Egalitarian Politics in the Age of Globalization Craig N. Murphy, 2016-01-11 In recent years women's movements and democracy movements appear to have been more successful in promoting social equality than labour movements or development movements Wage gaps between men and women have narrowed New democracies have flourished Yet gaps between the rich and poor remain Do differences in organization and strategy account for the differences in outcomes Through in depth studies of the United States Eastern and Western Europe Latin America Africa China and north and southeast Asia the contributors to this volume provide some thought provoking answers *Globalizing International Political Economy* Nicola Phillips, 2017-10-07 Despite its claims to global scope and relevance International Political Economy as a field of study remains entrenched in a narrow set of theoretical conceptual and empirical foundations derived from the experiences of the advanced industrialized democracies Bringing together specially commissioned chapters by leading authorities in each key area of debate *Globalizing International Political Economy* provides a systematic examination and critique of contemporary IPE and puts forward a new agenda for a truly global political economy **Critical International Political Economy** Stuart Shields, Ian Bruff, Huw Macartney, 2011-02-01 Amidst the continued debate surrounding the foundations of IPE coupled with recent methodological and theoretical divides this book argues that an attempt should be made to re visit the notion of the critical The challenge posed by contributors to this volume is to assess the development of so called critical IPE and interrogate whether the theoretical foundations it was built upon have reached their potential The essays in this volume take up this challenge in a number of different ways but all share a common concern to re assess the purpose of critical approaches reflect on why certain social theorists have been favoured as a point of departure yet others have largely been ignored In light of recent debates on the notion of a trans Atlantic divide within IPE the collection the contributors aim demonstrates how the distinction between the critical and the orthodox or empirical is only significant if the critical is geared towards a larger more substantial body of critical social enquiry and engages with what it means to conduct such enquiry *International Political Economy and Poststructural Politics* Marieke De Goede, 2006-03-14 This edited volume brings together leading scholars to debate the promises of poststructural politics within the study of the International Political Economy IPE The volume offers a sustained theoretical dialogue on the meaning of discourse identity and representation for practices of political economy Turbulence and New Directions in Global Political Economy J.
