of community based care Diffusion of ideas and practices from business management into health care Implementing Change in Health Systems sheds new light on crucial policy issues that are currently being debated in the United States and many other countries The book will be of value to students researchers and practitioners in health policy and public policy

EBOOK: Decentralization in Health Care: Strategies and Outcomes Richard Saltman, Ana Rico, Wienke Boerma, 2004-09-16 What is the best way to structure primary care services How can coordination between primary care and other parts of health care systems be improved How should new technologies be integrated into primary care There is considerable agreement among national policy makers across Europe that in principle primary care should be the linchpin of a well designed health care system This agreement however does not carry over into the organizational mechanisms best suited to pursuing or achieving this common objective Across western central and eastern Europe primary care is delivered through a wide range of institutional financial professional and clinical configurations This book is a study of the reforms of primary care in Europe as well as their impacts on the broader coordination mechanisms within European health care systems It also provides suggestions for effective strategies for future improvement in health care system reform Primary Care in the Driver's Seat is key reading for students studying health policy health economics public policy and management as well as health managers and policy makers Contributors Richard Baker University of Leicester Sven Eric Bergman Bergman and Dahlbäck AB Stockholm Sweden Wienke Boerma Netherlands Institute of Health Services Research NIVEL in Utrecht Netherlands Mats Brommels University of Helsinki and Karolinska Institute in Stockholm Sweden Michael Calnan University of Bristol Diana Delnoij Netherlands Institute of Health Services Research NIVEL in Utrecht Netherlands Anna Dixon London School of Economics and Political Science Carl Ardy Dubois University of Montreal Canada Joan Gen Badia Catalan Institute of Health in Barcelona Spain Bernhard Gibis National Association of Statutory Health Insurance Physicians KBV Berlin Germany Stefan Gre Institute of Health Care Management of the University of Duisburg Essen in Essen Germany Peter Groenewegen Netherlands Institute of Health Services Research NIVEL and Utrecht University in Utrecht Netherlands Jan Heyrman Catholic University Leuven KU Leuven in Leuven Belgium Jack Hutten Ministry of Health Welfare and Sports The Hague Netherlands Michael Kidd University of Sydney Australia M

Sider, 2012-03-23 The national deficit is certainly a crisis But alongside it a moral deficit is exploding as well Some want to unjustly thrust the burden of the debt on our grandchildren Others want to balance the budget on the backs of the poor But both plans are morally bankrupt There is a way a realistic way a moral way to fix the deficit We can break political gridlock with solutions that stand on a foundation of solid values and fair play If you are tired of politics as usual that fails to operate as if people mattered take heart in Ron Sider s balanced practical approach Consistent with deeply Christian principles he offers a way forward that truly provides justice for all

Delivering Personal Health Budgets Alakeson, Vidhya, 2014-01-07 Personal health budgets are an important new tool to improve the lives of people living with long term conditions and disabilities by giving them greater choice and control over their healthcare This is the first step by step guide to their implementation Using current evidence and best practice identified by pilot sites Delivering personal health budgets contains everything there is to know about the purpose and history of personal health budgets the evidence for their effectiveness and the challenges they pose to traditional healthcare systems It describes the essential infrastructure needed for personal health budgets and includes implementation checklists The book focuses on how personal health budgets can be implemented to achieve the best possible outcomes for individuals while real life stories from personal health budget holders bring their potential vividly to life Delivering personal health budgets is essential reading for commissioners healthcare providers clinicians and policy makers who are looking for an informative and authoritative guide *Health Care Budgeting and Financial Management* William J. Ward Jr., 2015-12-14 In today s chaotic health reform environment it is especially important for non financial health care managers to have a practical guide to the tools and concepts they need to manage their human supply and equipment resources Today s health care managers frequently were yesterday s technicians physicians and nurses This puts them in an interesting predicament since they know the health care side of the business but often lack the financial management skills necessary to create

budgets and manage finances in a health care setting In this guide William J Ward Jr offers easy to understand explanations of basic accounting concepts including cash flow operating cost and cost behavior revenue and reimbursement and so much more Providing clearly presented financial information in the context of health care Ward s book is a one stop desk reference that provides practical useful tools and knowledge that readers can immediately put to use It will help managers directors and clinical leaders who work in hospitals physician practices and other provider organizations to effectively manage their financial resources on a day to day basis providing guidance for essential tasks such as preparing budgets managing their departments and making decisions around financial issues *GPs and Purchasing in the NHS* Bernard Dowling,2024-11-01

This title was first published in 2000 The relative performance of health authorities and general practitioners as commissioners of health care services is a crucial question in the current health care policy debate but hitherto a poorly researched area This work addresses that topic and represents a systematic direct comparison of GPs and health authorities as purchasers of health care services In doing this it centres upon two of the chief controversies about the NHS internal market the equality of hospital waiting times for fund holding patients and the fairness of the budgets received by fund holding practices for commissioning effective surgery In discussing the policy implications of the research the book then addresses what lessons should be learned from the internal market about equity and efficiency in the service now that the present Labour Government is reforming the NHS with the introduction of Primary Care Groups and Primary Care Trusts

Rights and Resources Frances H. Miller,2024-11-01 This title was first published in 2003 The fulfilment of health care rights in a world where resources are scarce is a prominent issue In this volume Frances H Miller introduces studies on a wide variety of aspects of this important yet complex process **Prevention and Health Promotion for the Excluded and the Destitute in Europe** Pierre Chauvin,2002 The social inequalities of health have persisted or even increased in Europe in the last few years This text presents the experiences of professionals from various institutional backgrounds in eight European countries as well as their recommendations to improve the access of excluded people *Modelling in Health Care Finance* Michael Cichon,1999 In straightforward non technical language the book demystifies the modelling process and provides step by step guidance demonstrating how managers and policy makers can best make use of models in the formation of health policy goals the identification of options and the analysis and implementation of results Making Social Policy Work John Hills,Julian Le Grand,David Piachaud,2007-10-31 Social policy is now central to political debate in Britain What has been achieved by efforts to improve services and reduce poverty What is needed to deliver more effective and popular services to all and increase social justice How can we make social policy work These are some of the questions discussed in this new and wide ranging collection of essays by a distinguished panel of leading social policy academics The book covers key issues in contemporary social policy particularly concentrating on recent changes It examines the history and goals of social policy as well as its delivery focusing in turn on the family and the state schools higher education

healthcare social care communities and housing Redistribution is also examined exploring child poverty pension reform and resources for welfare The essays in this collection have been specially written to honour the 70th birthday of Howard Glennerster whose pioneering work has been concerned not only with the theoretical historical and political foundations of social policies but crucially with how they work in practice It is a collection of primary importance for those working in and interested in policy and politics in a wide variety of fields and for students of social policy public policy and the public sector

Report on a Proposed Park System for the Borough of Richmond, New York City Staten Island Chamber of Commerce. Committee on Parks, 1902 **Pamphlets** Bureau of Municipal Research (New York, N.Y.), 1907 **Decisions of the Comptroller General of the United States** United States. General Accounting Office, 1933 The Transformation of the Social Right to Healthcare Katharina Böhm, 2016-06-17 This pathbreaking book investigates welfare state change in the area of health care a field widely neglected by comparative welfare state research While some work on health care expenditure exists health care rights have not been systematically studied since social rights have exclusively focused on entitlement to cash benefits Addressing this research gap Böhm analyses in what way the social right to health care has been modified in the course of general welfare state transformation since the late 1970s Taking England and Germany as examples she assesses how health care reforms conducted under the conditions of constrained budgets demographic ageing and rapid medical progress have altered access to and generosity of public health care systems over the past 35 years The book's findings significantly increase our understanding of social rights and reveals fundamental differences of approach while Germany provides absolute and enforceable rights to health care for each entitled individual English social health care rights are directed towards the population as a whole and contingent upon the availability of resources i.e. they are not absolute and not enforceable This distinction between individual and collective social rights will be an important contribution to the theory of social rights given its applicability to other types of social rights and its usefulness in tracing changes in social rights over time **Children's Rights and Sustainable Development** Claire Fenton-Glynn, 2019-04-18 Considers how to implement children's rights in the twenty first century through a child rights based approach to sustainable development **The Milbank Quarterly**, 1997 *Public Administration* Eran Vigoda-Gadot, 2002-06-07 Offering strategies for a new generation of administrative systems this book explores the impact of recent managerial reforms and shifting societal values on the stability legitimacy and progress of democratic governments The chapters highlight innovations in consumer communication management and marketing evolving methods of policy planning formation and implementation and the role of high information high technology in public agencies Providing insight into the changing environment present in most governing structures the book covers ethical dilemmas in public service the definition of work for public sector employees and population behavior during mass disasters
