Edwin Arlington Robinson Nancy Carol Joyner,1978 **Edwin Arlington Robinson** Ellsworth Barnard,1969
Robinson had an organic and ineradicable need to embody in verse his response to the world of which he found himself a part
It was his passion to write poetry that destroyed any potential leaning toward other occupations *A Critical Study of the Poetry of Edwin Arlington Robinson* Robert M. Ormes,1927 **Edwin Arlington Robinson** Ellsworth Barnard,1969

developments in American literature between 1880 and 1919. It opens with an account of the consolidation of realism as the dominant standard of critical value and brings the reader forward to the moment at the end of World War I when American writers began to take a recognized place among the masters of literary modernism. The ascendancy of the novel as the principal genre of the realists is presented against a broader cultural and historical background. Professor Berthoff reviews and evaluates American fiction from the time when Howells, Twain and Henry James were still under attack by old school idealizers to the emergence of a new critical and testamentary realism with Crane, Dreiser and Gertrude Stein. He shows how the writers under discussion reacted to the work of their predecessors and contemporaries to foreign literary currents, innovations in journalism, contemporary events and to changing mores. Using specific examples and direct quotations, Professor Berthoff appraises the strengths and limitations of each. All his discussions, even of secondary writers, are rounded out with a wide range of critical opinion. This approach gives depth and objectivity to the examination of a turbulent and vigorously creative age in American letters. During this period the writings of Henry Adams, Henry George, William James, Thorstein Veblen and others, though primarily concerned with disciplined reflective inquiry, were part of the essential imaginative effort of realism. The master works of this highly literate group of speculative thinkers had a profound effect on the literature of the era and on the era directly following. Important figures discussed in the final chapters of this history include Willa Cather, Edith Wharton, Frank Norris, Vachel Lindsay and Jack London. Professor Berthoff notes that there is no manifesto or turning point in literature exactly comparable to the turning point in American art created by the Armory Show of 1913. But the emergence in a single generation of Robinson, Frost, Stevens, Pound, Anderson, Stein, O'Neill and Eliot was to have immense influence not only in America but throughout the Western world. The thirty-five years that this book spans are among the most important and interesting in the history of American letters. The main currents traced are still vital and the principal writers of this period are as important now as they were then. — *E. A. Robinson's Narrative Poetry*, Faisal

Al-Doori, 2023-07-10. Edwin Arlington Robinson was a prolific American poet during the 1920s. This book approaches one of the critical features of Robinson's poetry often overlooked by critics, which is his method of narration. Narration is one of the crucial points in Robinson's poetry that puzzles his critics. Robinson's poems are portraits that include characters, setting, a method of narration and all other points that fit any narrative piece. This book takes as its point of departure the idea that unless Robinson's narrative approach is discussed, no proper understanding of his poems will be achieved. The book deals with the influence of New England and Puritanism on the poet's life and works. The book studies the poet's shorter and longer poems. It also includes the study of his masterpiece *The Man Against the Sky*. — **Arthurian Writers**, Laura Lambdin, Robert Thomas Lambdin, 2007-11-30. King Arthur is perhaps the central figure of the medieval world and the lore of Camelot has captivated literary imaginations from the Middle Ages to the present. Included in this volume are extended entries on more than 30 writers who incorporate Arthurian legend in their works. Arranged chronologically, the entries trace
