The Portfolio ,1877 Every Traveller Needs a Compass Neil Cooke,Vanessa Daubney,2015-10-31 A varied and charming collection of 17 papers that bring something new about the people from many countries and backgrounds who traveled to from and within Egypt and the Near East either singly or as a group and explored observed and recorded or stayed for a short period of time to improve their health or simply to enjoy the experience While some travelers kept a diary or journal that has survived until today others did not Their travels have to be extracted from the wide range of manuscript sources that are thankfully retained in libraries and archives or which still remain with their descendants Sometimes the name of a traveler is only contained in a few words within a single piece of correspondence or journal entry yet from such small beginnings and through detective work to link the chance meetings between travelers with a location or news of a shared event it is often possible to chart part of a traveler's journey and bring to life a person who has long been forgotten These minor characters and their travails often bring a new perspective to well known places and events **Egypt's Ruin** Fedor Aronovich Rotshtein,1910 **Publications of the Egyptian Research Account** ,1911 **Minerals Yearbook** ,2008 **Bulletin of the New York Public Library** New York Public Library,1916 Includes its Report 1896 19 **Luzac's Oriental List and Book Review** ,1919 A Companion to Greco-Roman and Late Antique Egypt Katelijn Vandorpe,2019-03-19 An authoritative and multidisciplinary Companion to Egypt during the Greco Roman and Late Antique period With contributions from noted authorities in the field A Companion to Greco Roman and Late Antique Egypt offers a comprehensive resource that covers almost 1000 years of Egyptian history starting with the liberation of Egypt from Persian rule by Alexander the Great in 332 BC and ending in AD 642 when Arab rule started in the Nile country The Companion takes a largely sociological perspective and includes a section on life portraits at the end of each part The theme of identity in a multicultural environment and a chapter on the quality of life of Egypt's inhabitants clearly illustrate this objective The authors put the emphasis on the changes that occurred in the Greco Roman and Late Antique periods as illustrated by such topics as Traditional religious life challenged Governing a country with a past between tradition and innovation and Creative minds in theory and praxis This important resource Discusses how Egypt became part of a globalizing world in Hellenistic Roman and Byzantine times Explores notable innovations by the Ptolemies and Romans Puts the focus on the longue dur e

Portfolio Selection Using Goal Programming Rania Azmi,2014-10-16 This book provides both practitioners and academics with a scientific approach to portfolio selection using Goal Programming an approach which is capable as far as is possible of achieving a required set of preferences deemed appropriate by a decision maker Goal Programming is perhaps the most widely used approach in the field of multiple criteria decision making that enables the decision maker to incorporate numerous variations of constraints and goals The original portfolio selection problem with risk and return optimisation can be viewed as a case of Goal Programming with two objectives Additional objectives representing other factors such as liquidity can be introduced for a more realistic approach to portfolio selection problems This book comes in a time where scientific frameworks for investment decision making are absolutely necessary that is after the recent financial and economic crisis where irrational decisions and a misuse of mathematical models had equally fed into the spiral of the financial crisis The real world decision problems are usually changeable complex and resist treatment with conventional approaches Therefore the optimisation of a single objective subject to a set of rigid constraints is in most cases unrealistic and that is why Goal Programming was introduced in an attempt to eliminate or at least mitigate this shortcoming Most mathematical models are based on very strong theoretical assumptions which are not entirely respected by markets in practice In contrast Goal Programming models are based on real world cases where the most feasible solution is sought as opposed to an ideal simplified solution Therefore this book provides practitioners with a new and superior scientific framework for investment decision making while aiming to stimulate further research and development Moreover the book provides scientific approaches for portfolio selection with Goal Programming which will provide added value for practitioners in complementing their financial expertise with a sound scientific decision making framework **Topographical**

Bibliography of Ancient Egyptian Hieroglyphic Texts, Reliefs, and Paintings: Upper Egypt: Chief temples (Excluding Thebes), Abydos, Dendere, Esna, Edfu, Kôm Ombo, and Philae Bertha Porter,1960 **Imagined Empires** Zeinab Abul-Magd,2013-09-20 Through a microhistory of a small province in Upper Egypt this book investigates the history of five world empires that assumed hegemony in Qina province over the last five centuries Imagined Empires charts modes of subaltern rebellion against the destructive policies of colonial intruders and collaborating local elites in the south of Egypt Abul Magd vividly narrates stories of sabotage banditry flight and massive uprisings of peasants and laborers to challenge myths of imperial competence The book depicts forms of subaltern discontent against imagined empires that failed in achieving their professed goals and brought about environmental crises to Qina province As the book deconstructs myths

about early modern and modern world hegemony it reveals that imperial modernity and its market economy altered existing systems of landownership irrigation and trade leading to such destructive occurrences as the plague and cholera epidemics The book also deconstructs myths in Egyptian historiography highlighting the problems of a Cairo centered idea of the Egyptian nation state The book covers the Ottoman French Muhammad Ali's and the British informal and formal empires It alludes to the U S and its failed market economy in Upper Egypt which partially resulted in Qina's participation in the 2011 revolution *Imagined Empires* is a timely addition to Middle Eastern and world history Global Stock Markets and Portfolio Management S. Motamen-Samadian, 2006-04-12 This book presents the latest empirical findings on stock markets in a number of emerging markets The authors employ the latest techniques and provide valuable insights into each market highlighting global integration their potential for profitable investments and features that will be influential in global portfolio decision making
