Preface is that the pervert puts an impersonal object between his desire and his accomplice This object can be a stereotype fantasy a gadget or a pornographic image All three alienate the pervert from himself as alas from the object of desire With its wealth of clinical and theoretical insights Masud Khan's *Alienation in Perversions* makes a major contribution to our understanding of perversion formation

The Risk of Relatedness Chris Jaenicke, 2007-10-23 The success of psychotherapy depends on the development of both the patient and the psychotherapist This is the central thesis of Jaenicke's book which addresses the clinical application of intersubjectivity theory in terms of the risk what Jaenicke terms the risk of relatedness the theory poses to both therapist and patient when executed as practice In contrast to Freudian theory intersubjectivity theory considers therapy a process that is co constructed by patient and therapist where the therapist eschews the role of neutral authority who provides patients with new insights and whose subjective reaction to the therapeutic process is sealed off from the therapist patient interaction Jaenicke translates and reformulates the theory's complexities into the terms of practical psychotherapeutic work Using eight fundamental psychoanalytic concepts empathy defense splitting the unconscious trauma the myth of the isolated mind transference countertransference and affect he gives a vivid account of how intersubjectivity theory can be put into practice while describing common difficulties Numerous case studies provide concrete examples

What Job's Friends Could Have Done Stephen Torr, 2025-08-19 In a world that is becoming more aware of the impact of traumatic experiences on the lives of individuals the church is faced with the challenge of examining how to do life well together in a way that helps rather than hinders those who are living in the aftermath of trauma Beginning with the question of what Job's friends could have done differently to help Job in the midst of his suffering the present work draws on Kevin Vanhoozer's theodramatic model and the Object Relations Theory of British pediatrician and psychoanalyst Donald Winnicott to provide biblically rooted guidance for developing a trauma sensitive church In bringing these perspectives together exploration takes place into what it means to be made in the image of God in the theodrama and what the church's role is in enabling the christological form of this image to take shape in each individual particularly in the aftermath of individual trauma The work of Winnicott provides fresh insight into how this development might be facilitated by the church within the theodrama of salvation
