The Successful Health Care Professional's Guide Philip K. Louie, Michael H. McCarthy, Todd J. Albert, 2022-04-26 The goal of this concise guide is to provide a resource of non medical skills and practices that have been shown to help healthcare trainees reach their peak performance There are many aspects of the healthcare education and training process that are necessary for excelling preparing for the next stage

and thriving at the level of the trainee's end goal. However, certain additional skills and principles are essential in reaching peak performance during training, career, and life. Often overlooked in formal training, these skills and principles can be found in a range of areas including leadership, goal setting, mentorship, relationships, skills training, stoicism, and financial planning, to name just a few. All are critical in medical career development, but learning these skills and principles often requires searching through numerous resources to acquire the needed information. Having completed the rigorous training involved in these professions, the accomplished chapter authors of this easy-to-read title offer insightful key points and tangible action items in each section, geared specifically to the trainee and their training education. In addition, authors from various non-medical sectors and professional backgrounds have contributed their expertise to this compendium, giving the book important interdisciplinary coverage. An invaluable and timely contribution to the health career development literature, *The Successful Health Care Professional's Guide* will be of great interest to medical students, residents, fellows, and all allied health professionals looking to develop the most successful and fulfilling career possible.

The Healthcare Answer Book

Healthcare Intelligence Network, 2006-09. The Healthcare Answer Book provides detailed solutions to 323 of the top challenges faced by healthcare executives today. You'll get recommended software and tools, staff ratios, program structures, ROI measurement, and results for various programs protecting patient privacy and security in a number of scenarios answered by some of the nation's leading healthcare experts to help you plan, evaluate, manage, and improve your organization's healthcare initiatives. Compiled from a series of live audio conferences in which these industry experts answered questions from the field, this report delves into a variety of topics including cost containment, disease management, eHealth initiatives, HIPAA security and privacy, healthcare industry trends, and workplace wellness. Indexed by topic and by keyword, this guide will become your indispensable research assistant for questions that challenge you and your staff each day. You'll get the answers you need to such questions as:

- Cost Containment: What type of software tools are you using for predictive modeling? Which predictive modeling tools are best for the ROI calculation? What level of payment or financial risk is needed to change provider behavior? What is the range of pay for performance paybacks, and how often are they calculated? What is the best ROI methodology on P4P programs that you have evaluated, and how does it work? Are tiered networks feasible in smaller markets?
- Industry Trends: Do you have a recommended reading level for translated written materials for preventative services in either low socioeconomic status populations or for children? Also, is there a web site or written reference indicating how to do that? In this era of consumer-driven healthcare, what quality-related information helps consumers make informed choices about health plans or providers?
- eHealth Initiatives: What screening requirements do you use for telemedicine patients? Do you evaluate factors outside disease severity? Can you describe the kind of investment needed to implement eHealth tools, how quickly you can achieve an ROI, and what kind of ROIs you can expect? What criteria are payors and physicians using to determine whether or not an e-visit is billable? Are there clear-cut guidelines? What lessons

have you learned through your personal health record rollout process What advice can you share with other organizations as they implement their own PHRs HIPAA Security and Privacy What are the biggest challenges to offering single sign on How do you secure e health physician patient communication Disease Management How do strategies for asthma disease management differ for community based health programs that target the under served What is your staff to patient ratio in your depression management program How effective are physician specific report cards in getting physicians in practice with the guidelines Is there any other type of literature that would support the effectiveness as well What is an accurate assessment of a member s readiness to change and how do you create interventions that are applicable to each member s stage of readiness How are the health coaches trained and what kind of training gets them geared up to work with patients What is the average amount of time a health coach spends per call per participant The Healthcare Answer Book is also available on CD ROM with keyword searching capability Table of Contents About This Document Cost Containment o Predictive Modeling o Pay for Performance o Predictive Modeling in Pay for Performance o Predictive Modeling for Asthma Pre Natal o Reducing Trend Spend o Tiered Networks Industry Trends o Cultural Competency o Physician Engagement o Health Plan Quality Improvement o URAC Standards for Consumer Education and Support o The Patient s Home The New Healthcare Hub e Health Initiatives o Web Technology in CDHC o e Visits o Moving from High Tech to High Touch o The Role of e Health Initiatives o Personal Health Records Electronic Medical Records Disease Management o Asthma o Obesity o Depression o Behavior Modification o Resistant Patients o Health Coaches o Health Coach Training o Pre and Post Natal Care o The Role of Primary Care Physicians o Healthcare Toolkits Workplace Wellness o HRAs o Incentives for Healthy Lifestyles o A Team Approach to Wellness HIPAA Security and Privacy o HIPAA Security Compliance o HIPAA Security Auditing Audit Trails Audit Logs o HIPAA Security Risk Assessment About the Experts Glossary For More Information Index
