Master Narratives and their Discontents James Elkins,2013-10-18 In this bracing engagement with the many versions of art history James Elkins argues that the story of modernism and postmodernism is almost always told in terms of four narratives Works of art are either seen as modern or postmodern or praised for their technical skill or because of the politics they appear to embody These are master narratives of contemporary criticism and each leads to a different understanding of what art is and does Both a cogent overview of the state of thinking about art and a challenge to think outside the art historical box Master Narratives and their Discontents is the first volume in a series of short books on the theories of modernism by leading art historians on twentieth century art and art criticism **Grand Illusions** David M.

back east during the years she lived in Texas Amy Von Lintel brings to readers the collected O Keeffe correspondence and added commentary and analysis shining fresh light on a period of the artist s life she characterizes as some of the least appreciated in the vast O Keeffe scholarship but also as a time when she discovered her own voice as a young successful and independent woman a dedicated faculty member at a brand new college a vibrant social butterfly a progressive woman who spoke her mind and fought for her beliefs to be heard Although selected paintings by O Keeffe that support the narrative are featured this work focuses on O Keeffe s words By doing so Von Lintel aims to allow the artist s voice to emerge as a powerful witness of her own life but also of western America in a pivotal moment of its development The result is an important new examination of one of our most beloved artists during a time when she was in the process of discovering her future identity

Flag Marc Leepson,2007-04-01 *Flag An American Biography* is a vivid narrative that uncovers little known facts and sheds new light on the more than 200 year history of the American flag The thirteen stripe fifty star flag is as familiar an American icon as any that has existed in the nation s history Yet the history of the flag especially its origins is cloaked in myth and misinformation *Flag An American Biography* rectifies that situation by presenting a lively comprehensive illuminating look at the history of the American flag from its beginnings to today Journalist and historian Marc Leepson uncovers scores of little known fascinating facts as he traces the evolution of the American flag from the colonial period to the twenty first century Flag sifts through the historical evidence to among many other things uncover the truth behind the Betsy Ross myth and to discover the true designer of the Stars and Stripes It details the many colorful and influential Americans who shaped the history of the flag *Flag* as the novelist Nelson DeMille says in his preface is not a book with an agenda or a subjective point of view It is an objective history of the American flag well researched well presented easy to read and understand and very informative and

entertaining Our love for the flag may be incomprehensible to others but at least we now have a comprehensive guide to its unfolding The Wall Street Journal Tales from the Easel, 2004 Tales from the Easel features seventy full color reproductions that convey the expressive allusive powers of narrative painting Though they range widely in subject and setting all of the paintings gathered here are rendered in a representational or realistic style Carrying moral social or patriotic messages the paintings are meant to teach enlighten or inspire Then again the paintings can also tweak the very conventions that define them with results that range from the delightfully idiosyncratic to the visionary Thomas Hart Benton Winslow Homer Andrew Wyeth and Jacob Lawrence are just some of the household names whose work appears in Tales from the Easel Others like Elihu Vedder and Lilly Martin Spencer are less well known but still vital to the development of narrative painting While some of the artists including George Caleb Bingham and Paul Cadmus were classically trained self taught painters such as Carlos Shoney Moon and Thomas Waterman Wood are also represented American rivers cities and battlefields are among the native surroundings shown in many of the paintings However artists also looked elsewhere for settings to Europe the Holy Land or even some imagined realm Charles C Eldredge's essay discusses the rich and varied sources of American narrative painting from literature and history to childhood and domestic life and an essay by William Underwood Eiland provides a discussion of the southern tale telling tradition Artist biographies by Reed Anderson and Stephanie J Fox appear opposite the paintings adding further context Tales from the Easel a companion volume to the national touring exhibit of the same name is a stunning reminder of a tradition in American painting that has endured across two centuries and numerous art movements *The Corporate Patron* Diane J. Gingold, Elizabeth A. C. Weil, Elisa Buono Glazer, 1991
