Yellowstone, 1877. From a Manuscript in New York Public Library Fred G. Bond, 1925 *Nez Perce Summer 1877* Jerome A. Greene, 2022-09-12 *Nez Perce Summer 1877* tells the story of a people's epic struggle to survive spiritually, culturally, and physically in the face of unrelenting military force. Written by one of the foremost experts in frontier military history, Jerome A. Greene, and reviewed by members of the Nez Perce tribe, this definitive treatment of the Nez Perce War is the first to incorporate research from all known accounts of Nez Perce and U.S. military participants. Enhanced by sixteen detailed maps and forty-nine historic photographs, Greene's gripping narrative takes readers on a three and one-half month 1700-mile journey across the wilds of Idaho, Wyoming, and Montana territories. All of the skirmishes and battles of the war receive detailed treatment, which benefits from Greene's astute analysis of the strategies and decision-making on both sides. Between 100 and 150 of the more than 800 Nez Perce men, women, and children who began the trek were killed during the war. Almost as many died in the months following the surrender after they were exiled to malaria-ridden northeastern Oklahoma. Army deaths numbered 113. The casualties on both sides were an extraordinary price for a war that nobody wanted but whose history has since fascinated generations of Americans.

The Nez Perce Indians and the Opening of the Northwest Alvin M. Josephy, 1997 This is the story of the so-called Inland Empire of the Northwest, that rugged and majestic region bounded east and west by the Cascades and the Rockies from the time of the great exploration of Lewis and Clark to the tragic defeat of Chief Joseph in 1877. Explorers, fur traders, miners, settlers, missionaries, ranchers, and above all, a unique succession of Indian chiefs and their tribespeople bring into focus one of the permanently instructive chapters in the history of the American West.

Custer, the Seventh Cavalry, and the Little Big Horn Mike O'Keefe, 2012-11-20 Since the shocking news first broke in 1876 of the Seventh Cavalry's disastrous defeat at the Little Big Horn, fascination with the battle and with Lieutenant George Armstrong Custer has never ceased. Widespread interest in the subject has spawned a vast outpouring of literature which only increases with time. This two-volume bibliography of Custer literature is the first to be published in some twenty-five years and the most complete ever assembled. Drawing on years of research, Michael O'Keefe has compiled entries for roughly 3,000 books and 7,000 articles and pamphlets. Covering both nonfiction and fiction but not juvenile literature, the bibliography focuses on events beginning with Custer's tenure at West Point during the 1850s and ending with the massacre at Wounded Knee in 1890. Included within this span are Custer's experiences in the Civil War and in Texas, the 1873 Yellowstone and 1874 Black Hills expeditions, the Great Sioux War of 1876-77, and the Seventh Cavalry's pursuit of the Nez Percés in 1877. The literature on Custer, the Battle of the Little Big

Horn and the Seventh Cavalry touches the entire American saga of exploration conflict and settlement in the West including virtually all Plains Indian tribes the frontier army railroading mining and trading Hence this bibliography will be a valuable resource for a broad audience of historians librarians collectors and Custer enthusiasts *A Concise History of Scientists and Scientific Investigations in Yellowstone National Park* United States.
