## **Flag On Devils Island:**

*Flag on Devil's Island* Francis Lagrange, William Murray, 1962      **Space in the Tropics** Peter Redfield, 2000-12-19  
Rockets roar into space bearing roughly half the world's commercial satellites from the same South American coastal rainforest where convicts once did time on infamous Devil's Island What makes *Space in the Tropics* enthralling is anthropologist Peter Redfield's ability to draw from these two disparate European projects in French Guiana a gleaming web of ideas about the intersections of nature and culture In comparing the Franco-European Ariane rocket program with the earlier penal experiment Redfield connects the myth of Robinson Crusoe nineteenth century prison reform the Dreyfus Affair tropical medicine postwar exploration of outer space satellite technology development and ecotourism with a focus on place and the incorporation of this particular place into greater extended systems Examining the wider context of the Ariane program he argues that technology and nature must be understood within a greater ecology of displacement and makes a case for the importance of margins in understanding the trajectories of modern life      **Condemned to Devil's Island** Blair Niles, 1928      **Testimonium Animae, Or, Greek and Roman Before Jesus Christ** Ernest Gottlieb Sihler, 1885      The Girl Explorers Jayne Zanglein, 2021-03-02 Never tell a woman where she doesn't belong In 1932 Roy Chapman Andrews president of the men-only Explorers Club boldly stated to hundreds of female students at Barnard College that women are not adapted to exploration and that women and exploration do not mix He obviously didn't know a thing about either *The Girl Explorers* is the inspirational and untold story of the founding of the Society of Women Geographers an organization of adventurous female world explorers and how key members served as early advocates for human rights and paved the way for today's women scientists by scaling mountains exploring the high seas flying across the Atlantic and recording the world through film sculpture and literature Discover the untold narratives of fearless female adventurers who defied societal norms and ventured into uncharted territories as they crisscross continents daringly explore remote landscapes and conquer the skies From the breathtaking expeditions in the dense Amazon rainforest to the heart-pounding aviation feats that broke barriers this book sheds light on the remarkable achievements of trailblazing explorers *The Girl Explorers* celebrates courage resilience and the indomitable spirit of these pioneers who paved the way for future generations Immerse yourself in their extraordinary experiences from the breathtaking discoveries of hidden civilizations to the thrilling encounters with exotic wildlife Through meticulous research and riveting storytelling this book brings to life the remarkable journeys of these women revealing the hardships they faced the victories they achieved and the lasting impact they left on the world Join us as we celebrate their extraordinary legacy *The Girl Explorers* is an inspiring examination of forgotten women from history perfect for fans of bestselling narrative history books like *The Radium Girls* *The Woman Who Smashed Codes* and *Rise of the Rocket Girls*      **Raising the Living Dead** Alberto Ortiz Díaz, 2023-03-08 *Raising the Living Dead* is a new history of Puerto Rico's carceral rehabilitation system in the middle decades of the twentieth century that brings to life the interactions of

incarcerated people their wider social networks and health care professionals The book addresses key issues in the history of prisons and the histories of medicine and belief including how prisoners different racial class and cultural identities shaped their incarceration and how professionals living in a colonial society dealt with the challenge of rehabilitating prisoners for citizenship The main idea of the book is that in the region multiple communities of care came together both inside and outside of prisons to imagine and imperfectly enact solution oriented cultures of rehabilitation Specifically Alberto Ortiz D az argues that scientific and humanistic approaches to well being were deliberately fused to raise the living dead an expression that reemerged in the modern Caribbean to refer to prisoners These reform groups sought to raise incarcerated people physically mentally socially spiritually and civically The book is based on deep original archival research into the Oso Blanco White Bear penitentiary in Puerto Rico yet it situates its study within Puerto Rico s broader carceral archipelago and other Caribbean prisons The agents of this history include not only physical health professionals but also their mental health counterparts psychologists and psychiatrists social workers spiritual and religious practitioners and of course the prisoners and their families By following all these groups and emphasizing the interpersonal exercise of power Ortiz D az is able to tell a story that goes beyond structural and social control debates Raising the Living Dead is not just about convicts their immediate interlocutors and their contexts however but about how together these open a window into the history of social uplift projects within the neo colonial societies of the Caribbean There is no book like this in Caribbean historiography and few examine these themes in the larger literature on the history of prisons
