Cramp, 1997-03 Long out of print Cramp's 1966 classic book on flying saucer propulsion and suppressed technology is available again Cramp wrote *Space Gravity and the Flying Saucer* in 1954 and was Vice President of the British UFO Research Association BUFORA This is a highly technical look at the UFO phenomenon by a trained scientist Cramp first introduces the idea of anti gravity and introduces us to the various theories of gravitation He then examines the technology necessary to build a flying saucer and examines in great detail the technical aspects of such a craft Cramp's book is a wealth of material and diagrams on flying saucers anti gravity suppressed technology G fields and UFOs *Contesting Antiquity in Egypt* Donald Malcolm Reid, 2019-09-03 The history of the struggles for control over Egypt's antiquities and their repercussions during a period of intense national ferment The sensational discovery in 1922 of Tutankhamun's tomb close on the heels of Britain's declaration of Egyptian independence accelerated the growth in Egypt of both Egyptology as a formal discipline and of pharaonism

popular interest in ancient Egypt as an inspiration in the struggle for full independence Emphasizing the three decades from 1922 until Nasser's revolution in 1952 this compelling follow up to *Whose Pharaohs* looks at the ways in which Egypt developed its own archaeologies Islamic Coptic and Greco Roman as well as the more dominant ancient Egyptian Each of these four archaeologies had given birth to and grown up around a major antiquities museum in Egypt Later Cairo Alexandria and Ain Shams universities joined in shaping these fields *Contesting Antiquity in Egypt* brings all four disciplines as well as the closely related history of tourism together in a single engaging framework Throughout this semi colonial era the British fought a prolonged rearguard action to retain control of the country while the French continued to dominate the Antiquities Service as they had since 1858 Traditional accounts highlight the role of European and American archaeologists in discovering and interpreting Egypt's long past Donald Reid redresses the balance by also paying close attention to the lives and careers of often neglected Egyptian specialists He draws attention not only to the contests between westerners and Egyptians over the control of antiquities but also to passionate debates among Egyptians themselves over pharaonism in relation to Islam and Arabism during a critical period of nascent nationalism Drawing on rich archival and published sources extensive interviews and material objects ranging from statues and murals to photographs and postage stamps this comprehensive study by one of the leading scholars in the field will make fascinating reading for scholars and students of Middle East history archaeology politics and museum and heritage studies as well as for the interested lay reader *The Literary Year-book*, 1903 **The Ancient Egyptian Culture Revealed** Moustafa Gadalla, 2007 This book reveals several aspects of the Ancient Egyptian culture such as the very remote antiquities of Egypt the Egyptian characteristics and religious beliefs and practices their social political system their cosmic temples the richness of their language musical heritage and comprehensive sciences their advanced medicine their vibrant economy excellent agricultural and manufactured products their transportation system and much more **Egyptian Cooking** Samia Abdennour, 1985

to fluency in a difficult language Arabic Dialogues explores the motivations of Arabic learners and effectiveness of instructional materials principally in Egypt and Palestine by analysing a corpus of Arabic phrasebooks published in nine languages English French German Spanish Portuguese Italian Yiddish Hebrew Russian and in the territory of twenty five modern countries Beginning with Napoleon s Expedition d gypte 1798 1801 it moves through the periods of mass tourism and European colonialism in the Middle East concluding with the Second World War The book also considers how Arab intellectuals understood the project of teaching Arabic to foreigners the remarkable history of Arabic learning among Yiddish and Hebrew speaking immigrants in Palestine and the networks of language learners teachers and plagiarists who produced these phrasebooks

Lost Knowledge and Forbidden Secrets in Ancient Egypt Ezra Ivanov, We are not including in our history the stories of Herodotus and certain other writers who deliberately chose fables over facts and spun yarns for amusement only We will however outline what the priests of Egypt wrote in their sacred records which we have examined minutely and thoroughly The author describes an arcane doctrine believed lost to time It may be based on events that occurred more than 3 000 years ago but Khaemwas still evokes the mystic heritage of Egypt Traditional spiritual practices have always given people insight into their environments and allowed them to live harmoniously with them despite hardships that can only be imagined Despite advancements in science and technology we do not seem to be as equipped in the modern age Undoubtedly this is why we look to pass cultures such as Egypt for the elusive insights and powers we miss We are like Khaemwas in many ways We want to comprehend the mysteries of daily life and discover the source of all wisdom Egypt s mystic heritage continues to attract our attention for these reasons So many ancients spoke of a legacy What is it Egyptian legends freely circulated among travelers as noted by the Greek historian Diodorus Siculus 60 B C E Furthermore the temples and tombs were regularly documented with similar stories Some legends spoke of their gods royal figures sages and adventurers who embodied the natural and supernatural forces of the world around them A great deal of the information was gleaned from

ancient texts Yet they differed from myths of other cultures including Greek myths which viewed it as a symbol of natural phenomena or metaphor for the universe rather than a factual narrative Ancient Egyptians were not so rigid in their philosophical thinking they made no distinction between myth and legend Chronicles they inherited from Antiquity were believed to be actual events either during a historical time when their gods inhabited the Earth or in a dimension they called timeless time when human beings had direct access to divine powers Because legends gave meaning and purpose to the past present and future they were vital and practical

Tut-Ankh-Amen Moustafa Gadalla,1997 This book provides the overwhelming evidence from archaeology the Dead Sea Scrolls the Talmud and the Bible itself that Tut Ankh Amen was the historical character of Jesus The book examines the details of Tut s birth life death resurrection family roots religion teachings etc which were duplicated in the biblical account of Jesus The book also reveals the world s greatest conspiracy and cover up that re created the character of Jesus living in another time Roman era and another place Palestine Israel *Egyptian Divinities* Moustafa Gadalla,2001 This brief examination of Egyptian religion as opposed to mythology argues that the ancient Egyptians believed in only one god and that each of the many divinities were created to represent or symbolise different aspects of that one supreme deity Gadalla examines the role and symbolism of each god or goddess in turn highlighting their place within Egyptian theology Each divinity is illustrated
