Robbins, 2011-10-01 Both a tribute to the unique experiences of individual Native Americans and a celebration of the values that draw American Indians together *All Indians Do Not Live in Teepees or Casinos* explores contemporary Native life Based on personal experience and grounded in journalism this story begins with the repatriation of ancestral remains to the Pueblo peoples of New Mexico The 1999 return to Pecos of the skeletal remains of two thousand

bodies excavated during an archaeological expedition nearly a century earlier was the largest repatriation in American history In a united purposeful and energizing quest the Pecos and Jemez Indians brought their ancestors home This event along with subsequent repatriations has accelerated similar momentum across much of Native America In *All Indians Do Not Live in Teepees or Casinos* Catherine C Robbins traces this restorative effect in areas such as economic development urbanization the arts science and health care Through dozens of interviews Robbins draws out the voices of Indian people some well known and many at the grassroots level working quietly to advance their communities These voices speak against the background of the narrative s historical context The result is a rich account of Native American life in contemporary America revealing not a monolithic Indian experience of teepees or casinos but rather a mosaic of diverse peoples existing on a continuum that marks both their distinctions and their shared realities

*Unseeing Empire* Bakirathi Mani,2020-10-26 In *Unseeing Empire* Bakirathi Mani examines how empire continues to haunt South Asian American visual cultures Weaving close readings of fine art together with archival research and ethnographic fieldwork at museums and galleries across South Asia and North America Mani outlines the visual and affective relationships between South Asian diasporic artists their photographic work and their viewers She notes that the desire for South Asian Americans to see visual representations of themselves is rooted in the use of photography as a form of colonial documentation and surveillance She examines fine art photography by South Asian diasporic artists who employ aesthetic strategies such as duplication and alteration that run counter to viewers demands for greater visibility These works fail to deliver on viewers desires to see themselves producing instead feelings of alienation estrangement and loss These feelings Mani contends allow viewers to question their own visibility as South Asian Americans in U S public culture and to reflect on their desires to be represented

*Piercing Encyclopedia* Radomir Fiksa,2023-11-05 The practice of inserting sharp objects into the skin or other body parts for beautification or other purposes is thousands of years old The oldest mummy discovered in Egypt had a pierced ear Ancient African civilizations had habits of piercing their lips and tongues The oldest evidence of facial piercing was discovered in 2020 on the skeleton of a man who lived about 12 000 years ago Ear piercing has been common throughout history Often used for spiritual protection people wore metal on their ears to prevent evil spirits from entering the brain through the ear canal Ancient African tribes and the Egyptians also

practiced body modification through earlobe stretching as did people in Asia This practice among royalty is evident on the death mask of the young Egyptian pharaoh Tutankhamun as well as on statues of the Buddha where his earlobes reach almost to his shoulders Nose piercing is probably more than 4000 years old in the Middle East and was often offered as a gift and is still a tradition among some African tribes In India nose piercing was done for a completely different reason The jewel is usually worn in the left nostril of a woman In Ayurveda the traditional Indian approach to health and well being the spot on the left nostril is associated with the female reproductive organs and piercing here is believed to facilitate childbirth

**Womankind** Nancy Reeves, 2017-07-12 A stereotype can be defined as a rendering by consensus Since WOMANKIND BEYOND THE STEREOTYPES first appeared in 1971 a turbulent decade has passed In launching a new edition after such an interval it seems appropriate to ask how far society has moved beyond the stereotypes Such motion is a critical gauge of the status of women for the power to define can also be the power to destroy as long as the second sex is culturally prepackaged its biographical destiny will be preprogrammed and perilous Looking backward then to 1971 it is clear that the liberation movement has affected consciousness it has even subverted received doctrine On the other hand the stereotypes have not disappeared they have simply gone underground At the explicit level one can point to new patterns at the implicit level traditional definitions persist and continue to be both determinative and destructive Actualizing the architecture of this book I set out to examine fixed positions related to a stereotypes of role and b assumptions of thought In this edition I have added a section called Interpenetrations where I undertake to analyze in terms of current metamorphosis what has happened in the private and in the public spheres The chapter entitled Sex and Gender deals with the characteristic interweaving of present imperatives and past prototypes in relation to biography The chapter entitled The Politics of Power deals with the same characteristic interweaving in relation to history In a transitional period transformation proceeds unevenly old and new are a continuing part of contemporary reality In sum I have attempted to harmonize what is unprecedented with what is familiar and to dissect meaningful strands from the tangle of paradoxical precepts Embarking on such venturesome thought I have been mindful of the caveat of Jacob Bronowski If today we want to find relief from the uncertainties of a changing world in some cozy arbitra

Auerbach,2012-03-24 A collection of essays and insights from the hindsight of a renowned historian I was exceedingly fortunate to teach for forty years in an elite undergraduate college where I could mentor intelligent young women who were eager to learn But Wellesley still a bastion of Christian privilege a century after its founding continued to experience and demurely tolerate dismaying episodes of anti-Semitism How ironic that Wellesley and Israel each in its own distinctive way had converged to liberate me from my past as a non Jewish Jew Regardless of the subject law modern American history American Judaism Israel deference to the conventional wisdom never had been my style I always enjoyed the stimulation of writing against the grain discovering hidden meanings challenging historical and political pieties and exposing the self serving ideology that often lurked beneath self evident truths Providing intellectual catnip it also enabled me to reach readers far beyond the narrow confines of academic journals My creative work always was done in the solitude of my study my sanctum within my home Enclosed within the treasured artifacts maps photographs prints and books accumulated during decades of research and travel I explored the historical past that both inspired and reflected my own intellectual trajectory Virtually every book I have written to my genuine surprise contained within it the seed of its successor That of course is discernible only with hindsight which

after all is the distinctive attribute of a historian I invite my family friends and interested readers to accompany me to some favorite destinations during my journey

**The Photographic Uncanny** Claire Raymond, 2019-11-23 This book argues for a renewed understanding of the fundamentally uncanny quality of the medium of photography It especially makes the case for the capacity of certain photographs precisely through their uncanniness to contest structures of political and social dominance The uncanny as a quality that unsettles the perception of home emerges as a symptom of modern and contemporary society and also as an aesthetic apparatus by which some key photographs critique the hegemony of capitalist and industrialist domains The book's historical scope is large beginning with William Henry Fox Talbot and closing with contemporary indigenous photographer Bear Allison and contemporary African American photographer Devin Allen Through close readings exegesis of individual photographs and careful deployment of contemporary political and aesthetic theory The Photographic Uncanny argues for a re envisioning of the political capacity of photography to expose the haunted homeless condition of modernity

**Official Guide Book of the Panama-California Exposition**, 1915 **Photographs, Parts I and II** Christie, Manson & Woods International Inc, 1995

**Photography** Michelle Henning, 2023-01-06 We live in a time in which photographs have become extraordinarily mobile They can be exchanged and circulated at the swipe of a finger across a screen The digital photographic image appears and disappears with a mere gesture of the hand Yet this book argues that this mobility of the image was merely accelerated by digital media and telecommunications Photographs from the moment of their invention set images loose by making them portable reproducible projectable reduced in size and multiplied The fact that we do not associate analogue photography with such mobility has much to do with the limitations of existing histories and theories of photography which have tended to view photographic mobility as either an incidental characteristic or a fault Photography The Unfettered Image traces the emergence of these ways of understanding photography but also presents a differently nuanced and materialist history in which photography is understood as part of a larger development of media technologies It is situated in much broader cultural contexts caught up in the European colonial ambition to grasp the world and in the development of a new artificial second nature dependent on the large scale processing of animal and mineral materials Focussing primarily on Victorian and 1920s 30s practices and theories it demonstrates how photography was never simply a technology for fixing a fleeting reality
