Een Bedrijfs Economische Analyse Van Bouwen En Wonen:

Economics of Property Management: The Building as a Means of Production Herman Tempelmans Plat, Frank Heynick, 2012-06-25 The economic analysis of a building is a complex subject and traditionally it has focused on a single aspect of the structure or a single part of the construction process Dr Tempelmans Plat is a leading proponent of a new methodology which focuses on the building as a stock of services to be supplied over a long lifespan This method is more realistic since it takes into account the changes in use and the adaptation of the building over its life This book will be the first to make this method comprehensible to a wide audience of postgraduate students and professionals in the field of construction economics *The Economics of Property Management* Herman Tempelmans Plat, Frank Heynick, 2001 The author of this book is a leading proponent of a new methodology that focuses on the building as a stock of services to be supplied over a long lifespan This way of working takes into account the changes in use and the adaptation of the building over its life

Culture in International Construction Wilco Tijhuis, Richard Fellows, 2012-06-26 Recent research has generated profound insights into international differences in business culture This new work presents up to date theory and practical guidance identifying situations in which cultural differences present challenges A focus on critical incidents demonstrated in a range of case studies will help readers to foresee such situations in their own projects and processes and so improve strategic and operational decision making in construction collaborations
