The Suburban Church

Gretchen Buggeln, 2015-12-15 After World War II America's religious denominations spent billions on church architecture as they spread into the suburbs In this richly illustrated history of midcentury modern churches in the Midwest Gretchen Buggeln shows how architects and suburban congregations joined forces to work out a vision of how modernist churches might help reinvigorate Protestant worship and community The result is a fascinating new perspective on postwar architecture religion and society Drawing on the architectural record church archives and oral histories **The Suburban Church** focuses on collaborations between architects Edward D Dart Edward A Svik Charles E Stadel and seventy five congregations By telling the stories behind their modernist churches the book describes how the buildings both reflected and shaped developments in postwar religion its ecumenism optimism and liturgical innovation as well as its fears about staying relevant during a time of vast cultural social and demographic change While many scholars have characterized these congregations as country club churches **The Suburban Church** argues that most were earnest well intentioned religious communities caught between the desire to serve God and the demands of a suburban milieu in which serving middle class families required most of their material and spiritual resources

Modern in the Middle Susan Benjamin, Michelangelo

Sabatino, 2020-09-01 The first survey of the classic twentieth century houses that defined American Midwestern modernism Famed as the birthplace of that icon of twentieth century architecture the skyscraper Chicago also cultivated a more humble but no less consequential form of modernism the private residence **Modern in the Middle Chicago Houses 1929-75** explores the substantial yet overlooked role that Chicago and its suburbs played in the development of the modern single family house in the twentieth century In a city often associated with the outsize reputations of Frank Lloyd Wright and Ludwig Mies van der Rohe the examples discussed in this generously illustrated book expand and enrich the story of the region's built environment Authors Susan Benjamin and Michelangelo Sabatino survey dozens of influential houses by architects whose contributions are ripe for reappraisal such as Paul Schweikher Harry Weese Keck Keck and William Pereira From the bold early example of the Battledock House by Henry Dubin 1930 to John Vinci and Lawrence Kenny's gem the Freeark House 1975 the generation spanning residences discussed here reveal how these architects contended with climate and natural setting while negotiating the dominant influences of Wright and Mies They also reveal how residential clients typically middle class professionals progressive in their thinking helped to trailblaze modern architecture in America Though reflecting different approaches to site space structure and materials the examples in **Modern in the Middle** reveal an abundance of astonishing houses that have never been collected into one study until now
